Salesforce Certified Experience Cloud Consultant Sample Questions (Q29-Q34):

NEW QUESTION # 29
Dreamscape Flowers (DF) is evaluating Salesforce Partner Relationship Management (RPM) to help improve its current channel sales performance.
In what two ways can Salesforce PRM help DF accelerate channel sales?
Choose 2 answers

- A. By automating partner lead routing
- B. By automating quoting with Salesforce CPQ
- C. By automating partner entitlement assignment in Channel sales teams
- D. BY automating partner tiering in Channel sales hierarchy

Answer: A,D

Explanation:
Two ways thatSalesforce PRM can help DF accelerate channel sales are B and C. Salesforce PRM is a solution that allows you to manage your partner relationships and empower them to sell your products and services. By using Salesforce PRM, DF can automate partner tieringin Channel sales hierarchy, which allows them to assign different tiers and benefits to their partners based on their performance and potential. DF can also automate partner lead routing, which allows them to distribute leads to their partners based on criteria such as location, product, or skill. These features can help DF increase partner engagement and loyalty, optimize lead conversion, and grow channel revenue.

NEW QUESTION # 30
In which two ways can Opportunities with a Community User be shared?
Choose 2 answers Calculator

- A. Create a criteria-based sharing rule with a Partner Community role.
- B. Add a Customer Community Plusprofile to a Sharing Set and add Opportunities as an object in the Sharing Set.
- C. Create an owner-based sharing rule with a Customer Community User.
- D. Add a Partner Community profile to a Sharing Set and add Opportunities as an object in the Sharing Set.

Answer: A,D

Explanation:
Sharingsets allow you to grant access to records that have a lookup relationship to the same account or contact that the community user has. You can use sharing sets to share opportunities with partner community users who belong to the same account as the opportunity owner.
Criteria-based sharing rules allow you to share records based on field values. You can use criteria-based sharing rules to share opportunities with partner community users who meet certain criteria, such as region, industry, or status.

NEW QUESTION # 31
The Salesforce Administrator at Ursa Major Solar is trying to create a partner user for their Partner Community that was built using Salesforce Experience Builder. However, the admin is not able to create it fromthe contact record.
What could be two reason causing this issue?
Choose 2 answers

- A. The account record associated with the contact record is not enabled as a partner.
- B. The Salesforce Administrator is not a member of the Partner Community
- C. The Salesforce Administrator is not assigned a role in Salesforce.
- D. The Salesforce administrator is not marked as a delegated administrator on the partner account.

Answer: A,D

Explanation:
Two reasons causing this issue are C and D. To create a partner user for their Partner Community, the Salesforce administrator needs to have two requirements met: The account record associated with the contact record must be enabled as a partner, which means that it has the Is Partner checkbox checked. This indicates that the account is part of your partner network and can access your Partner Community site. The Salesforce administrator must be marked as a delegated administrator on the partner account, which means that they have limited administrative privileges to perform certainuser management tasks on behalf of an administrator. This allows them to create partner users from contact records without having full system administrator access.
