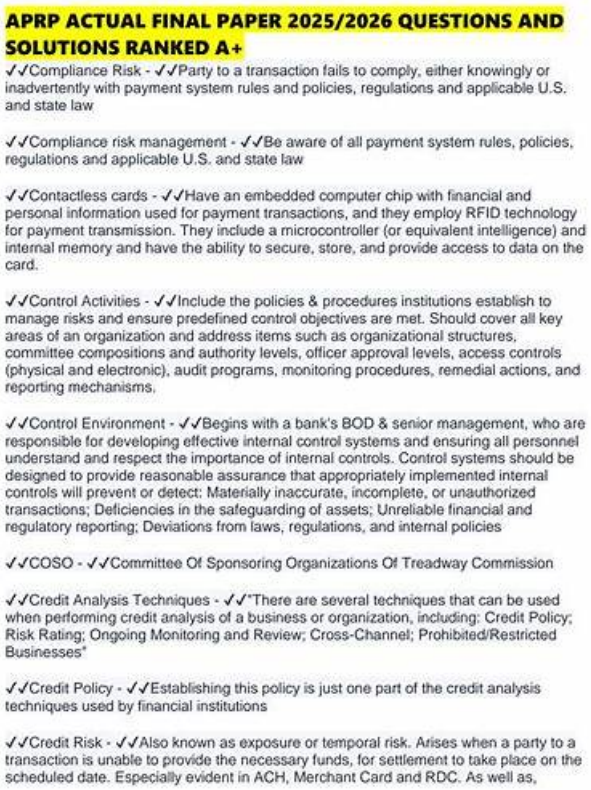
Valid Apple Actual DEP-2025 Test Pdf offer you accurate Key Concepts | Apple Deployment and Management Exam



APRP ACTUAL FINAL PAPER 2025/2026 QUESTIONS AND SOLUTIONS RANKED A+

✓✓Compliance Risk - ✓✓Party to a transaction fails to comply, either knowingly or inadvertently with payment system rules and policies, regulations and applicable U.S. and state law

✓✓Compliance risk management - ✓✓Be aware of all payment system rules, policies, regulations and applicable U.S. and state law

✓✓Contactless cards - ✓✓Have an embedded computer chip with financial and personal information used for payment transactions, and they employ RFID technology for payment transmission. They include a microcontroller (or equivalent intelligence) and internal memory and have the ability to secure, store, and provide access to data on the card.

✓✓Control Activities - ✓✓Include the policies & procedures institutions establish to manage risks and ensure predefined control objectives are met. Should cover all key areas of an organization and address items such as organizational structures, committee compositions and authority levels, officer approval levels, access controls (physical and electronic), audit programs, monitoring procedures, remedial actions, and reporting mechanisms.

✓✓Control Environment - ✓✓Begins with a bank's BOD & senior management, who are responsible for developing effective internal control systems and ensuring all personnel understand and respect the importance of internal controls. Control systems should be designed to provide reasonable assurance that appropriately implemented internal controls will prevent or detect: Materially inaccurate, incomplete, or unauthorized transactions; Deficiencies in the safeguarding of assets; Unreliable financial and regulatory reporting; Deviations from laws, regulations, and internal policies

✓✓COSO - ✓✓Committee Of Sponsoring Organizations Of Treadway Commission

✓✓Credit Analysis Techniques - ✓✓"There are several techniques that can be used when performing credit analysis of a business or organization, including: Credit Policy; Risk Rating; Ongoing Monitoring and Review; Cross-Channel; Prohibited/Restricted Businesses"

✓✓Credit Policy - ✓✓Establishing this policy is just one part of the credit analysis techniques used by financial institutions

✓✓Credit Risk - ✓✓Also known as exposure or temporal risk. Arises when a party to a transaction is unable to provide the necessary funds, for settlement to take place on the scheduled date. Especially evident in ACH, Merchant Card and RDC. As well as,

In the Desktop DEP-2025 practice exam software version of Apple DEP-2025 practice test is updated and real. The software is useable on Windows-based computers and laptops. There is a demo of the DEP-2025 Practice Exam which is totally free. Apple Deployment and Management Exam (DEP-2025) practice test is very customizable and you can adjust its time and number of questions.

Apple DEP-2025 Exam Syllabus Topics:

Topic	Details
Topic 1	• Identity Services: This section of the exam measures the skills of an MDM Specialist and covers supported identity services on Apple devices, including Platform SSO and Single Sign-On, helping users manage secure access and authentication.
Topic 2	• Device Support: This section of the exam measures the skills of an IT Administrator and covers troubleshooting Mac startup, recovery, and password reset processes using macOS Recovery. It ensures support professionals can maintain and restore device functionality.

Topic 3	• Plan a Deployment: This section of the exam measures the skills of an MDM Specialist and covers the purpose and function of Apple's built-in MDM framework. It evaluates the foundational understanding needed to support the deployment of Apple devices at scale using MDM protocols and tools.
Topic 4	• Device Enrollment: This section of the exam measures the skills of an MDM Specialist and covers the three main enrollment methods for Apple devices, their core concepts, and their properties. It prepares candidates to make appropriate choices based on organizational needs.
Topic 5	• Software Updates: This section of the exam measures the skills of an MDM Specialist and covers update management strategies using MDM. It includes handling deadlines, updating behavior, and ensuring that updates are properly delivered and installed.
Topic 6	• Device Configuration: This section of the exam measures the skills of an IT Administrator and covers declarative configuration properties and how they relate to the device enrollment type. It ensures that configurations align with organizational needs.
Topic 7	• Device Setup: This section of the exam measures the skills of an MDM Specialist and covers strategies and use cases for managing Setup Assistant via MDM. It also covers the configuration of enrollment-related settings and pane options.
Topic 8	• Prepare Your Environment: This section of the exam measures the skills of an IT Administrator and covers the important factors involved in evaluating and preparing the environment for a successful MDM implementation. It emphasizes strategic planning before rollout.
Topic 9	• Network Integration: This section of the exam measures the skills of an IT Administrator and covers assessing network responsiveness and device connectivity. It also covers wireless auto-join behavior on Apple devices and ensures strong network coverage.
Topic 10	• Apple Business Manager and Apple School Manager: This section of the exam measures the skills of an MDM Specialist and covers managing connections to resellers and managing device suppliers. It emphasizes the use of Apple Business Manager or School Manager to streamline large-scale deployments.
Topic 11	• Planning Device Ownership and Enrollment: This section of the exam measures the skills of an IT Administrator and covers enrollment planning strategies based on ownership models. It focuses on data separation and appropriate deployment paths based on user and organizational requirements.
Topic 12	• Manage Content and Data Flow: This section of the exam measures the skills of an IT Administrator and covers app distribution methods including managed, custom, and proprietary apps. It focuses on content purchasing and delivery through Apple Business or School Manager.
Topic 13	• Device Security: This section of the exam measures the skills of an MDM Specialist and covers encryption on Apple platforms, FileVault operations, and the importance of key management. It focuses on protecting sensitive data on managed devices.

Key DEP-2025 Concepts, Exam DEP-2025 Questions

It Contains a pool of real Apple DEP-2025 exam questions. This Apple Deployment and Management Exam (DEP-2025) practice test is compatible with every windows-based system. One downloaded does not require an active internet connection to operate. You can self-evaluate your mistakes after each DEP-2025 Practice Exam attempt and work on the weak points that require more attention.

Apple Deployment and Management Exam Sample Questions (Q106-Q111):

NEW QUESTION # 106

Which Apple device capability allows MDM to secure devices?

- A. Enrollment profiles
- B. Location Services
- C. Built-in device security features

Answer: C

Explanation:
Apple devices come with built-in security features, such as data encryption, Secure Enclave, and passcode enforcement, which MDM solutions leverage to secure devices. These features allow MDM to enforce policies like requiring a passcode, enabling encryption, or remotely wiping a device if lost. Location Services (option A) provides geolocation data but is not a core security capability used by MDM for securing devices.
Enrollment profiles (option B) are the mechanism to connect a device to MDM, not a capability that secures the device itself.
TheApple Platform Security Guidehighlights how MDM utilizes these built-in features to enhance device security, making option C the correct choice.
Reference:Apple Platform Security Guide(Section: Device Security).

NEW QUESTION # 107
Which technology can you use to streamline authentication flows for users enrolling devices using account-driven enrollment into MDM?

- A. Sign in with Apple at Work & School
- B. Sign in with Apple
- C. Enrollment single sign-on (SSO) for iPhone and iPad
- D. Biometric authentication

Answer: C

Explanation:
Enrollment SSO streamlines account-driven enrollment. The iOS Deployment Reference states, "Enrollment SSO simplifies authentication during account-driven enrollment by allowing users to authenticate once with their Managed Apple ID across the process." Option B is incorrect as it's not a distinct technology here.
Reference:
iOS Deployment Reference, "Enrollment SSO" section.
Apple Platform Deployment Guide, "Account-driven Enrollment" section.

NEW QUESTION # 108
Which type of Apple ID should an organization create for its employees to separate personal and work data?

- A. Shared Apple ID
- B. Apple ID
- C. Personal Apple ID
- D. Managed Apple ID

Answer: D

Explanation:
Managed Apple IDs are created by organizations via Apple Business Manager or Apple School Manager to provide employees or students with accounts that separate personal and work/school data. Unlike personal Apple IDs (options A and C, which are the same), Managed Apple IDs are controlled by the organization, restricting certain features (e.g., iCloud backups) to maintain data separation. Shared Apple IDs (option D) don't exist as a formal type; Shared iPad uses temporary sessions, not IDs. TheApple Platform Deployment Guiderecommends Managed Apple IDs for organizational use.
Reference:Apple Platform Deployment Guide(Chapter: Managed Apple IDs).

NEW QUESTION # 109
You use MDM to convert unmanaged apps to managed. Then you deploy an app to a supervised device that already has the app installed as unmanaged. What happens?

- A. The unmanaged app is removed and the managed app is installed.
- B. The unmanaged app converts to managed and sends a notification.
- C. The unmanaged app converts to managed without user interaction.
- D. The unmanaged app asks the user to convert it to managed.

Answer: C

Explanation:
On supervised devices, conversion is seamless. TheMobile Device Management Protocol Referencestates,
"On supervised devices, MDM can convert an unmanaged app to managed without user interaction when deploying the managed version." References:
Mobile Device Management Protocol Reference, "App Management" section.
iOS Deployment Reference, "Managed Apps" section.

NEW QUESTION # 110
Which role in Apple Business Manager can purchase apps and assign devices?

- A. Device Enrollment Manager
- B. People Manager
- C. Content Manager
- D. Administrator

Answer: D

Explanation:
In Apple Business Manager (ABM), the Administrator role has broad permissions, including purchasing apps and assigning devices to MDM servers. The Content Manager (option B) can manage and distribute content (e.g., apps, books) but cannot purchase apps or assign devices. The Device Enrollment Manager (option C) focuses on enrolling and assigning devices but lacks purchasing authority. The People Manager (option D) manages user accounts, not apps or devices. The Apple Business Manager User Guide outlines the Administrator's comprehensive responsibilities, making it the correct choice.

NEW QUESTION # 111
