

Three Best HP HPE7-A11 Exam Dumps Formats - Pass Exam With Ease

HP HPE7-A11 certified examinations questions are collected and edited by latest exam teaching program and real test questions materials. We are engaged in updating our training materials constantly. If you are afraid that once you purchase our current version of HPE7-A11 Certified examinations questions, then there is new update version, current version will be out, please rest assured that you can download free our latest version one we release new version within one year.

You only need 20-30 hours to practice our software and then you can attend the exam. You needn't spend too much time to learn our HPE7-A11 study questions and you only need spare several hours to learn our HPE7-A11 guide torrent each day. Our HPE7-A11 study questions are efficient and can guarantee that you can pass the HPE7-A11 exam easily. But if you buy our HPE7-A11 exam torrent you can save your time and energy and spare time to do other things.

Quiz Latest HP - New HPE7-A11 Exam Guide

Our HPE7-A11 guide torrent is compiled by experts and approved by the experienced professionals. They are revised and updated according to the change of the syllabus and the latest development situation in the theory and practice. The language is easy to be understood to make any learners have no learning obstacles and our HPE7-A11 study questions are suitable for any learners. Our HPE7-A11 study questions are linked tightly with the exam papers in the past and conform to the popular trend in the industry. Our product convey you more important information with less amount of the questions and answers. Thus we can be sure that our HPE7-A11 guide torrent are of high quality and can help you pass the exam with high probability.

HPE Network Campus Access Professional Architect Exam Sample Questions (Q135-Q140):

NEW QUESTION # 135

'Don't Buy at Us' is a US-based retail company that is expanding into Europe. They are expanding into EMEA with a regional headquarters called HQ2 inside The Netherlands. Their US-based headquarters HQ1 was refreshed last year based on the Aruba ESP architecture. You have treated the design for HQ2 based on the same design as HQ1, a two-tier architecture. The high level is shown below.

Switch BOM for this project based on Two Tier:

Collapsed Core: 2 x Aruba 8360-16Y2C in VSX (ISL 2x100GbE DAC)

Access Stack: 10 x Stack of Aruba 6200F 48G Class4 PoE 4SFP+ 740W each stack has 4 members, VSF with 10GbE VSF links) (2 x 10GbE uplink per stack)

During the presentation of your design to the CTO of 'Don't Buy at Us' you were informed about the updated fiber infrastructure that Don't Buy at Us' has installed in HQ2.

The core stack is installed in the MDF and per IOF there is one access stack installed. Based on best practice, what is the most cost-effective update to the switch BOM?

- **A. core: 2 x 8360-16Y2C in VSX (ISL 2x100GbE DAC)**
access stack: 10 x stack of Aruba 6200F 48G Class4 PoE 4SFP+ 740W (each stack has 4 members, VSF with 10GbE VSF links) (2 x 10GbE uplink per stack) optics: 12 x 10Gbit-SR + 8 x 10Gbit-LR
- **B. core: 2 x 8360-16Y2C in VSX (ISL 2x100GbE DAC)**
access stack: 10 x stack of HPE Aruba Networking 6200M 48G Class4 PoE 4SFP+ (each stack has 4 members, VSF with 10GbE VSF links) (2 x 10GbE uplink per stack) optics: 12 x 10Gbit-SR + 8 x 10Gbit-LRM

- C. core: 2 x 8360-16Y2C in VSX (ISL 2x100GbE DAC)
access stack: 10 x stack of Aruba 6200F 48G Class4 PoE 4SFP+ 740W (each stack has 4 members, VSF with 10GbE VSF links) (2 x 10GbE uplink per stack) optics: 10 x 10Gbit-SR + 10 x 10Gbit-LR
- D. core: 2 x 8360-16Y2C in VSX (ISL 2x100GbE DAC)
access stack: 10 x stack of HPE Aruba Networking 6200M 48G Class4 PoE 4SFP+ (each stack has 4 members, VSF with 10GbE VSF links) (2 x 10GbE uplink per stack) optics: 12 x 10Gbit-SR + 8 x 10GbLLR

Answer: A

NEW QUESTION # 136

You are designing a secure onboarding solution for a customer's enterprise network. The plan includes using HPE Aruba Networking ClearPass Policy Manager (CPPM) Onboard to simplify device on boarding and enforce security policies. What critical design considerations and features recommendations should be addressed in your proposal to ensure a smooth and effective implementation? (Choose two.)

- A. Onboard CAs EST server can issue and automatically renew certificates for HPE Aruba Networking Unified Infrastructure devices.
- B. Onboard does not support acting as a Registration Authority in order to proxy certificate signing requests to an external CA.
- C. When hosting multiple PKI Certificate Authorities using ClearPass, the Onboard feature requires a Foundation plus Security subscription.
- D. With OpsRamp EST integration with Onboard you can issue and manage RadSec certificates on third-party NADs using ClearPass exchange.

Answer: A,C

Explanation:

Onboard includes an EST server capability that can issue and automatically renew certificates for Aruba infrastructure devices, which simplifies certificate lifecycle management and strengthens secure onboarding.

When multiple PKI Certificate Authorities are hosted, the Onboard functionality requires the appropriate licensing tier that includes both Foundation and Security subscriptions to support these advanced features.

NEW QUESTION # 137

ACME retail has 38 locations spread out across Ave US states and two provinces in Canada.

They are looking to grow 20% over the next two years. They have an HO with a staff of 200 employees. The organization has eight Regional Managers and two VPs who work from home and the road. Stores typically have 17 employees on average per location. The two warehouses have a remote loading system and 20 employees each to load the trucks and fulfill the online orders. The warehouse has 40-foot ceilings and large metal racks to store inventory. The main location is 240K sq ft (22300 st) m) and the Canadian warehouse is 130K sq ft (12100 sq ml. The forklifts on the loading docks are equipped with a wireless tablet on board. A typical store is reportedly about 60,000 sq ft (5575 sqm) and smaller stores are planned at 25,000 sq ft '2320 sq ml. The locations need to expand the abilities to vendors that need to add setup displays or Interactive kiosks in the stores. The current Infrastructure was installed in 2015 and used wireless N technology in a coverage model. The wiring is Cat5, and they are unsure of the fiber connections. The inventory is all placed on the floor when it is delivered to the local store. Inventory control is handled through Zebra barcode scanners, and they have had a lot of issues in getting signals throughout the stores and this makes monthly inventory difficult. The organization has a small help desk to troubleshoot issues that happen at the retail locations and PC support for the office. The company is looking to upgrade away from the current pbx system later this year. With the need to grow and cut costs, they are interested in moving the data to the cloud but need to get almost real-time inventory control for the online service to function.

The network has all been wired over the last ten years, but with the new systems being all wireless, they have seen the trend to offer wireless to all the vendors for their needs but also would like to allow employees, guests, and contractors all to use it. With the new IT director starting next week, the project has been set by the CTO of the company. The marketing group has asked how they can interact with the customers and get more info, while the IT support desk needs to cut staff in half. The office has an MDF and two IDF's located on floors one and two.

The HOF is in the basement, and you have multiple WAN circuits for the HO links. Each store has a local handoff from the cable company (Ethernet) in the middle of the store in the office, so distance for the wiring is not an issue. The customer has budget concerns but does want something that could last 7+ years. ACME Retail is using 4-post racks. Which rack mounting kit is better

suited for this project?

- A. optional Aruba 2-post Rack Mount Kit
- **B. optional Aruba Universal 4-post Rack Mount Kit**
- C. included Rack Mounting Kit
- D. optional Third Party 4-port Rack Mount Kit

Answer: B

Explanation:

For a large multinational retail company like ACME Retail that uses 4-post racks in their network infrastructure, the most suitable rack mounting kit would be the optional Aruba Universal 4-post Rack Mount Kit. This kit is designed to provide a secure and stable mounting solution for networking equipment in 4-post rack systems, which are commonly used in enterprise environments for their robustness and ability to support heavier equipment. The Aruba Universal 4-post Rack Mount Kit is versatile and designed to fit a wide range of Aruba switches and networking devices, making it an ideal choice for ACME Retail's project, ensuring compatibility and ease of installation across their various locations.

NEW QUESTION # 138

A global cruise line company needs to refresh its current fleet. They will refresh the 'insides' of the ship to be cost-effective and increase their sustainability. They will replace the complete WLAN/LAN hardware of the ship. In this refresh, the company will not refresh its current security requirements. The CIO also wants to limit the number of unused ports in the switches. Future expansion will always mean a refresh of hardware. They start with the smallest ship with a maximum of 800 guests.

Each ship has a LAN infrastructure consisting of two core switches, up to 10 redundant distribution switches, and up to 500 access switches (400 cabins, 100 technical rooms). The Core switches are located in the MDF of the ship and the distribution switches are located in the IDF's of the ship. Each cabin and technical room gets one single access switch.

The cabling structure of the ship will not be refreshed. Each IDF is connected to the MDF by SMF, of which two pairs are available for the interconnect between the core and distribution. The length of SM fiber between MDF and IDF is less than 300 meters (980 ft) and the type used is OS1. Each cabin is connected by a single OM2 pair to the IDF, the maximum length is 60 meters (200 ft). Each technical room is connected by a single OM2 pair to the IDF, with lengths between 100 and 150 meters (320 and 500 ft).

For each cabin/technical room the customer is looking to replace their current fan-less 2530/2540 without changing the requirements, except they need to upgrade the uplink to distribution switch to 10GbE to handle the increased network traffic, and the technical rooms need redundant power.

The WLAN infrastructure will be 1:1 refreshed without new cabling or new AP locations. Their WLAN infrastructure is based on the 200/300 series indoor and outdoor APs running InstantOS (less than 300 APs), the customer has no change in WLAN requirements.

The cruise line company will replace its current Internet connection before the LAN/WLAN refresh. The new Internet connection will provide a 99.8% uptime, which is needed to ensure the paid guest Wi-Fi is always operational. With this new internet connection, the CIO of the cruise line wants to base the design on the ESP architecture from Aruba because Internet connection is guaranteed.

Based on the best practices, what is the most cost-effective switch model for the distribution?

- A. 16300M 24p SFP+ LRM support and 2p 50G and 2p 25G MACsec
- B. 6300M 24-port HPE Smart Rate 1/2.5/5GbE Class 6 PoE and 4-port SFP56
- C. 6300M 48SR5 12p Class8 PoE and 36p Class6 PoE HPE Smart Rate 1G/2.5G/5G and 2p 50G and 2p 10G LRM
- **D. 6300F 24-port SFP+ and 4-port SFP56**

Answer: D

Explanation:

The distribution layer in this design primarily needs fiber connectivity for many 10GbE access- switch uplinks and higher-speed uplinks toward the core, without requiring PoE or multigig copper access ports. A 6300F model with 24 SFP+ ports and 4 SFP56 uplinks matches that role while avoiding the added cost of Smart Rate copper, PoE, and extra features that are not needed for this distribution use case.

NEW QUESTION # 139

Drag and Drop Question

What should be Included in an Executive Summary? (Place the correct Items into the let at the right Order is no: Important Not all cottons win be used)

□

Answer:

Explanation:

□

NEW QUESTION # 140

.....

The VerifiedDumps is a leading and reliable platform that has been offering real, valid, and updated HPE Network Campus Access Professional Architect Exam (HPE7-A11) exam practice test questions for many years. Over this long time period thousands of candidates have passed their dream HPE Network Campus Access Professional Architect Exam (HPE7-A11) certification exam. And the one thing has come in their success that was the usage of top-notch HPE7-A11 Exam Practice test questions. So you can also get help from VerifiedDumps practice test questions and make the HP HPE7-A11 exam preparation simple, smart and quick.

HPE7-A11 Real Exam: <https://www.verifiedumps.com/HPE7-A11-valid-exam-braindumps.html>

Our HPE7-A11 preparation exam is compiled specially for it with all contents like exam questions and answers from the real HPE7-A11 exam. So, it is very important to choose a HP HPE7-A11 exam prep material that helps you to practice actual HP HPE7-A11 questions, HP New HPE7-A11 Exam Guide. They can even broaden amplitude of your horizon in this line. Once you pass HPE7-A11 Real Exam - HPE Network Campus Access Professional Architect Exam actual test, you may have a higher position and salary.

Current bidding is over million, Because this graphic HPE7-A11 processing area is so new to the computer industry, there have been other attempts at producing chipsets. Our HPE7-A11 Preparation exam is compiled specially for it with all contents like exam questions and answers from the real HPE7-A11 exam.

New HPE7-A11 Exam Guide - 100% Pass Quiz HP - First-grade HPE7-A11 - HPE Network Campus Access Professional Architect Exam Real Exam

So, it is very important to choose a HP HPE7-A11 exam prep material that helps you to practice actual HP HPE7-A11 questions. They can even broaden amplitude of your horizon in this line.

Once you pass HPE Network Campus Access Professional Architect Exam actual test, you may have a higher position and salary. They check the update of the HPE7-A11 exam collection everyday and the latest version will send to your email once there are latest HPE7-A11 actual exam dumps (HPE Network Campus Access Professional Architect Exam).
