NEW QUESTION # 448

How does PRINCE2 ensure that the specific management needs of an organization are met?

- **A. By incorporating tailoring**
- B. By mandating training
- C. By representing best practice
- D. By focusing on viability

Answer: A

Explanation:

PRINCE2 ensures that the specific management needs of an organization are met by incorporating tailoring. Tailoring involves adapting the method to suit the project's environment, size, complexity, importance, capability, and risk. It allows organizations to apply PRINCE2 effectively across different types of projects and organizational environments. References: PRINCE2 Foundation Manual

NEW QUESTION # 449

Which statement about capability and competency within a project is CORRECT?

- A. People within a team will perform equally when working with different people
- **B. People who appear to have the same skills and experience will probably undertake the same tasks in different ways**
- C. People working as team members often have conflicting priorities contrary to the project's needs
- D. People who have participated in developing ways of working are more willing to be managed

Answer: B

Explanation:

This statement is correct as it highlights the individual differences among team members who may have similar skills and experiences but approach tasks differently. This variability can influence the way tasks are executed within a project, impacting team dynamics, project management approaches, and ultimately the project's success. Recognizing and managing these differences are crucial for

effective team collaboration and project delivery.
(PRINCE2 7 Foundation Handbook, AXELOS)

NEW QUESTION # 450

Which statement about stages is true?

- A. Management stages are driven by specialist teams
- B. The use of technical stages is mandatory
- **C. The use of management stages is mandatory**
- D. Management stages should be of the same duration

Answer: C

NEW QUESTION # 451

Which describes an off-specification?

- **A. The production of more than the defined quantity of a specialist product**
- B. The addition of an improvement to a product description
- C. An interdependency between products that was previously unidentified
- D. That the right people are involved in appropriate roles
- E. A prototype demonstrating a possible design solution

Answer: A

Explanation:

An off-specification in PRINCE2 is a situation where a planned product does not meet its quality criteria or fails to deliver within the set tolerance levels. This could involve producing more or less of a product than was specified, or any other deviation from the product's agreed-upon specifications.
