I promise you that you can learn from the C-CPI-2506 Exam Questions not only the knowledge of the certificate exam, but also the ways to answer questions quickly and accurately.

SAP Certified Associate - Integration Developer Sample Questions (Q40-Q45):

NEW QUESTION # 40

You call the following URL in your browser: [https://sapes5.sapdevcenter.com/sap/opu/odata/iwbep/GWSAMPLE_BASIC/ProductSet\('HT-1000'\)/ToSalesOrderLineItems](https://sapes5.sapdevcenter.com/sap/opu/odata/iwbep/GWSAMPLE_BASIC/ProductSet('HT-1000')/ToSalesOrderLineItems). What file type is displayed?

- A. HTML
- B. Java
- **C. XML**
- D. PHP

Answer: C

Explanation:

The URL shown is an OData service endpoint exposed from the SAP ES5 Gateway demo system:

[https://sapes5.sapdevcenter.com/sap/opu/odata/iwbep/GWSAMPLE_BASIC/ProductSet\('HT-1000'\)/ToSalesOrderLineItems](https://sapes5.sapdevcenter.com/sap/opu/odata/iwbep/GWSAMPLE_BASIC/ProductSet('HT-1000')/ToSalesOrderLineItems)

OData services in SAP Gateway return XML responses by default when called in a browser, unless otherwise specified by request headers (like JSON format).

The structure follows AtomPub/Atom XML representation, showing entity details and navigation properties.

Therefore, the file type displayed in the browser is XML, not HTML, Java, or PHP.

NEW QUESTION # 41

Which architectural pattern in an event-driven architecture allows direct communication between two parties without an intermediary?

- A. Event Sourcing
- **B. Point-to-Point**
- C. Publish-Subscribe
- D. Message Queue

Answer: B

Explanation:

References

In an event-driven architecture (EDA), several messaging patterns exist:

Point-to-Point # Enables direct communication between exactly two parties (sender and receiver) without intermediaries.

Publish-Subscribe # Multiple consumers subscribe to events; requires a broker/intermediary (like Event Mesh).

Message Queue # Relies on a queue as an intermediary between producer and consumer.

Event Sourcing # Refers to storing state changes as events, not a communication pattern.

Therefore, the only pattern allowing direct communication without an intermediary is Point-to-Point.

NEW QUESTION # 42

Which of the following data types can use for an exchange property in a content modifier? Note: There are 2 correct answers to this question.

- **A. java.lang.Integer**
- B. java.lang.integer
- C. java.lang.string
- **D. java.lang.String**

Answer: A,D

Explanation:

In SAP Cloud Integration, when configuring Exchange Properties in a Content Modifier, supported Java data types include:

java.lang.String # The most common type.

java.lang.Integer # Numeric properties can be stored.

Other options:

java.lang.string and java.lang.integer # Invalid, because Java types are case-sensitive.

Thus, correct types are java.lang.Integer and java.lang.String.

NEW QUESTION # 43

Which combination of SAP BTP role collections allows a user to manage queues and topic subscriptions in SAP Event Mesh, and monitor its usage and resources?

- A. IntegrationAdmin and IntegrationDevelop
- B. SecurityAdmin and SecurityDevelop
- **C. EventMeshAdmin and EventMeshDevelop**
- D. ApplicationAdmin and ApplicationDevelop

Answer: C

Explanation:

In SAP BTP, SAP Event Mesh provides messaging capabilities (queues, topics, and subscriptions) that require specific role collections to enable developers and administrators to perform tasks. SAP delivers two dedicated role collections for Event Mesh: EventMeshDeveloper:

Manages queues and topic subscriptions

Monitors Event Mesh and its queues

Performs testing of queues and message flows

EventMeshAdmin:

Includes all developer capabilities

Provides additional administration rights for lifecycle management of Event Mesh instances and configurations When a user is assigned these role collections, they gain the ability to:

Create and manage queues and topic subscriptions.

Monitor usage and resources such as queue depth, consumers, connections, and spool size within Event Mesh.

Other provided options are incorrect:

ApplicationAdmin/ApplicationDevelop # These are not SAP Event Mesh role collections, they do not provide queue or topic subscription access.

SecurityAdmin/SecurityDevelop # These roles are tied to security configurations and do not allow Event Mesh operations.

IntegrationAdmin/IntegrationDevelop # These roles belong to SAP Integration Suite (Cloud Integration) capability, not Event Mesh.

Therefore, the correct and verified answer according to SAP Integration Developer documentation is:

B). EventMeshAdmin and EventMeshDevelop

NEW QUESTION # 44

What does the "Open Integration" principle of the SAP Integration Suite mean?

- A. SAP Integration Suite by default supports integrations to other SAP soft-ware.
- **B. SAP Integration Suite by default supports third-party software integration.**
- C. SAP Integration Suite allows SAP-to-SAP integrations.

Answer: B

Explanation:

The "Open Integration" principle of the SAP Integration Suite means that SAP Integration Suite by default supports third-party software integration. The SAP Integration Suite is an open and modular iPaaS that allows you to integrate any system or application, regardless of whether it is from SAP or not. The SAP Integration Suite provides various connectors, adapters, APIs, and pre-built integrations that enable you to connect to third-party software with ease and flexibility. Reference: Integration Software | SAP Integration Suite, Modernize Integration with SAP Integration Suite | openSAP

NEW QUESTION # 45

.....

We will have a dedicated specialist to check if our C-CPI-2506 learning materials are updated daily. We can guarantee that our C-CPI-2506 exam question will keep up with the changes by updating the system, and we will do our best to help our customers obtain the latest information on learning materials to meet their needs. If you choose to purchase our C-CPI-2506 quiz torrent, you will have the right to get the update system and the update system is free of charge. We do not charge any additional fees. Once our C-CPI-2506 Learning Materials are updated, we will automatically send you the latest information about our C-CPI-2506 exam question. We assure you that our company will provide customers with a sustainable update system
