Avaya 77201X Exam Cost & Books 77201X PDF

The accuracy rate of Pass4cram 77201X exam certification training materials is high with wide coverage. It not only can improve your cultural knowledge, but also improve your operation level. It not only makes you become IT elite, but also make you have a well-paid job that others admire. Before buying our 77201X Certification Training materials, you can download 77201X free demo and answers on probation on Pass4cram website.

Avaya IP Office™ Platform Implement Certified Exam Sample Questions (Q20-Q25):

NEW QUESTION # 20

Which statement about the manager to Server Edition is true?

- A. Manager runs on the server itself.
- **B. Manager shows the status of all servers on one screen.**
- C. Manager has been ported to Web Management.
- D. Manager includes Voicemail Pro Client.

Answer: B

Explanation:

The Avaya IP Office Manager is a critical administrative tool used to configure and manage IP Office systems, including the Server Edition. The Server Edition is a scalable solution designed for larger deployments, allowing multiple IP Office servers (Primary, Secondary, and Expansion systems) to work together as a single system. Option B, "Manager shows the status of all servers on one screen," is true because, in Server Edition deployments, the IP Office Manager provides a consolidated view of the network, displaying the status of all connected servers (e.g., Primary Server, Secondary Server, and Expansion Systems) in a single interface. This feature simplifies monitoring and management across distributed systems.

Option A is incorrect because, while web-based management exists (via Web Manager), the traditional Manager application is a standalone Windows-based tool, not fully ported to Web Management. Option C is incorrect as the Voicemail Pro Client is a separate application, not bundled within Manager. Option D is also incorrect because Manager is typically installed on a separate

PC, not directly on the server itself, though it communicates with the server for configuration. References: Avaya IP Office Platform Server Edition Reference Configuration Guide, IP Office Manager documentation.

NEW QUESTION # 21

Which license is required to enable resilience in IP Office Server Edition?

- A. Preferred Edition
- B. Advanced Edition
- C. Essential Edition
- **D. Server Edition**

Answer: D

Explanation:

Resilience, including Secondary Server failover, is a feature of the "Server Edition" license (Option D). This license unlocks multi-server capabilities beyond the standalone Essential (Option A), Preferred (Option B), or Advanced (Option C) editions, which lack full resilience support. References: Avaya IP Office Server Edition Licensing Guide.

NEW QUESTION # 22

Which feature allows an IP Office user to see the presence status of other users?

- A. Voicemail Pro
- B. System Status
- C. SoftConsole
- **D. one-X Portal**

Answer: D

Explanation:

The one-X Portal (Option B) provides a web-based interface where users can see the presence status (e.g., available, busy) of other IP Office users, enhancing collaboration. Option A (SoftConsole) is for call handling, Option C (Voicemail Pro) is for voicemail, and Option D (System Status) is for system monitoring-not user presence. References: Avaya IP Office one-X Portal User Guide.

NEW QUESTION # 23

Which feature is exclusive to Voicemail Pro and not available in Embedded Voicemail?

- A. Hunt Group Announcements
- **B. Customizable call flows**
- C. Mailbox greetings
- D. Auto Attendant

Answer: B

Explanation:

Voicemail Pro offers advanced features beyond Embedded Voicemail, including customizable call flows (Option B). This allows administrators to create complex IVR menus and conditional routing using the Voicemail Pro graphical editor, which Embedded Voicemail lacks. Option A (Auto Attendant) and Option C (Hunt Group Announcements) are supported by both systems, though Voicemail Pro offers more customization. Option D (Mailbox greetings) is a basic feature available in both. References: Avaya IP Office Voicemail Pro Administration Guide, Embedded Voicemail User Guide.

NEW QUESTION # 24

Which Voicemail Pro element allows a customer to modify a condition in a call flow without using the Voicemail Pro Client?

- A. Set User Variable Action
- **B. Test User Action**

- Answer: B**
