The PDI PDF is the most convenient format to go through all exam questions easily. It is a compilation of actual Salesforce PDI exam questions and answers. The PDF is also printable so you can conveniently have a hard copy of Salesforce PDI Dumps with you on occasions when you have spare time for quick revision.

Salesforce PDI Certification Exam tests candidates on their knowledge of the Salesforce platform's core features, including data modeling, user interface development, and business logic implementation. PDI exam consists of 60 multiple-choice questions that must be completed within 105 minutes. Candidates must achieve a passing score of 65% or higher to earn the certification.

Salesforce PDI Certification Exam is a valuable credential for anyone looking to advance their career in Salesforce development. Platform Developer I (PDI) certification validates the candidate's knowledge and skills in developing custom applications on the Salesforce platform, making them a valuable asset to any organization looking to implement or enhance their Salesforce CRM system.

Valid PDI Vce Dumps & Practice PDI Exam

Hundreds of applicants who register themselves for the Platform Developer I (PDI) (PDI) certification exam, lack updated practice test questions to prepare successfully in a short time. As a result of which, they don't crack the Platform Developer I (PDI) (PDI) examination which causes a loss of time and money and sometimes loss of the encouragement to take the test for the second time. PDFTorrent can save you from facing these issues with its real Salesforce PDI Exam Questions.

Salesforce Platform Developer I (PDI) Sample Questions (Q33-Q38):

NEW QUESTION # 33

A lead developer creates an Apex interface called "Laptop". Consider the following code snippet:

How can a developer use the Laptop Interface within the Silverlaptop class?

- A. `public class SilverLaptop extends Laptop`
- B. `public class Silverlaptop implements Laptop`
- C. `@Extends(class=Laptop)`
`public class SilverLaptop`
- D. `@Interface (class="Laptop")`
`public class SilverLaptop`

Answer: A

NEW QUESTION # 34

Which three steps allow a custom SVG to be included in a Lightning web component? Choose 3 answers

- A. Import the SVG as a content asset file.
- **B. Import the static resource and provide a getter for it in JavaScript.**
- **C. Upload the SVG as a static resource.**
- **D. Reference the getter in the HTML template.**
- E. Reference the import in the HTML template.

Answer: B,C,D

NEW QUESTION # 35

Universal Containers has a support process that allows users to request support from its engineering team using a custom object, Engineering_Support__c.

Users should be able to associate multiple Engineering_support__c records to a single Opportunity record. Additionally, aggregate information about the Engineering_Support__c records should be shown on the Opportunity record.

Which relationship field should be implemented to support these requirements?

- A. Master-detail field from Opportunity to Engineering_Supports__c
- B. Lookup field from Engineering_Support__c to Opportunity
- **C. Master-detail field from Engineering_Support__c to Opportunity**
- D. Lookup field from Opportunity to Engineering_Support__c

Answer: C

Explanation:

To associate multiple Engineering_Support__c records to a single Opportunity and display aggregate information on the Opportunity:

Option B: Master-detail field from Engineering_Support__c to Opportunity
Master-Detail Relationship: Creating a master-detail relationship from Engineering_Support__c (detail) to Opportunity (master) allows multiple support records to be related to one Opportunity.

Aggregate Information: Master-detail relationships support roll-up summary fields, enabling aggregate calculations (like COUNT, SUM) on the Opportunity object based on related Engineering_Support__c records.

Reference:

"You can create roll-up summary fields on the master object in a master-detail relationship."

- Salesforce Help: Roll-Up Summary Fields Overview

Why Other Options Are Incorrect:

Option A: Lookup field from Opportunity to Engineering_Support__c

This would allow only one Opportunity to be associated with one Engineering_Support__c, and does not support roll-up summary fields.

Option C: Master-detail field from Opportunity to Engineering_Support__c
You cannot create a master-detail relationship from a standard object (Opportunity) to a custom object in this direction.

Option D: Lookup field from Engineering_Support__c to Opportunity

Lookup relationships do not support roll-up summary fields, so aggregate information cannot be displayed on the Opportunity.

NEW QUESTION # 36

What are three ways for a developer to execute tests in an org? Choose 3.

- A. Bulk API
- **B. ToolingAPI**
- C. Developer Console
- **D. Setup Menu**
- **E. Metadata API**

Answer: B,D,E

NEW QUESTION # 37

A company wants to create an employee rating program that allows employees to rate each other. An employee's average rating must be displayed on the employee record. Employees must be able to create rating records, but are not allowed to create employee records. Which two actions should a developer take to accomplish this task? choose 2 answers

- A. Create a master-detail relationship between the rating and employee object
- B. Create a roll-up summary field on the employee and use avg to calculate the average rating score
- C. Create a trigger on the rating object that updates a field on the employee object
- D. Create a lookup relationship between the rating and employee object

Answer: A,B

NEW QUESTION # 38

.....

Users do not need to spend too much time on PDI questions torrent, only need to use their time pieces for efficient learning, the cost is about 20 to 30 hours, users can easily master the test key and difficulties of questions and answers of PDI Prep Guide, and in such a short time acquisition of accurate examination skills, better answer out of step, so as to realize high pass the qualification test, has obtained the corresponding qualification certificate.
