

# JN0-281 Exam Testking, JN0-281 Latest Demo

BONUS!!! Download part of Exams-boost JN0-281 dumps for free: <https://drive.google.com/open?id=12YsgQ4lSDWru-T5zUKC7eON44S0jjxgf>

As for the JN0-281 study materials themselves, they boost multiple functions to assist the learners to learn the JN0-281 learning dumps efficiently from different angles. For example, the function to stimulate the exam can help the exam candidates be familiar with the atmosphere and the pace of the Real JN0-281 Exam and avoid some unexpected problem occur such as the clients answer the questions in a slow speed and with a very anxious mood which is caused by the reason of lacking confidence.

A certificate is not only an affirmation of your ability, but also can improve your competitive force in the job market. JN0-281 training materials of us can help you pass the exam and get the certificate successfully if you choose us. JN0-281 exam dumps are reviewed by experienced experts, they are quite familiar with the exam center, and you can get the latest information of the JN0-281 Training Materials if you choose us. We also pass guarantee and money back guarantee if you choose JN0-281 exam dumps of us. You give us trust, and we will help you pass the exam successfully.

## Free PDF 2026 Juniper JN0-281: Pass-Sure Data Center, Associate (JNCIA-DC) Exam Testking

Maybe you are still having trouble with the Juniper JN0-281 exam; maybe you still don't know how to choose the JN0-281 exam materials; maybe you are still hesitant. But now, your search is ended as you have got to the right place where you can catch the finest JN0-281 exam materials. Here you can answer your doubts; you can easily pass the exam on your first attempt. All applicants who are working on the JN0-281 exam are expected to achieve their goals, but there are many ways to prepare for exam. Everyone may have their own way to discover. Some candidates may like to accept the help of their friends or mentors, and some candidates may only rely on some JN0-281 books. But none of these ways are more effective than our JN0-281 exam material. In summary, choose our exam materials will be the best method to defeat the exam.

## Juniper Data Center, Associate (JNCIA-DC) Sample Questions (Q155-Q160):

### NEW QUESTION # 155

Exhibit:

Referring to the exhibit, which two statements are correct about default BGP advertisements? (Choose two.)

- A. When routes advertised by router2 are received by the SP router, they will contain the next-hop address of router1.
- B. When routes advertised by the SP router are received by router2, they will contain the next-hop address of the SP router.
- C. When routes advertised by the SP router are received by router2, they will contain the next-hop address of router1.
- D. When routes advertised by router2 are received by the SP router, they will contain the next-hop address of router2.

**Answer: A,C**

Explanation:

The exhibit shows a BGP peering scenario between three routers: router1 and router2 are part of the same AS (AS65000), while the SP router is in a different AS (AS65101). This indicates an EBGP (External BGP) peering between the SP router and router1, and IBGP between router1 and router2.

Step-by-Step Breakdown:

Next-Hop Behavior in BGP:

IBGP: In IBGP, the next-hop address is not modified when advertising routes within the same AS. Thus, when router1 advertises routes learned from router2 to the SP router, it will keep the next-hop address of router1, not router2.

EBGP: In EBGP, the next-hop address is modified. When router1 receives routes from the SP router, it will advertise them to router2 with the next-hop address of router1.

Route Propagation:

Routes received by router1 from router2 will be advertised to the SP router with router1 as the next hop.

Similarly, routes advertised by the SP router will be passed on to router2, with router1 remaining as the next hop.

Juniper

Reference: BGP Next-Hop: Juniper's BGP implementations follow standard BGP next-hop behavior, where the next-hop is modified in EBGP but not in IBGP, ensuring proper route advertisement across autonomous systems.

### NEW QUESTION # 156

What is a key characteristic of traditional multi-tier data center architectures?

- A. They primarily use a flat network design.
- B. They consist of a modular, scalable design.
- C. They exclusively use Layer 3 routing.
- D. They are organized in a hierarchical model with distinct layers.

**Answer: D**

### NEW QUESTION # 157

Which statement is correct about per-flow load balancing?

- A. The packets are guaranteed to arrive at their destination in a different order in which they were sent.
- B. Packets associated with the same flow are sent through the same egress port.
- C. The packets are guaranteed to arrive at their destination in the same order in which they were sent.
- D. Packets associated with the same flow are sent through different egress ports.

**Answer: B**

Explanation:

Per-flow load balancing ensures that packets within the same flow are always forwarded over the same path, ensuring that packet order is preserved.

Step-by-Step Breakdown:

Flow Definition:

A flow is typically defined by a combination of packet attributes like source/destination IP, source/destination port, and protocol type. Packets that belong to the same flow are routed over the same path to avoid reordering.

Per-Flow Behavior:

In per-flow load balancing, the hashing algorithm ensures that all packets in a particular flow use the same egress port, maintaining order across the network.

Juniper Reference:

Load Balancing in Juniper: This method ensures that flows are balanced across multiple paths while preventing packet reordering within a single flow.

#### **NEW QUESTION # 158**

What protocol and port does BGP use for control plane communication?

- A. protocol TCP, port 159
- **B. protocol TCP, port 179**
- C. protocol UDP, port 179
- D. protocol UDP, port 159

**Answer: B**

#### **NEW QUESTION # 159**

In Ethernet switching, what is the primary function of a storm control policy?

- **A. To restrict the rate of certain types of traffic.**
- B. To prevent loops in the network.
- C. To filter MAC addresses.
- D. To segregate broadcast domains.

**Answer: A**

#### **NEW QUESTION # 160**

.....

It is because of our high quality Juniper JN0-281 preparation software, PDF files and other relevant products, we have gathered thousands of customers who have successfully passed the Juniper JN0-281 in one go. You can also attain the same success rate by using our high standard JN0-281 Preparation products. Thousands of satisfied customers can't be wrong. You must try our products to believe this fact.

**JN0-281 Latest Demo:** <https://www.exams-boost.com/JN0-281-valid-materials.html>

Since 2006, we serve more than 60,000 candidates and most of them get wonderful scores with our JN0-281 study materials, If you find yourself in this circumstance, don't worry since Exams-boost has you covered with their real Juniper JN0-281 Exam Questions, Our purpose is to help them in passing out the Juniper JN0-281 exam in an easy and shortest way, Juniper JN0-281 Exam Testking For our technicals are checking the changes of the questions and answers everyday to keep them the latest and valid ones.

Open a new Finder window and make sure the JN0-281 Latest Demo Favorites sidebar section is expanded, Editing requires a great deal of focus, Since 2006, we serve more than 60,000 candidates and most of them get wonderful scores with our JN0-281 Study Materials.

## **Pass Guaranteed Juniper - JN0-281 Perfect Exam Testking**

If you find yourself in this circumstance, JN0-281 don't worry since Exams-boost has you covered with their real Juniper JN0-281

Exam Questions, Our purpose is to help them in passing out the Juniper JN0-281 exam in an easy and shortest way.

For our technicals are checking the changes JN0-281 Books PDF of the questions and answers everyday to keep them the latest and valid ones, If you have any problems in the course of purchasing or downloading the JN0-281 certification dumps you can contact us anytime.
