According to personal preference and budget choice, choosing the right goods to join the shopping cart. Then you can pay for it and download it right away.

Salesforce Certified Slack Administrator Sample Questions (Q156-Q161):

NEW QUESTION # 156

During a re-org within your organization, the IT department is renamed to Business Technology (BT). Many channels will need to change their prefixes from #it- to #bt-.

The original channel creators are no longer at the organization.

What is the most efficient strategy to ensure the channel prefixes are updated?

- A. Join all public IT channels and request access to private channels in order to update the channel settings.
- B. Promote members leading the IT to BT department name change initiative to the Channel Manager role in the key channels.
- C. **Write a script using the channels API to rename all channels with "#it-" to "#bt-" in bulk.**
- D. Use your preference menu to create an automatic keyword notification for IT and BT.

Answer: C

Explanation:

Slack API best practices specify:

"The channels.rename method within the Slack API allows admins to programmatically rename channels, making bulk updates efficient and standardized." Manually managing through Channel Manager roles (B) or joining channels (D) is slow and error-prone. Keyword notifications (A) don't rename channels.

(Reference: Slack Administration Study Guide - Managing Channels and Using APIs)

NEW QUESTION # 157

As the Org Admin of a large corporation you've recently received an influx of requests from external people your org is connected with via Slack Connect to obtain information you need to resolve these requests, you navigate to the External People Management dashboard.

Which TWO actions can you take within this dashboard?

Choose 2 answers

- A. view all Slack Connect invitations
- B. Approve or deny Slack Connect requests
- C. Remove external members from slack Connect channels when they were invited with "Can only post" permissions
- D. view all external people connected to your org and the slack connect channels they belong to
- E. Remove external members from Slack Connect channels when they were invited with 'Can post & invite" permissions

Answer: A,D

NEW QUESTION # 158

You're an Org Admin responsible for managing your organization's three workspaces, which are grouped by business vertical. Your organization wants to increase Slack usage to include additional users from other departments, and you anticipate this will result in requests for additional workspaces to house vertical-specific channels. You want to ensure there's a clear policy in place for end users to follow when requesting new workspaces.

Given these business requirements, what is the best way to manage requests to create new workspaces?

- A. Review, collaborate, approve, and reject workspace requests in one public, searchable channel.
- B. Do not allow end users to request new workspaces; instead, encourage them to create more channels.
- C. Route workspace requests from an org-wide help channel to a private admin-only channel where admins can review business rationale of requests.
- D. Encourage end users to create new workspaces themselves, then link the workspace URL to your organization via domain claiming.

Answer: C

NEW QUESTION # 159

As an Org Admin in your organization's Slack Enterprise Grid instance, you manage the existing four workspaces. Since your org is rapidly growing, you need a way to communicate upcoming trainings that are available to the entire company.

What is the best action to ensure these communications are seen in each current and future workspace?

(Select the best answer.)

- A. Create a Slack Connect channel dedicated to company trainings.
- B. Have each Workspace Admin post in the correct public training channel.
- C. Create a multi-workspace channel for training that exists in each workspace.
- D. Create an org-wide channel dedicated to company trainings.

Answer: D

Explanation:

According to Slack Enterprise Grid administration best practices:

"Org-wide channels allow messages to be broadcast to every member of an Enterprise Grid organization, across all current and future workspaces." Creating an org-wide channel ensures that the training communications are visible everywhere, without needing coordination with individual Workspace Admins or external partners. Multi-workspace channels (B) are helpful but only span selected workspaces, not automatic inclusion in all future workspaces.

(Reference: Slack Administration Study Guide - Org-wide Channels)

NEW QUESTION # 160

Chandler, who works for Truck Inc, is in charge of developing a new certification program for Truck Inc's drivers. Chandler will be working with a small team of 4 employees, and details of the program must be kept private from the drivers. They are currently using a group direct message to plan the certification program, but some people on the team will be going on vacation soon, and new members will be replacing them.

What should Chandler do next?

- A. Start a new group DM with only the new members of the team.
- B. Convert the group DM to a private channel, and then invite the new members.
- C. Continue using the group DM, and invite the new members to it.
- D. Create a public channel for co-ordination, but continue using group DMs, and DMs for content that needs to stay private.

Answer: C

NEW QUESTION # 161

.....
