## 100% Pass 1Z0-1042-25 - Oracle Cloud Infrastructure 2025 Application Integration Professional –Trustable Real Dumps

To take a good control of your life, this 1Z0-1042-25 exam is valuable with high recognition certificate. Actually getting a meaningful certificate by passing related 1Z0-1042-25 exam is also becoming more and more popular. So finding the perfect practice materials is pivotal for it. You may be constrained by a number of factors like lack of professional skills, time or money to deal with the practice exam ahead of you. While our 1Z0-1042-25 Study Materials can help you eliminate all those worries one by one.

## Oracle Cloud Infrastructure 2025 Application Integration Professional

## Sample Questions (Q75-Q80):

### NEW QUESTION # 75

Which type of certificate requires the uploading of a keystore (.jks) file in Oracle Integration Cloud to facilitate two-way SSL communication with external services?

- A. Unified Communications Certificate
- **B. Identity Certificate**
- C. Multi Domain Certificate
- D. Message Protection Certificate

**Answer: B**

Explanation:

Comprehensive and Detailed Explanation:

Certificates in OIC:

C:True-Identity Certificate with a .jks file supports two-way SSL (mutual authentication).

A:False-specific to communication platforms.

B:False-not a distinct OIC type for this purpose.

### NEW QUESTION # 76

In the context of Oracle Integration (OIC), what is the primary purpose of "connections"?

- A. To create custom user interfaces for applications
- **B. To specify the source and target applications that an integration connects**
- C. To manage user roles and access permissions
- D. To monitor system performance and application health

**Answer: B**

Explanation:

Comprehensive and Detailed Explanation:

Connections:

C:True-define integration endpoints.

### NEW QUESTION # 77

You are working on integration within Oracle Integration (OIC) that includes several connections to external systems. As part of your development work, you need to implement fault handling to ensure that any unexpected errors are caught and handled correctly. Which approach can you use for this requirement?

- A. Create a separate fault handling integration and configure your integration to invoke it when necessary using the Rethrow Fault action.
- **B. Open the Global Fault Handler page on the integration canvas and add actions to handle faults.**
- C. Use the Throw New Fault action within your integration flow to send caught faults to the OIC Error Hospital.
- D. Add a Try-Catch action to your integration flow and configure it to catch and handle faults.

**Answer: B**

Explanation:

Comprehensive and Detailed Explanation:

Fault Handling:

C:True-Global Fault Handler is standard.

### NEW QUESTION # 78

The Oracle Integration Cloud (OIC) integration designer editor provides a data mapper UI tool that is available for Map actions. Which statements are TRUE regarding the use of the Mapper tool? Select TWO.

- A. You cannot drag and drop a source data element to a target node element that is already mapped.

- B. You can drag and drop a source data element to multiple target node elements.
- C. You cannot drag and drop an XPath function activity directly to a target node element.
- D. You cannot drag and drop an XSLT flow control statement directly to a target node element.

**Answer: B,D**

Explanation:

Comprehensive and Detailed Explanation:

OIC's Data Mapper simplifies transformations. Let's evaluate each option:

Option A: You cannot drag and drop an XSLT flow control statement directly to a target node element.

True:XSLT flow controls (e.g., <xsl:for-each>) require manual coding in an external editor for advanced mappings. OIC's UI doesn't support dragging these directly; you must export the map, edit the XSLT, and reimport it. This limitation ensures simplicity in the UI while allowing power users flexibility.

Option B: You can drag and drop a source data element to multiple target node elements.

True:The mapper allows one-to-many mappings. For example, dragging "CustomerName" from the source to both "BillingName" and "ShippingName" in the target is supported, streamlining repetitive mappings.

Option C: You cannot drag and drop a source data element to a target node element that is already mapped.

False:You can overwrite an existing mapping by dragging a new source element to a mapped target, replacing the prior link. This flexibility aids iterative design.

Option D: You cannot drag and drop an XPath function activity directly to a target node element.

False:XPath functions (e.g., concat()) can be dragged from the function palette to a target node, applying transformations directly. This enhances usability.

Why A and B:A reflects a UI constraint, and B showcases mapping flexibility, both accurate per OIC's mapper design.

Use Case Example:Mapping "OrderDate" to multiple date Hawkins in a CRM sync, then using current-date() in the mapper, demonstrates B and D's capabilities.

## NEW QUESTION # 79

Which two statements are TRUE regarding messaging adapters in Oracle Integration (OIC)?

- A. The OCI Streaming Adapter does not support consuming messages from a specified consumer group.
- B. It is not mandatory to install a Connectivity agent to use the OCI Streaming Adapter for Inbound polling.
- C. The Apache Kafka Adapter can be configured to support Transactions in case of Producer.
- D. Both the Apache Kafka and OCI Streaming adapters support XML, JSON, and Avro message formats.

**Answer: C,D**

Explanation:

Comprehensive and Detailed Explanation:

Messaging Adapters:

A, C:True-format support and transactions.

## NEW QUESTION # 80

.....

When you are preparing 1Z0-1042-25 practice exam, it is necessary to grasp the overall knowledge points of real exam by using the latest 1Z0-1042-25 pass guide. Our experts written the accurate 1Z0-1042-25 test answers for exam preparation and created the study guideline for our candidates. We promise you will get high passing mark with our valid 1Z0-1042-25 Exam Torrent and your money will be back to your account if you failed exam with our study materials.
