Fortinet FCP—FortiAuthenticator 6.5 Administrator Sample Questions (Q20-Q25):

NEW QUESTION # 20

What is the benefit of integrating FortiAuthenticator with Active Directory for single sign-on?

- A. It centralizes user management and reduces password fatigue
- B. It prevents any user logon events from being recorded
- C. It requires users to use different credentials for different resources
- D. It allows users to authenticate using only their email addresses

Answer: A

NEW QUESTION # 21

What is the role of the FortiAuthenticator certificate management service?

- A. Generating local certificates for various purposes
- B. Managing user passwords
- C. Managing network load balancing
- D. Handling firewall configurations

Answer: A

NEW QUESTION # 22

When a local root CA is created on FortiAuthenticator, the option to export the key and certificate is not available, however the option to export the certificate is.

Why is this the case?

- A. The certificate includes the private key for a local root certificate.
- B. For security reasons, a local root certificate includes OCSP responder information for automatic key retrieval.
- C. A private key is not generated for a local root certificate.
- D. There should never be a need to export the private key.

Answer: D

Explanation:

For security reasons, FortiAuthenticator does not allow exporting the private key of a local root CA, as the root private key must remain protected to maintain the integrity and trust of the entire PKI hierarchy.

NEW QUESTION # 23

What is the advantage of using FortiToken for two-factor authentication?

- A. It can generate unlimited tokens for free
- B. It can be easily integrated with any third-party authentication service
- C. It's a physical token made of solid gold
- D. It doesn't require user interaction for authentication

Answer: D

NEW QUESTION # 24

What is the benefit of using remote authentication services?

- A. They replace the need for encryption protocols
- B. They reduce the need for firewalls
- C. They increase network speed
- D. They enable secure access for users outside the corporate network

Answer: D
