Interactive NS0-528 Course, Latest NS0-528 Test Testking

You may be in a condition of changing a job, but having your own career is unbelievably hard. Then how to improve yourself and switch the impossible mission into possible is your priority. If you want to pass NS0-528 exam, here come our NS0-528 exam prep giving you a helping hand. Our company has the highly authoritative and experienced team to help you pass the NS0-528 Exam. You can not only get the most helpful and valid NS0-528 exam questions, but also you can get according suggestions on how to pass the NS0-528 exam.

Network Appliance NS0-528 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• NetApp ONTAP Core Data Protection Features: This section of the exam measures the skills of Systems Administrators and validates core knowledge of data protection and redundancy within the ONTAP environment. It encompasses understanding how data efficiencies impact protection strategies and the practical knowledge required to deploy these data protection solutions effectively in a hybrid cloud infrastructure.
Topic 2	<ul style="list-style-type: none">• Troubleshooting and Testing: This section of the exam measures the skills of Support Engineers and focuses on the practical skills needed to maintain data integrity. It involves troubleshooting common data protection configuration issues, executing well-defined Disaster Recovery (DR) procedures, and performing data restore operations to recover from data loss.

Topic 3	<ul style="list-style-type: none"> • NetApp ONTAP Business Continuity Solutions: This section of the exam measures the skills of Disaster Recovery Specialists and covers advanced business continuity technologies. This includes the configuration and operation of SnapMirror active sync for continuous data replication and the execution of SVM-DR (Storage Virtual Machine Disaster Recovery) operations to ensure high availability.
Topic 4	<ul style="list-style-type: none"> • NetApp Data Protection Software: This section of the exam measures the skills of DevOps Engineers and focuses on the deployment and administration of NetApp's proprietary data protection software. A key part of this domain involves applying these solutions to protect modern containerized applications running in Kubernetes environments.
Topic 5	<ul style="list-style-type: none"> • Data Protection Solutions: This section of the exam measures the skills of Storage Architects and covers the foundational principles of designing data protection solutions. It focuses on creating comprehensive design documentation, understanding the various components involved, and identifying all critical solution dependencies to ensure a robust and reliable data protection strategy.

Network Appliance Implementation Engineer - Data Protection Exam Sample Questions (Q247-Q252):

NEW QUESTION # 247

You need to upgrade to NetApp ONTAP 9.12.1 software on your source cluster in a SnapMirror relationship. The source cluster differs from the destination cluster and you want to take advantage of version-flexible SnapMirror replication. Which option should you choose?

- A. Delete the DP-type relationship and create a new XDP-type relationship.
- B. SnapMirror automatically converts existing DP-type relationships to XDP-type relationships.
- C. Delete the XDP-type relationship and create a new DP-type relationship.
- D. Run the command `snapmirror resync` and set the type to XDP.

Answer: A

Explanation:

To take advantage of version-flexible SnapMirror (introduced with XDP-type relationships), you must delete the existing DP-type relationship and create a new one using type XDP. DP-type relationships do not support version flexibility, which allows the source and destination clusters to run different ONTAP versions.

NEW QUESTION # 248

How can you ensure regulatory compliance in a data protection solution?

- A. By performing regular data audits
- B. By using strong data encryption methods
- C. By using a data compression algorithm
- D. By implementing a data backup and recovery plan

Answer: A

NEW QUESTION # 249

Your company reports that a volume was corrupted at 8 a.m. on April 28th. Referring to the exhibit, which Snapshot copy should be used for the restore?

- A. `~hourly.2020-04-28_0905~`
- B. `~daily.2020-04-28_0010~`
- C. `~hourly.2020-04-28_0805~`
- D. `~hourly.2020-04-28_0705~`

Answer: D

NEW QUESTION # 250

A customer has a 2-node ONTAP Select HA cluster deployed on the same site. The ONTAP Deploy VM has been accidentally deleted. The 2-node ONTAP Select HA cluster is still serving data, but the storage failover capability has been disabled. In this scenario, what would you do to reestablish the storage failover capability on your cluster?

- A. Deploy two single-node ONTAP Select clusters and migrate all existing data.
- B. Deploy a new 4-node ONTAP Select cluster and distribute data from the existing cluster.
- C. Deploy a secondary ONTAP Deploy VM and restore the 2-node cluster quorum.
- D. Deploy two ONTAP Deploy VMs and a new 2-node ONTAP Select cluster and then migrate the data.

Answer: A

NEW QUESTION # 251

You want to ensure that a particular version of SnapManager for SQL is supported in a configuration. Which three components need to be verified in the Interoperability Matrix? (Choose three.)

- A. Data ONTAP version
- B. FC HBA firmware
- C. On Command Unified Manager version
- D. SnapManager version
- E. SnapDrive version

Answer: A,D,E

NEW QUESTION # 252

.....

After a series of investigations and studies, we found that those students who wish to pass the NS0-528 exam through their own in-depth study of the textbooks are often slack in their learning.
