

Test NCA-6.10 Online, Valid NCA-6.10 Exam Prep

BONUS!!! Download part of Prep4sureExam NCA-6.10 dumps for free: <https://drive.google.com/open?id=1d3FvEUmF4SNjh2ZUa4IiA8UclQ1V60VJ>

If you try on our NCA-6.10 exam braindumps, you will be very satisfied with its content and design. Trust me, you can't find anything better than our NCA-6.10 study materials. If you think I am exaggerating, you can try it for yourself. We can provide you with a free trial version. If you try another version and feel that our NCA-6.10 practice quiz are not bad, you can apply for another version of the learning materials again and choose the version that suits you best!

For candidates who will attend the exam, some practice is quite necessary. Our NCA-6.10 training materials contain both questions and answers, and you can have a quickly check after practicing. NCA-6.10 training materials cover most knowledge points for the exam, and you can have a good command of the exam if you choose us. Besides, in the process of ing, you professional ability will also be improved. We offer you free update for 365 days if you buying NCA-6.10 Exam Dumps from us. And the latest version will be sent to your email automatically.

Valid NCA-6.10 Exam Prep - Complete NCA-6.10 Exam Dumps

Tech firms award high-paying job contracts to Nutanix Certified Associate v6.10 (NCA-6.10) certification holders. Every year many aspirants appear in the NCA-6.10 test of the certification, but few of them cannot crack it because of not finding reliable Nutanix Certified Associate v6.10 prep materials. So, you must prepare with real exam questions to pass the certification exam. If you don't rely on actual exam questions, you will fail and loss time and money.

Nutanix Certified Associate v6.10 Sample Questions (Q55-Q60):

NEW QUESTION # 55

Which workload type would be a good fit for NFS on Objects?

- A. Filesystems used for transitory or work spaces
- B. Workloads that are updated frequently
- C. End user computing workloads
- D. Large-scale, read heavy workloads

Answer: D

Explanation:

The correct answer is C. Large-scale, read heavy workloads.

NFS on Objects is a Nutanix feature allowing NFS clients to interact with Nutanix Objects (S3-compatible object storage) by

exposing object buckets via NFS v3 protocol. This is ideal for workloads that require:

- * Large-scale access to unstructured data
- * High read concurrency
- * Cost-effective storage for infrequently changed files

Best Use Case:

Backup archives, analytics workloads, image repositories, or video streaming systems with read-heavy profiles.

Clarifications:

- * A (EUC workloads): Typically require fast, low-latency block storage (e.g., vDisks).
- * B (Transitory FS): Better suited for file services like Nutanix Files.
- * D (Frequent updates): Not ideal for object storage via NFS; performance will degrade under frequent write operations.

Official Reference:

- * Nutanix Objects with NFS Gateway - Best Practices
- * Nutanix Documentation Portal - Objects and NFS
- * Excerpt: "NFS on Objects is best suited for large-scale, read-heavy use cases where file system semantics are needed on top of object-based storage."

NEW QUESTION # 56

When is deduplication recommended?

- A. Cold data
- **B. Server workloads**
- C. Linked Clone VMs
- D. Full clone VMs

Answer: B

NEW QUESTION # 57

What type of NTP/time sources are recommended for Nutanix clusters?

- A. Rate-limited NTP sources
- **B. Internal NTP sources**
- C. Windows time sources
- D. External ISP NTP sources

Answer: B

Explanation:

The correct answer is B. Internal NTP sources.

Nutanix strongly recommends configuring reliable internal NTP sources (e.g., enterprise-managed NTP servers or domain NTP servers) to ensure:

- * Time consistency across all nodes and CVMs
 - * Accurate logging, monitoring, authentication (e.g., Kerberos), and cluster operations
 - * Avoiding dependency on external/public NTP sources, which may be rate-limited, unavailable, or blocked by firewalls
- Clarifications:
- * A (Windows time sources): Generally discouraged unless they are configured to use a stratum 1/2 reliable upstream source.
 - * C (Rate-limited sources): Not recommended; can result in dropped or inconsistent time updates.
 - * D (External ISP NTP): Not preferred for production clusters due to reliability concerns.

Prism UI Navigation Path:

Settings > NTP Servers

Official Reference:

- * Nutanix Best Practices Guide - NTP Configuration
- * Excerpt: "Use reliable and consistent internal NTP servers for all Nutanix clusters to maintain time synchronization."

NEW QUESTION # 58

What is true when adding a storage-only node to the cluster?

- **A. It must have the same hypervisor as the other nodes in the cluster.**
- B. Nutanix Objects must be deployed.

- C. It can have a different hypervisor than the other nodes in the cluster.
- D. Nutanix Files must be deployed.

Answer: A

Explanation:

The correct answer is C. It must have the same hypervisor as the other nodes in the cluster.

When adding a storage-only (SO) node to a Nutanix cluster:

- * It must run the same hypervisor as the existing nodes.
- * The SO node does not host VMs but participates in the storage layer to increase capacity and performance.
- * Nutanix currently does not support mixed hypervisors (e.g., combining AHV with ESXi) within the same cluster, even for storage-only nodes.

Clarifications:

- * A & B: Neither Nutanix Files nor Objects are required for adding storage-only nodes.
- * D: Cross-hypervisor configuration is unsupported at the cluster level.

Official Reference:

- * Nutanix Hardware Administration Guide - Storage-Only Node Requirements
- * Excerpt: "All nodes in a cluster, including storage-only nodes, must run the same hypervisor type."

NEW QUESTION # 59

An administrator wants to change from Redundancy Factor 2 to 3, but it is not allowed. What must the administrator check?

- **A. Check that the cluster has five or more nodes.**
- B. Check AOS version and upgrade, if needed.
- C. Check hardware availability of the nodes.
- D. Check that the cluster has been properly licensed.

Answer: A

NEW QUESTION # 60

.....

To be successful in your social life and own a high social status you must own good abilities in some area and plenty of knowledge. Passing the test NCA-6.10 exam can make you achieve those goals and prove that you are competent. Buying our NCA-6.10 practice test can help you pass the NCA-6.10 Exam fluently and the learning costs you little time and energy. The questions and answers of our NCA-6.10 test question are chosen elaborately and to simplify the important information to make your learning relaxing and efficient.
