Pass Guaranteed Quiz 2026 1Z0-1163-1: Efficient Exam Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 Simulator Fee

We have professional IT workers to design the Oracle real dumps and they check the update of dump pdf everyday to ensure the 1Z0-1163-1 dumps latest to help people pass the exam with high score. So you can trust us about the valid and accuracy of 1Z0-1163-1 Exam Dumps. Our braindumps cover almost questions of the actual test.

Oracle 1Z0-1163-1 Exam Syllabus Topics:

Topic	Details
Topic 1	• Oracle Cloud Success Navigator & Oracle Cloud Quality Standards: This section evaluates the skills of Cloud Implementation Managers in leveraging Oracle Cloud Success Navigator and Quality Standards for cloud adoption. It explains how best practices are embedded into Oracle Cloud Applications and applied using Starter Configuration. Candidates will understand how to optimize cloud performance and ensure successful deployments following Oracle's quality guidelines.
Topic 2	• OMBPs for Manufacturing: This section measures the skills of Manufacturing Operations Managers in utilizing Oracle Cloud's manufacturing capabilities. It explains the flow of manufacturing processes, module integration, and best practices that enhance operational efficiency. Candidates will analyze metrics that assess productivity, cost control, and overall manufacturing performance.
Topic 3	• OMBPs for Order Management: This section evaluates the proficiency of Order Fulfillment Analysts in managing Oracle Cloud's order management modules. It covers the process flow and integration of different components to streamline order processing. Candidates will study key design considerations and metrics related to customer satisfaction, order fulfillment efficiency, and accuracy in managing customer demand.
Topic 4	• OMBPs for Sustainability: This section assesses the knowledge of Sustainability Specialists in integrating environmental and social responsibility into supply chain and procurement processes. It focuses on the benefits of aligning sustainability goals with business operations, ensuring compliance with global regulations, and implementing eco-friendly best practices.
Topic 5	• OMBPs for Logistics: This section tests the expertise of Logistics Coordinators in optimizing logistics and transportation management within Oracle Cloud Applications. It covers the process flows, best practices for logistics operations, and integration of different logistics modules. Candidates will understand performance metrics that impact supply chain visibility, efficiency, and customer satisfaction.

Topic 6	• Oracle Cloud Applications and Oracle Modern Best Practice (OMBP): This section of the exam measures the skills of Cloud Application Consultants in understanding Oracle Cloud Applications and their capabilities. It covers the key offerings within the Oracle Cloud ecosystem and highlights the features of the Oracle SCM suite. Candidates will learn about data flow between the SCM OMBPs and how these processes optimize supply chain management.
Topic 7	• OMBPs for Procurement: This section tests the abilities of Procurement Specialists in managing procurement operations within Oracle Cloud Applications. It covers the flow of procurement processes, integration points with other SCM modules, and best practices for improving procurement efficiency. Candidates will gain insights into the key metrics used to evaluate procurement performance and cost-effectiveness.
Topic 8	• OMBPs for Supply Chain Planning: This section assesses the knowledge of Supply Chain Planners in managing planning modules within Oracle SCM. It explains process flows, integration points, and how different planning modules work together. Candidates will learn about best practices for designing efficient planning workflows and key metrics used to measure supply chain responsiveness and effectiveness.

Avail 100% Pass-Rate Exam 1Z0-1163-1 Simulator Fee to Pass 1Z0-1163-1 on the First Attempt

ITexamReview 1Z0-1163-1 exam training materials can help you save a lot of time and energy, and make you yield twice the result with half effort to pass 1Z0-1163-1 certification exam. After you purchase our 1Z0-1163-1 exam dumps, we will also provide one year free renewal service for you. If there's any quality problem in 1Z0-1163-1 Exam Dumps you buy or you fail 1Z0-1163-1 certification exam, we promise to give you a full refund unconditionally.

Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 Sample Questions (Q27-Q32):

NEW QUESTION # 27
Which feature in Oracle Fusion Cloud SCM ensures product availability commitments based on inventory and supply constraints?

- A. Supplier Portal.
- B. Cost Accounting.
- C. Manufacturing Execution.
- D. Available to Promise (ATP).

Answer: D

Explanation:
Available to Promise (ATP) (C) in Oracle Fusion Cloud SCM ensures product availability commitments by calculating how much inventory is available for new orders based on current stock and supply constraints like production schedules and supplier lead times. For example, if 100 units are on hand with 40 committed, ATP shows 60 units available, ensuring accurate promises. Option A (Cost Accounting) tracks financials, not availability. Option B (Supplier Portal) supports collaboration, not direct commitment calculations. Option D (Manufacturing Execution) manages production, not order promising. ATP's real-time analysis prevents overpromising, aligning customer expectations with operational capacity.

NEW QUESTION # 28
What is the role of the Global Order Promising feature in Oracle Fusion Cloud SCM?

- A. It provides real-time order commitment dates based on supply and demand constraints.
- B. It eliminates the need for supplier collaboration.
- C. It guarantees same-day delivery for all orders.
- D. It focuses only on local inventory availability.

Answer: A

Explanation:
Global Order Promising (C) provides real-time order commitment dates by analyzing supply (e.g., inventory, production) and demand (e.g., orders, forecasts) constraints enterprise-wide. For instance, if 100 units are requested and 70 are available with a 3-day lead time, it commits to 3 days. Option A is false-no universal same-day guarantee exists. Option B is incorrect-supplier data often informs promises. Option D is wrong-it considers global, not just local, availability. This feature ensures reliable promises, reduces cancellations, and aligns customer expectations with operational capacity.

NEW QUESTION # 29
Which activity is fundamental to the Insight to Sourcing OMBP, ensuring effective procurement and cost optimization?

- A. Spend Analysis, which involves categorizing and analyzing historical spending data to identify cost-saving opportunities and strategic sourcing decisions.
- B. Idea Generation, which identifies market opportunities, incorporating trend analysis and internal innovation.
- C. Performance Monitoring, which assesses supplier ability to meet quality and service standards by utilizing audits, inspections, or performance reviews.

Answer: A

Explanation:
Spend Analysis (B) is the cornerstone of the Insight to Sourcing OMBP in Oracle Fusion Cloud SCM, as it involves categorizing and analyzing historical spending data to uncover cost-saving opportunities and inform strategic sourcing decisions. By examining past expenditures-e.g., identifying that 70% of spending on raw materials comes from a single supplier-businesses can negotiate better terms, consolidate suppliers, or shift to lower-cost alternatives, optimizing procurement costs. Option A (Idea Generation) is a preliminary step focused on innovation and market trends, not the core analytical activity driving sourcing. Option C (Performance Monitoring) evaluates supplier performance post-sourcing, not the initial insight process. For instance, Spend Analysis might reveal excessive spending on expedited shipping, prompting a shift to local suppliers, directly impacting cost efficiency and procurement strategy. This data-driven approach ensures decisions are grounded in financial reality, making it fundamental to the OMBP.

NEW QUESTION # 30
Which feature in Oracle Fusion Cloud SCM ensures that supply planning recommendations reflect the latest supplier information?

- A. Implementing manual verification of supplier information.
- B. Real-time Supplier Collaboration.
- C. Increasing reorder points in inventory management.
- D. Using separate forecasting models for procurement and supply chain planning.

Answer: B

Explanation:
Real-time Supplier Collaboration (C) in Oracle Fusion Cloud SCM ensures supply planning reflects the latest supplier information by integrating live data-e.g., lead times, inventory availability-via tools like the Supplier Portal. If a supplier updates a lead time from 5 to 7 days, planning adjusts instantly. Option A (increasing reorder points) is a static fix, not real-time. Option B (manual verification) contradicts automation goals. Option D (separate models) fragments planning, reducing accuracy. For example, real-time updates might prevent a stockout by rescheduling a delayed shipment, enhancing agility and precision in supply plans.

NEW QUESTION # 31
What is a primary advantage of the Replenishment Planning process in Oracle Fusion Cloud SCM?

- A. It guarantees inventory levels remain static regardless of demand fluctuations.
- B. It ensures optimal inventory levels by predicting demand and adjusting supply plans accordingly.
- C. It reduces supplier payment cycles.

Answer: B

Explanation:
Replenishment Planning in Oracle Fusion Cloud SCM optimizes inventory levels by predicting demand and adjusting supply plans to

prevent overstocking or stockouts. It uses demand forecasting and supply data to ensure inventory aligns with business needs. Option A (reducing payment cycles) is unrelated to replenishment planning. Option B (static inventory) is incorrect as the process dynamically adjusts to demand fluctuations, not maintains static levels. This advantage enhances operational efficiency and cost savings.

NEW QUESTION # 32
......

The 1Z0-1163-1 exam is highly competitive and acing it is not a piece of cake for majority of the people. It requires a great skill set and deep knowledge 1Z0-1163-1 Exam Questions. An aspirant achieving Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 (1Z0-1163-1) certificate truly reflects his hard work and consistent struggle. These 1Z0-1163-1 exam practice test a person's true capacities and passing it requires extensive knowledge of each 1Z0-1163-1 topic.
