

JN0-232 Passleader Review, JN0-232 Authorized Certification

P.S. Free & New JN0-232 dumps are available on Google Drive shared by PrepAwayTest: <https://drive.google.com/open?id=1YWZ8wFYhf8DgV1xCiY7Xa7ZDw2Sm7-D>

If you have any problems installing and using JN0-232 study engine, you can contact our staff immediately. You know, we have so many users. If you do not immediately receive a link from us, you can send us an email to urge us. We hope you can use our JN0-232 Exam simulating as soon as possible! Our system is very smooth and you basically have no trouble. We hope you enjoy using our JN0-232 study engine.

We always aim at improving our users' experiences. You can download the PDF version demo before you buy our JN0-232 test guide, and briefly have a look at the content and understand the JN0-232 exam meanwhile. After you know about our JN0-232 actual questions, you can decide to buy it or not. The process is quite simple, all you need to do is visit our website and download the free demo. That would save lots of your time, and you'll be more likely to satisfy with our JN0-232 Test Guide as our pass rate of JN0-232 exam questions is more than 98%.

JN0-232 Authorized Certification & JN0-232 Latest Cram Materials

Every Juniper aspirant wants to pass the Juniper JN0-232 exam to achieve high-paying jobs and promotions. The biggest issue Security, Associate (JNCIA-SEC) (JN0-232) exam applicants face is that they don't find credible platforms to buy Real JN0-232 Exam Dumps. When candidates don't locate actual Security, Associate (JNCIA-SEC) (JN0-232) exam questions they prepare from outdated material and ultimately lose resources.

Juniper Security, Associate (JNCIA-SEC) Sample Questions (Q53-Q58):

NEW QUESTION # 53

Which two statements are correct about security zones on an SRX Series device? (Choose two.)

- A. Security zones cannot be shared between routing instances.

- B. Intrazone and interzone traffic both require security policies.
- C. Security zones can be shared between routing instances.
- D. Multiple security zones cannot be configured on an SRX Series device.

Answer: A,B

Explanation:

* Routing instances: Security zones are local to their routing instance. They cannot be shared between routing instances (Option B is correct). Each routing instance must define its own zones.

* Intrazone and interzone traffic: Both types of traffic require policies in Junos OS. Intrazone traffic must have an explicit intra-zone policy to be controlled (Option C is correct).

* Sharing zones: Option A is incorrect, as zones cannot span routing instances.

* Multiple zones: SRX devices fully support multiple security zones (trust, untrust, DMZ, etc.). Option D is incorrect.

Correct Statements: B and C

Reference: Juniper Networks - Security Zones and Routing Instances, Junos OS Security Fundamentals.

NEW QUESTION # 54

Which two statements describe what Port Address Translation (PAT) does? (Choose two.)

- A. It enables multiple internal devices to share a single external IP address.
- B. It maps an external IP address to an internal IP address.
- C. It maps an internal IP address to an external IP address and port number.
- D. It enables multiple external clients to initiate a connection with multiple internal devices.

Answer: A,C

Explanation:

PAT (Port Address Translation), also called NAT overload, allows many devices to share a single public IP:

* Option C: Correct. Multiple internal hosts share a single external IP.

* Option D: Correct. Each internal host is mapped to the same public IP but differentiated by unique port numbers.

* Option A: This describes basic static NAT (1-to-1 mapping).

* Option B: Incorrect, this describes general NAT behavior but not specific to PAT.

Correct Statements: PAT enables multiple internal devices to share one external IP, and it maps internal IPs to external IP + port.

Reference: Juniper Networks - Source NAT and PAT Operations, Junos OS Security Fundamentals.

NEW QUESTION # 55

Click the Exhibit button.

Referring to the exhibit, which two statements are correct? (Choose two.)

- A. The URL matches a predefined Web filtering category.
- B. The SRX firewall does not have an SSL proxy configuration.
- C. This is a custom Web filtering block message.

- **D. The NextGen Web Filtering type is being used.**

Answer: A,D

Explanation:

From the exhibit:

- * The user attempted to access <https://www.wikipedia.org>.
- * The block page indicates:
- * CATEGORY: NG_Reference
- * REASON: BY_PRE_DEFINED
- * The header states: "Juniper Web Filtering has been set to block this site." Analysis of options:
- * Option A: Correct. The log shows "REASON: BY_PRE_DEFINED," which means the site was blocked because it matched a predefined category in the Web filtering database.
- * Option B: Correct. The category "NG_Reference" indicates that the NextGen (Enhanced/Cloud-based) Web Filtering type is being used.
- * Option C: Incorrect. The exhibit does not provide any information about SSL proxy configuration; it only shows that the HTTPS site was blocked.
- * Option D: Incorrect. The block page shown is the standard Juniper default block page, not a custom message.

Correct Statements: The URL matches a predefined Web filtering category, and the NextGen Web Filtering type is being used.

Reference: Juniper Networks - Web Filtering (SurfControl, Enhanced, and NextGen Web Filtering), Junos OS Security Fundamentals.

NEW QUESTION # 56

You want to use Avira Antivirus.

Which two actions should you perform to satisfy this requirement? (Choose two.)

- A. Restart the management daemon (mgd) to load the components.
- **B. Reboot the SRX Series device to load the components.**
- C. Enable the Avira engine in operational mode.
- **D. Enable the Avira engine in configuration mode.**

Answer: B,D

Explanation:

The SRX Series devices support third-party antivirus scanning engines such as Avira. To use the Avira antivirus engine, administrators must explicitly enable the engine and ensure that the required components are properly loaded.

- * Enable in configuration mode:
- * The Avira antivirus engine must be enabled under UTM configuration mode. This step ensures the SRX device uses the Avira scanning engine for antivirus inspection.
- * Example:
- * set security utm feature-profile anti-virus avira-engine enable
- * Reboot the SRX device:
- * A system reboot is required after enabling the Avira engine to load the Avira antivirus components into memory.
- * Without a reboot, the Avira engine will not become active.
- * Why not the others?

* Restarting the mgd process (Option A) only reloads the management daemon and does not load antivirus engines.

* Enabling in operational mode (Option B) is not supported; the configuration must be applied in configuration mode.

Therefore, the correct actions to use Avira Antivirus are: Enable the Avira engine in configuration mode (Option D) and reboot the SRX device (Option C).

Reference: Juniper Networks - Junos OS UTM and Antivirus Configuration, Junos OS Security Fundamentals, Official Course Guide.

NEW QUESTION # 57

In which order does Junos OS process the various forms of NAT?

- A. source NAT, static NAT, destination NAT
- B. destination NAT, source NAT, static NAT
- **C. static NAT, destination NAT, source NAT**
- D. source NAT, destination NAT, static NAT

Answer: C

Explanation:

NAT processing in Junos OS follows a strict sequence to ensure correct packet handling:

* Static NAT- applied first because it provides a permanent one-to-one bidirectional mapping.

* Destination NAT- applied second to translate inbound destination addresses, often used for servers in private networks.

* Source NAT- applied last to translate outbound private source addresses to public ones.

This ensures deterministic behavior and avoids conflicts between translation types.

* Options B, C, and D list incorrect sequences.

Correct Order:static NAT # destination NAT # source NAT

Reference:Juniper Networks -NAT Processing Order, Junos OS Security Fundamentals.

NEW QUESTION # 58

.....

We provide the JN0-232 study materials which are easy to be mastered, professional expert team and first-rate service to make you get an easy and efficient learning and preparation for the JN0-232 test. Our product's price is affordable and we provide the wonderful service before and after the sale to let you have a good understanding of our JN0-232 Study Materials before your purchase, you had better to have a try on our free demos.
