#### 問題 #85

Which of the following must be in place to launch an ART?

- A. The System Team
- B. Shared Services
- C. An Iteration and PI cadence
- D. A strategy for unit testing and test automation

答案: C

解題說明:

To launch an Agile Release Train (ART), it is essential to have a clear and synchronized Iteration and PI cadence. This cadence aligns all teams on the ART, establishes the rhythm for delivery, and is a key readiness criterion for launching.

#### 問題 #86

In SAFe, Dunbar's number provides guidance for:

- A. The number of Stories created during PI Planning to enable commitment.
- B. The maximum number of tasks in a Program Increment for optimal predictability.
- C. The percent utilization that enables a sustainable pace.
- D. The number of members on a self-managing, self-organizing ART.

答案: D

解題說明:

Dunbar's number suggests a limit to the size of a cohesive, collaborative group, typically cited as 125-150 people. SAFe references Dunbar's number when suggesting the optimal size of an Agile Release Train (ART).

"Dunbar's number-around 125 people-provides a guideline for the maximum size of an ART." (Source: SAFe 6.0 Framework: Agile Release Train, Dunbar's Number)

#### 問題 #87

What are appropriate aspects of the System Architect's role in SAFe?

- A. Collaborate with PMs, POs, and Agile Teams to establish the Architectural Runway.
- B. Approve all the design work of teams before they can implement their user stories.
- C. Collaborate with Scrum Masters to establish the emergent design.
- D. Provide the designs behind each user story.
- E. Approve teams' increments into the mainline branch.

答案: A

解題說明:

The System Architect/Engineer's key responsibilities include collaborating with Product Management (PMs), Product Owners (POs), and Agile Teams to establish and evolve the Architectural Runway-the underlying technical infrastructure needed for current and near-term features. The architect does not serve as a gatekeeper for all designs or user stories but enables and supports emergent design and architecture.
