## Fundamentals-of-Crew-Leadership Real Exam

We understand our candidates have no time to waste, everyone wants an efficient learning. So we take this factor into consideration, develop the most efficient way for you to prepare for the Fundamentals-of-Crew-Leadership exam, that is the real questions and answers practice mode, firstly, it simulates the real Module 46101 Fundamentals of Crew Leadership test environment perfectly, which offers greatly help to our customers. Secondly, it includes printable PDF Format, also the instant access to download make sure you can study anywhere and anytime. All in all, high efficiency of Fundamentals-of-Crew-Leadership Exam Material is the reason for your selection.

### NCCER Module 46101 Fundamentals of Crew Leadership Sample Questions (Q20-Q25):

#### NEW QUESTION # 20

A crew of electricians is needed to run 1,000 feet of conduit, and the estimator determined that two electricians could complete the job in an eight-hour day. What is the required productivity rate per person for the conduit install?

- A. 31.25 feet per hour
- B. 150 feet per hour
- C. 130 feet per hour
- D. 62.5 feet per hour

**Answer: D**

Explanation:

Productivity rate is calculated by dividing the total output by the total input (in this case, labor hours).

Total labor hours = 2 electricians \* 8 hours/day = 16 labor hours

Productivity rate = Total conduit / Total labor hours = 1000 feet / 16 hours = 62.5 feet per hour per person.

(Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 4.4.1 Understanding Productivity Rates)

#### NEW QUESTION # 21

What is one of the many traits effective leaders should have?

- A. the ability to communicate the goals of a project
- B. a perfectionist nature that ensures they will not make mistakes
- C. the motivation to carry the workload alone in order to achieve a goal
- D. the ability to make decisions without listening to the opinions of others

**Answer: A**

Explanation:

Effective leaders possess strong communication skills, including the ability to communicate the goals of a project (A) clearly and concisely to their team. A perfectionist nature (B) can lead to micromanagement and hinder progress. Leaders should empower their team, not try to carry the workload alone (C). While decisiveness is important, effective leaders also value input from their team members (D). (Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 1.1.2 Characteristics of Effective Leaders)

#### NEW QUESTION # 22

What is one way to provide effective training?

- A. by choosing one training method and using it for all trainees
- B. by tailoring the training to the career goals and needs of trainees
- C. by avoiding giving negative feedback until trainees are more experienced in doing the task
- D. by encouraging trainees to listen, saving their questions for the end of the session

**Answer: B**

Explanation:

Effective training is most successful when it is relevant and engaging for the learners. Therefore, by tailoring the training to the career goals and needs of trainees (B), you can increase their motivation and retention of the material. Using a single method for all (A) may

not cater to different learning styles. While questions are important, discouraging them until the end (C) can hinder immediate understanding. Avoiding negative feedback (D) can prevent trainees from correcting mistakes and improving. (Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 5.2.1 Principles of Effective Training)

#### NEW QUESTION # 23

Productivity is defined as the

- A. amount of material an individual worker places to complete a job.
- B. total amount of material a crew places for a given job.
- C. amount of material scheduled to be used in a given time.
- **D. total amount of material an individual or crew places in a given time.**

**Answer: D**

Explanation:

Productivity is most accurately defined as the total amount of material an individual or crew places in a given time (D). It measures the efficiency of work by relating output (e.g., quantity of material installed) to input (e.g., labor hours). Option A describes the total output for a job, not the rate. Option B refers to planned material usage. Option C focuses on an individual's total output for a job, not necessarily within a specific timeframe. (Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 5.1.1 Defining Productivity)

#### NEW QUESTION # 24

What is one good way to prevent sexual harassment in the workplace?

- **A. Establish a no-tolerance policy.**
- B. Increase the victim's compensation.
- C. Promote the victim to a new job.
- D. Improve employee screening methods.

**Answer: A**

Explanation:

One of the most effective ways to prevent sexual harassment is to establish a no-tolerance policy (A) that clearly defines prohibited conduct, outlines reporting procedures, and ensures prompt and thorough investigation of complaints. Promoting the victim (B) or increasing their compensation (C) does not address the harassment itself. While improved employee screening (D) might help, a clear policy and consistent enforcement are crucial. (Equal Employment Opportunity Commission (EEOC) guidelines; Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 2.3.2 Preventing Harassment)

#### NEW QUESTION # 25

.....

Exam4Labs provides numerous extra features to help you succeed on the Fundamentals-of-Crew-Leadership exam, in addition to the NCCER Fundamentals-of-Crew-Leadership exam questions in PDF format and online practice test engine. These include 100% real questions and accurate answers, 1 year of free updates, a free demo of the NCCER Fundamentals-of-Crew-Leadership Exam Questions, a money-back guarantee in the event of failure, and a 20% discount.
