If you want to buy Microsoft AI-102 Exam Study Guide online services, then we TrainingDump is one of the leading service provider's site. These training products to help you pass the exam, we guarantee to refund the full purchase cost. Our website provide all the study materials and other training materials on the site and each one enjoy one year free update facilities. If these training products do not help you pass the exam, we guarantee to refund the full purchase cost.

The Microsoft AI-102 Exam is divided into several sections, with each section covering a specific aspect of designing and implementing Azure AI solutions. Candidates must demonstrate their ability to work with Azure's various AI services, such as Azure Cognitive Services, Azure Machine Learning, and Azure Bot Service. They must also be able to integrate these services with other Azure services, such as Azure Data Factory and Azure HDInsight.

Free Download Microsoft AI-102 Updated Testkings Are Leading Materials & Valid AI-102: Designing and Implementing a Microsoft Azure AI Solution

The AI-102 certificate you have obtained can really prove your ability to work. Of course, our AI-102 study materials will also teach you how to improve your work efficiency. No matter how good the newcomer is, your status will not be shaken! Our AI-102 Practice Braindumps really are so powerful. If you still have concerns, you can use the free trial versions first. They are the free demos of the AI-102 exam questions for you to free download.

Microsoft AI-102: Designing and Implementing a Microsoft Azure AI Solution exam is intended for individuals who are looking to demonstrate their skills in designing and implementing Microsoft Azure AI solutions. AI-102 Exam is the second of the two exams that are required to earn the Microsoft Certified: Azure AI Engineer Associate certification. Designing and Implementing a Microsoft Azure AI Solution certification is intended for individuals who have a strong understanding of AI and machine learning concepts and are able to implement them using Microsoft Azure services and tools.

Microsoft Designing and Implementing a Microsoft Azure AI Solution Sample Questions (Q154-Q159):

NEW QUESTION # 154

You run the following command.

☐ For each of the following statements, select Yes if the statement is true. Otherwise, select No.

☐

Answer:

Explanation:

☐ **Reference:**

NEW QUESTION # 155

You have an Azure subscription that contains an Azure AI Document Intelligence resource named DM. DI1 uses the Standard S0 pricing tier. You have the files shown in the following table.

Which files can you analyze by using DI1?

- A. File3.tiff only
- B. File1.pdf only
- C. File2.jpg and File3.tiff only
- D. File1.pdf, File2.jpg, and File3.tiff
- E. File2.jpg only

Answer: A

Explanation:

Azure AI Document Intelligence (Standard S0) enforces input constraints: images must be between 50×50 and 10,000×10,000 pixels and typical file size limits apply (images/PDFs well below hundreds of MB; an 800-MB PDF is far beyond supported sizes).

* File1.pdf (800 MB) - exceeds supported size limits # cannot be analyzed.

* File2.jpg (25×25 px) - below the 50×50 px minimum # cannot be analyzed.

* File3.tiff (5,000×5,000 px; 5 MB) - within pixel and size limits # can be analyzed.

NEW QUESTION # 156

You plan to build a chatbot to support task tracking.

You create a Conversational Language Understanding service named Lu1.

You need to build a Conversational Language Understanding model to integrate into the chatbot. The solution must minimize development time to build the model.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Answer:

Explanation:

Explanation:

NEW QUESTION # 157

Select the answer that correctly completes the sentence.

Answer:

Explanation:

NEW QUESTION # 158

You are building a bot and that will use Language Understanding.

You have a LUDown file that contains the following content.

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:
