

# CMMC-CCP Discount | Download CMMC-CCP Pdf

P.S. Free 2026 Cyber AB CMMC-CCP dumps are available on Google Drive shared by GetValidTest:  
<https://drive.google.com/open?id=1FCJ51zfev6Y4XB6OgEqZNYOK9Q22msGB>

As the content of the CMMC-CCP exam is changing from time to time, you may feel anxious that it seems too hard to know the changes. Now, all complicate tasks have been done by our experts. They have rich experience in predicitng the CMMC-CCP exam. Then you are advised to purchase the study materials on our websites. Also, you can begin to prepare the CMMC-CCP Exam. You are advised to finish all exercises of our CMMC-CCP preparation questions and pass the exam by the first attempt very easily.

There is nothing more important than finding the best-quality CMMC-CCP practice questions for your exam preparation that will appear in the CMMC-CCP actual test. To help our candidate solve the difficulty of CMMC-CCP real exam, we prepared the most reliable questions and answers for the exam preparation, which comes in three versions. Our aim is help our candidates realize their ability by practicing our CMMC-CCP Exam Questions and pass exam easily.

## Pass Guaranteed High-quality Cyber AB - CMMC-CCP Discount

The web-based format gives results at the end of every Cyber AB CMMC-CCP practice test attempt and points the mistakes so you can get rid of them before the final attempt. This online format of the Certified CMMC Professional (CCP) Exam (CMMC-CCP) practice exam works well with Android, Mac, Windows, iOS, and Linux operating systems.

## Cyber AB CMMC-CCP Exam Syllabus Topics:

Topic	Details

Topic 1	<ul style="list-style-type: none"> <li>• CMMC Ecosystem: This section of the exam measures the skills of consultants and compliance professionals and focuses on the different roles and responsibilities across the CMMC ecosystem. Candidates must understand the functions of entities such as the Department of Defense, CMMC-AB, Organizations Seeking Certification, Registered Practitioners, and Certified CMMC Professionals, as well as how the ecosystem supports cybersecurity standards and certification.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>• Scoping: This section of the exam measures the analytical skills of cybersecurity practitioners, highlighting their ability to properly define assessment scope. Candidates must demonstrate knowledge of identifying and classifying Controlled Unclassified Information (CUI) assets, recognizing the difference between in-scope, out-of-scope, and specialized assets, and applying logical and physical separation techniques to determine accurate scoping for assessments</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• CMMC-AB Code of Professional Conduct (Ethics): This section of the exam measures the integrity of cybersecurity professionals by evaluating their understanding of the CMMC-AB Code of Professional Conduct. It emphasizes ethical responsibilities, including confidentiality, objectivity, professionalism, conflict-of-interest avoidance, and respect for intellectual property, ensuring candidates can uphold ethical standards throughout their CMMC-related duties.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• CMMC Governance and Source Documents: This section of the exam measures the capabilities of legal or compliance advisors, covering key regulatory frameworks that govern cybersecurity compliance. Topics include Federal Contract Information, Controlled Unclassified Information, the role of NIST SP 800-171, DFARS, FAR, and the structure and requirements of CMMC v2.0, including self-assessments and certification levels.</li> </ul>

## Cyber AB Certified CMMC Professional (CCP) Exam Sample Questions (Q176-Q181):

### NEW QUESTION # 176

Regarding the Risk Assessment (RA) domain, what should an OSC periodically assess?

- A. Organizational operations, business processes, and employees
- B. Organizational operations, business assets, and employees
- C. Organizational operations, organizational processes, and individuals
- D. **Organizational operations, organizational assets, and individuals**

### Answer: D

Explanation:

The Risk Assessment (RA) domain aligns with NIST SP 800-171 control family 3.11 (Risk Assessment) and is designed to help organizations identify, assess, and manage cybersecurity risks that could impact their operations.

The RA.3.144 practice (which is a CMMC Level 2 requirement) explicitly states:

"Periodically assess the risk to organizational operations (including mission, functions, image, or reputation), organizational assets, and individuals resulting from the operation of organizational systems and the associated processing, storage, or transmission of CUI."

This means that OSCs (Organizations Seeking Certification) should regularly evaluate risks to:

#Organizational operations (e.g., mission, business continuity, functions)

#Organizational assets (e.g., data, IT systems, intellectual property)

#Individuals (e.g., employees, contractors, customers affected by security risks) Thus, the correct answer is C. Organizational operations, organizational assets, and individuals.

\* A. Organizational operations, business assets, and employees #Incorrect. "Business assets" is not the correct terminology used in CMMC/NIST SP 800-171. Instead, "organizational assets" is the proper term.

\* B. Organizational operations, business processes, and employees #Incorrect. "Business processes" is not a part of the formal risk assessment requirement. The correct scope includes organizational assets and individuals, not just processes.

\* D. Organizational operations, organizational processes, and individuals #Incorrect. While processes are important, organizational assets must be considered in the assessment, not just processes.

Why the Other Answers Are Incorrect

\* CMMC 2.0 Model (Level 2 - RA.3.144)- Specifies that risk assessments must cover organizational operations, organizational assets, and individuals.

\* NIST SP 800-171 (3.11.1)- Reinforces the same risk assessment scope.

CMMC Official References Thus, option C (Organizational operations, organizational assets, and individuals) is the correct answer based on official CMMC risk assessment requirements.

#### NEW QUESTION # 177

As part of CMMC 2.0, the change to Level 1 Self-Assessments supports "reduced assessment costs" allows all companies at Level 1 (Foundational) to:

- A. pay no more than \$500.00 for their annual assessment.
- B. have assessment costs reimbursed by the DoD.
- C. opt out of CMMC Assessments.
- D. **to conduct self-assessments.**

**Answer: D**

#### NEW QUESTION # 178

A CCP is providing consulting services to a company who is an OSC. The CCP is preparing the OSC for a CMMC Level 2 assessment. The company has asked the CCP who is responsible for determining the CMMC Assessment Scope and who validates its CMMC Assessment Scope. How should the CCP respond?

- A. "The OSC determines the CMMC Assessment Scope, and the CCP validates the CMMC Assessment Scope."
- B. "The CMMC Lead Assessor determines the CMMC Assessment Scope, and the OSC validates the CMMC Assessment Scope."
- C. "The CMMC C3PAO determines the CMMC Assessment Scope, and the Lead Assessor validates the CMMC Assessment Scope."
- D. **"The OSC determines the CMMC Assessment Scope, and the C3PAO validates the CMMC Assessment Scope."**

**Answer: D**

Explanation:

\* In a CMMC Level 2 assessment, the Organization Seeking Certification (OSC) is responsible for identifying the assessment scope based on the CMMC Scoping Guidance provided by the Cyber AB (Cyber Accreditation Body) and DoD.

\* The OSC must determine which assets and systems handle Controlled Unclassified Information (CUI) and categorize them accordingly.

Reference:

CMMC Scoping Guidance for Level 2, which outlines asset categorization and scoping considerations.

Step 2: Role of the C3PAO in Scope Validation Once the OSC has determined its CMMC assessment scope, a CMMC Third-Party Assessment Organization (C3PAO) is responsible for validating the scope during the assessment planning phase.

The C3PAO reviews the OSC's scope to ensure it aligns with DoD's scoping guidance, ensuring that all relevant assets, networks, and policies required for CMMC Level 2 certification are correctly identified.

If there are discrepancies, the C3PAO works with the OSC to adjust the scope before proceeding with the assessment.

Reference:

CMMC Assessment Process (CAP) Guide, which describes the scope validation responsibilities of a C3PAO.

Step 3: Why Other Answer Choices Are Incorrect  
Choice A (Incorrect): A CCP (Certified CMMC Professional) does not have the authority to validate the scope. Their role is to guide and consult, but final validation is the C3PAO's responsibility.

Choice C (Incorrect): The CMMC Lead Assessor (part of the C3PAO team) does not determine the scope; instead, the OSC does.

Choice D (Incorrect): The C3PAO validates the scope but does not determine it - this is the OSC's responsibility.

Final Confirmation of Correct answer: OSC determines the CMMC Assessment Scope.

C3PAO validates the CMMC Assessment Scope.

Thus, the correct answer is B. "The OSC determines the CMMC Assessment Scope, and the C3PAO validates the CMMC Assessment Scope."

#### NEW QUESTION # 179

Evidence gathered from an OSC is being reviewed. Based on the assessment and organizational scope, the Lead Assessor requests the Assessment Team to verify that the coverage by domain, practice, Host Unit.

Supporting Organization/Unit, and enclaves are comprehensive enough to rate against each practice. Which criteria is the assessor referring to?

- A. Objectivity
- B. Adequacy
- **C. Sufficiency**
- D. Capability

**Answer: C**

Explanation:

Step 1: Understand the Definitions of Evidence Evaluation Criteria The CMMC Assessment Process (CAP) introduces two key criteria for evaluating evidence:

\* Adequacy- Does the evidence align with the practice?

\* Sufficiency- Is the evidence comprehensive enough in terms of coverage across systems, users, and scope?

CAP v1.0 - Section 3.5.4:

"Evidence must be evaluated for both adequacy (is it the right evidence?) and sufficiency (is there enough of it across all in-scope assets and areas?) to score a practice as MET."

#Step 2: Applying to the Scenario In the question, the Lead Assessor is asking the team to verify that evidence is sufficient across:

\* Domains

\* Practices

\* Host Units

\* Supporting Organizations

\* Enclaves

## This is a direct reference to sufficiency, which evaluates whether the breadth and depth of evidence is enough to make an informed judgment that the control is truly implemented across the entire assessed environment.

\* A. Adequacy# Adequacy refers to the relevance of the evidence to the specific practice - not its coverage across scope.

\* B. Capability# Not a term used in evidence validation within CMMC CAP documentation.

\* D. Objectivity# While objectivity is important, it refers to the unbiased nature of assessment activities, not to the extent of evidence coverage.

#Why the Other Options Are Incorrect

When an assessor evaluates whether the evidence is broad enough across all necessary systems, units, and enclaves to score a practice as MET, they are evaluating sufficiency- one of the two core criteria for evidence validity in a CMMC assessment.

**NEW QUESTION # 180**

In preparation for a CMMC Level 1 Self-Assessment, the IT manager for a DIB organization is documenting asset types in the company's SSP. The manager determines that identified machine controllers and assembly machines should be documented as Specialized Assets. Which type of Specialized Assets has the manager identified and documented?

- A. Restricted IS
- **B. Operational technology**
- C. IoT
- D. Test equipment

**Answer: B**

**NEW QUESTION # 181**

.....

Our company has employed a lot of leading experts in the field to compile the Certified CMMC Professional (CCP) Exam exam question. Our system of team-based working is designed to bring out the best in our people in whose minds and hands the next generation of the best CMMC-CCP exam torrent will ultimately take shape. Our company has a proven track record in delivering outstanding after sale services and bringing innovation to the guide torrent. The team of the experts in our company has an in-depth understanding of the fundamental elements that combine to produce world class CMMC-CCP Guide Torrent for our customers. This expertise coupled with our comprehensive design criteria and development resources combine to create definitive CMMC-CCP exam torrent.
