CompTIA Cloud Essentials+ Certification Exam Sample Questions (Q513-Q518):

NEW QUESTION # 513

Which of the following DevOps options is used to integrate with cloud solutions?

- A. Automation
- **B. API**
- C. SOA
- D. Provisioning

Answer: B

Explanation:

API stands for Application Programming Interface, which is a set of rules and protocols that allow different software components or systems to communicate and exchange data. API is used to integrate with cloud solutions because it enables developers to access the cloud services and resources programmatically, without having to deal with the underlying infrastructure or platform details. API also allows for automation, scalability, and interoperability of cloud applications and services.
