

# Latest PL-600 Practice Materials | Valid PL-600 Exam Cram

DOWNLOAD the newest Exams4sures PL-600 PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=1Odx0RzcBoaNV-vtGFGgHxJ0aFyhe8yuu>

Our PL-600 exam materials will help you pass the exam with the least time. You can pass your exam after learning 48 to 72 hours of our PL-600 exam dumps. Since we have a professional team to edit and verify the exam materials, therefore the PL-600 exam materials are high-quality and accurate. Besides PL-600 Exam Dumps contain most of knowledge points of the exam, and you will have a good command of them in the process of learning. We are pass guarantee and money back guarantee. If you fail to pass the exam, we will refund your money.

## Why choose Microsoft PL-600 Certification Exam

PL-600 is a Microsoft Certified Professional certification exam. Microsoft PL-600 certification exam is becoming the industry standard for validating the skills of candidates in today's competitive job market. This exam will validate your knowledge, experience and expertise in a particular field. This will not only make you more confident, but also give you an added advantage over your peers. We know how important passing your certification exam is to you, so we put all of our resources towards making sure you are fully prepared. Our **Microsoft PL-600 Dumps** are designed to get you through your exam on the first attempt. Rest assured that our practice exams cover all areas of the actual certification exam, including the specific terminology.

## Valid PL-600 Exam Cram & Valid PL-600 Exam Syllabus

In order to meet the demands of all customers, our company has a complete set of design, production and service quality guarantee system, the PL-600 study materials are perfect. We can promise that quality first, service upmost. If you buy the PL-600 study materials from our company, we are glad to provide you with the high quality PL-600 Study Materials and the best service. The philosophy of our company is "quality is life, customer is god." We can promise that our company will provide all customers with the perfect quality guarantee system and sound management system.

Microsoft PL-600 exam is a comprehensive test that measures the technical expertise of the candidates in designing and implementing solutions using Microsoft Power Platform. PL-600 exam consists of multiple-choice questions that are designed to assess the candidate's knowledge of the platform's functionalities, features, and capabilities. PL-600 Exam is divided into different sections, each focusing on a specific area of the platform, such as Power Apps, Power Automate, and Power BI.

## Microsoft Power Platform Solution Architect Sample Questions (Q92-Q97):

**NEW QUESTION # 92**

Hotspot Question

A multinational organization uses a single Microsoft Power Platform environment. The instance hosts multiple customizations for different users in different regions. Users in some regions complain about slow load time of the customizations. You need to architect a solution based on the main requirement. What should you recommend? To answer, select the appropriate option in the answer area. NOTE: Each correct selection is worth one point.

Goal	Suggested solution
Divisions actively collaborate on customers.	<input type="text"/> <ul style="list-style-type: none"> <li>Single instance; use Microsoft Azure Traffic Manager where needed</li> <li>Multi-tenant with one Power Platform environment in each region</li> <li>Multiple instances in different regions; Power BI for reporting</li> <li>Single multi-geo instance</li> </ul>
Regions have separate customers but use the same functionality and need global reporting.	<input type="text"/> <ul style="list-style-type: none"> <li>Multiple instances in different regions with data replication</li> <li>Multi-tenant with one Power Platform environment in each region</li> <li>Multiple instances in different regions; Power BI for reporting</li> <li>Single multi-geo instance</li> </ul>
Regions have separate functionality and customers but need global reporting on data.	<input type="text"/> <ul style="list-style-type: none"> <li>Single instance; use Microsoft Azure Traffic Manager</li> <li>Multi-tenant with one Power Platform environment in each region</li> <li>Multiple instances in different regions; Power BI for reporting</li> <li>Single multi-geo instance</li> </ul>

Answer:

Explanation:

Goal	Suggested solution
Divisions actively collaborate on customers.	<input type="text"/> <ul style="list-style-type: none"> <li>Single instance; use Microsoft Azure Traffic Manager where needed</li> <li>Multi-tenant with one Power Platform environment in each region</li> <li>Multiple instances in different regions; Power BI for reporting</li> <li>Single multi-geo instance</li> </ul>
Regions have separate customers but use the same functionality and need global reporting.	<input type="text"/> <ul style="list-style-type: none"> <li>Multiple instances in different regions with data replication</li> <li>Multi-tenant with one Power Platform environment in each region</li> <li>Multiple instances in different regions; Power BI for reporting</li> <li>Single multi-geo instance</li> </ul>
Regions have separate functionality and customers but need global reporting on data.	<input type="text"/> <ul style="list-style-type: none"> <li>Single instance; use Microsoft Azure Traffic Manager</li> <li>Multi-tenant with one Power Platform environment in each region</li> <li>Multiple instances in different regions; Power BI for reporting</li> <li>Single multi-geo instance</li> </ul>

Explanation:

Box 1: Single instance; use Microsoft Azure Traffic Manager where needed You can't actively collaborate on anything with multiple instances and replication. You need a single repository of data.

Box 2: Multiple instances in different regions with data replication

Customers data is different, so multiple instances are not a problem. You can replicate data when needed and use it any instance for reporting.

Box 3: Multiple instances in different regions; Power BI for reporting

Separated data and functionality don't need data replication at all. Power BI is capable of aggregate data from multiple sources.

**NEW QUESTION # 93**

You are overseeing the data migration for a Microsoft Power Platform solution.

The migration team is performing a test migration with a subset of data. The migration team reports the following findings:

- \* Users who own account rows are receiving system generated emails.
- \* Data that is not part of the migration is being added to the Contact and Appointment tables.
- \* The size of the log listed on the Power Platform admin center Capacity page has increased significantly.

You need to recommend strategies to resolve the reported issues.

What should you recommend? To answer, drag the appropriate resolution to the correct migration problem.

Each resolution may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Resolution strategies	Migration issue	Resolution strategy
Disable auditing.	Users who own account rows are receiving system generated emails.	
Disable duplicate detection.	Data that is not part of the migration is being added to the Contact and Appointment tables.	
Disable all custom JavaScript functions.	The size of the log listed on the Power Platform admin center Capacity page has increased significantly.	
Disable all workflows, plug-ins, and Power Platform admin center		

**Answer:**

Explanation:

Resolution strategies	Migration issue	Resolution strategy
Disable auditing.	Users who own account rows are receiving system generated emails.	Disable duplicate detection.
Disable duplicate detection.	Data that is not part of the migration is being added to the Contact and Appointment tables.	Disable all workflows, plug-ins, and Power Platform admin center
Disable all custom JavaScript functions.	The size of the log listed on the Power Platform admin center Capacity page has increased significantly.	Disable auditing.
Disable all workflows, plug-ins, and Power Platform admin center		

Explanation:

Graphical user interface, application Description automatically generated

Migration issue	Resolution strategy
Users who own account rows are receiving system generated emails.	Disable duplicate detection.
Data that is not part of the migration is being added to the Contact and Appointment tables.	Disable all workflows, plug-ins, and Power Platform admin center
The size of the log listed on the Power Platform admin center Capacity page has increased significantly.	Disable auditing.

Box 1: Disable duplicate detection

Duplicate detection has rules for sending emails.

Box 2: Disable all workflows, plug-ins, and Power Platform admin center Box 3: Disable auditing Auditing affects the size of the log

file.

### NEW QUESTION # 94

A company plans to import 2.5 million data rows into Microsoft Dataverse during a go-live process. The import job will run as a single import job.

You run a test on the import and observe that some of the rows did not import.

You need to identify which rows did not import.

Which tool should you use?

- A. Azure Event Hub
- **B. Import Data Wizard**
- C. Azure Service Bus
- D. Microsoft Power Platform dataflows

**Answer: B**

### NEW QUESTION # 95

You are designing a Power Platform solution for a company.

You have the following requirements:

Users in the human resources department must be able to create tasks.

Users in the human resources department must be able to assign cases to other users.

You need to recommend security settings to the company.

What should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Business requirement	Solution
Users in the human resources department must be able to create tasks.	<ul style="list-style-type: none"><li>Assign only Create rights to activities.</li><li>Assign Create and Read rights to activities.</li><li>Assign user-level assign rights to the human resources case table.</li><li>Assign organization-level rights to the human resources case table.</li></ul>
Users in the human resources department must be able to assign cases to other users.	<ul style="list-style-type: none"><li>Assign only Create rights to activities.</li><li>Assign Create and Read rights to activities.</li><li>Assign user-level assign rights to the human resources case table.</li><li>Assign organization-level assign rights to the human resources case table.</li></ul>

**Answer:**

Explanation:

Business requirement	Solution
Users in the human resources department must be able to create tasks.	<ul style="list-style-type: none"><li>Assign only Create rights to activities.</li><li>Assign Create and Read rights to activities.</li><li>Assign user-level assign rights to the human resources case table.</li><li>Assign organization-level rights to the human resources case table.</li></ul>
Users in the human resources department must be able to assign cases to other users.	<ul style="list-style-type: none"><li>Assign only Create rights to activities.</li><li>Assign Create and Read rights to activities.</li><li>Assign user-level assign rights to the human resources case table.</li><li>Assign organization-level assign rights to the human resources case table.</li></ul>

**NEW QUESTION # 96**

You are performing a requirements analysis for a customer.

The customer provides the following requirements:

Power Platform storage capacity must remain under 100 percent.

Customer service representatives must be sent an email when they are assigned a case.

Help desk technicians must be shown an error message when they try to delete a task row.

The plug-in pass rate must remain over 99 percent for the production environment.

You need determine if the requirements are functional or non-functional.

Which requirement type should you use? To answer, drag the appropriate requirement types to the correct requirements. Each requirement type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Requirement types	Requirement	Requirement type
	Power Platform storage capacity must remain under 100 percent.	<input type="text"/>
 Functional	Customer Service representatives must be sent an email when they are assigned a case.	<input type="text"/>
<input type="text"/> Non-functional	Help desk technicians must be shown an error message when they try to delete a task row.	<input type="text"/>
	The plug-in pass rate must remain over 99 percent for the production environment.	<input type="text"/>

**Answer:**

Explanation:

Requirement types	Requirement	Requirement type
	Power Platform storage capacity must remain under 100 percent.	<input type="text" value="Non-functional"/>
<input type="text" value="Functional"/>	Customer Service representatives must be sent an email when they are assigned a case.	<input type="text" value="Functional"/>
<input type="text" value="Non-functional"/>	Help desk technicians must be shown an error message when they try to delete a task row.	<input type="text" value="Functional"/>
	The plug-in pass rate must remain over 99 percent for the production environment.	<input type="text" value="Non-functional"/>
