Besides, there are PCNSA free braindumps that you can download to learn about our products. Once you decide to buy our test answers, you will be allowed to free update your PCNSA Top Dumps one-year.

Earning the Palo Alto Networks PCNSA Certification provides numerous benefits for IT professionals, including enhanced career opportunities, increased earning potential, and recognition for their expertise in network security and Palo Alto Networks firewall technology. Additionally, certified professionals have access to exclusive resources and support from Palo Alto Networks, including training materials, technical support, and networking opportunities.

Palo Alto Networks Certified Network Security Administrator Sample Questions (Q285-Q290):

NEW QUESTION # 285

The Palo Alto Networks NGFW was configured with a single virtual router named VR-1. What changes are required on VR-1 to route traffic between two interfaces on the NGFW?

- A. Add a static route to route between the two interfaces
- B. Add zones attached to interfaces to the virtual router
- C. Enable the redistribution profile to redistribute connected routes
- D. Add interfaces to the virtual router

Answer: A

NEW QUESTION # 286

A website is unexpectedly allowed due to miscategorization.

What are two ways to resolve this issue for a proper response? (Choose two.)

- A. Create a URL category and assign the affected URL.
Update the active URL Filtering profile site access setting for the custom URL category to block.
- B. Identify the URL category being assigned to the website.
Edit the active URL Filtering profile and update that category's site access settings to block.
- C. Review the categorization of the website on <https://urlfiltering.paloaltonetworks.com>.
Submit for "request change", identifying the appropriate categorization, and wait for confirmation before testing again.
- D. Create a URL category and assign the affected URL. Add a Security policy with a URL category qualifier of the custom URL category below the original policy. Set the policy action to Deny.

Answer: C,D

NEW QUESTION # 287

The firewall sends employees an application block page when they try to access Youtube. Which Security policy rule is blocking the youtube application?

			Source		Destination						
	Name	Type	Zone	Address	Zone	Address	Application	Service	URL Category	Action	Profile
1	Deny Google	Universal	Inside	Any	Outside	Any	Google-docs-base	Application-d	Any	Deny	None
2	Allowed-security serv...	Universal	Inside	Any	Outside	Any	Snm pv3 Ssh ssl	Application-d	Any	Allow	None
3	Intrazone-default	Intrazone	Any	Any	(intrazone)	Any	Any	Any	Any	Allow	None
4	Interzone-default	Interzone	Any	Any	Any	Any	Any	Any	Any	Deny	None

- A. Deny Google
- **B. interzone-default**
- C. allowed-security services
- D. intrazone-default

Answer: B

NEW QUESTION # 288

The Palo Alto Networks NGFW was configured with a single virtual router named VR-1. What changes are required on VR-1 to route traffic between two interfaces on the NGFW?

- A. Add static routes to route between the two interfaces
- B. Add zones attached to interfaces to the virtual router
- C. Enable the redistribution profile to redistribute connected routes
- **D. Add interfaces to the virtual router**

Answer: D

Explanation:

Routers know which subnets are physically connected to it and can route between them without any further configuration.

NEW QUESTION # 289

Arrange the correct order that the URL classifications are processed within the system.

Answer Area

First	Drag answer here	PAN-DB Cloud
Second	Drag answer here	External Dynamic Lists
Third	Drag answer here	Custom URL Categories
Fourth	Drag answer here	Block List
Fifth	Drag answer here	Downloaded PAN-DB File
Sixth	Drag answer here	Allow Lists

Answer:

Explanation:

Answer Area

First	Block List	PAN-DB Cloud
Second	Allow Lists	External Dynamic Lists
Third	Custom URL Categories	Custom URL Categories
Fourth	External Dynamic Lists	Block List
Fifth	Downloaded PAN-DB File	Downloaded PAN-DB File
Sixth	PAN-DB Cloud	Allow Lists

- First - Block List
- Second - Allow List
- Third - Custom URL Categories
- Fourth - External Dynamic Lists
- Fifth - Downloaded PAN-DB Files
- Sixth - PAN-DB Cloud
