Therefore, the ISACA COBIT-2019 (COBIT 2019 Foundation) Certification Exam is an excellent opportunity for professionals to showcase their skills and knowledge in this area.

ISACA COBIT 2019 Foundation Sample Questions (Q142-Q147):

NEW QUESTION # 142

Which of the following cascades to enterprise goals?

- A. Stakeholder needs
- **B. Enterprise strategy**
- C. Organizational objectives

Answer: B

Explanation:

Explanation

Enterprise strategy cascades to enterprise goals within the COBIT goals cascade. The COBIT goals cascade is a mechanism that helps enterprises to align their governance objectives with their stakeholder needs. It consists of four levels: stakeholder drivers, enterprise goals, alignment goals, and governance and management objectives. Enterprise strategy is the high-level direction and guidance that defines how the enterprise will achieve its vision and mission. Enterprise goals are the specific targets or outcomes that the enterprise sets to achieve its vision and mission. Enterprise strategy cascades to enterprise goals through a process of analysis, prioritization, and validation.12 References: COBIT 2019 Framework: Introduction and Methodology, COBIT 2019 Framework: Governance System

NEW QUESTION # 143

Which COBIT domain of management objectives incorporates managed business process controls?

- A. Build, Acquire and Implement (BAI)
- B. Align, Plan and Organize (APO)
- **C. Deliver, Service and Support (DSS)**

Answer: C

NEW QUESTION # 144

Which of the following is an example of a focus area within COBIT?

- **A. Digital transformation**
- B. Robotic process automation
- C. Internet of Things

Answer: A

Explanation:

Explanation

A focus area within COBIT is a topic that is relevant to governance and management of enterprise information and technology, and that requires additional guidance to address specific challenges or priorities. Digital transformation is one of the focus areas that COBIT provides guidance on, as it involves the use of technology to create new or modify existing business processes, culture, and customer experiences to meet changing business and market requirements1, p. 23. NEW QUESTION # 145

What is the role of the internal audit function when defining the EGIT target state?

- A. Develop and communicate a change enablement plan and objectives.
- B. Prepare the detailed business case and high-level program plan.
- C. Align targeted process improvement solutions to enterprise goals.
- **D. Provide advice and assist with target-state positioning and gap priorities.**

Answer: D

Explanation:

Explanation

The internal audit function is an independent and objective assurance and consulting activity that evaluates and improves the effectiveness of governance, risk management, and control processes in an enterprise. The internal audit function has a role in defining the EGIT target state, which is the desired state of information and technology governance in an enterprise that is aligned with its strategy, objectives, and stakeholder needs.

The role of the internal audit function in this process is to provide advice and assist with target-state positioning and gap priorities. This means that the internal audit function can help to identify the current state of information and technology governance in an enterprise, assess the gaps and issues that need to be addressed, determine the target state of information and technology governance that is optimal for the enterprise, and prioritize the actions and initiatives that are required to achieve the target state. The internal audit function can also provide assurance on the design and implementation of the EGIT target state by evaluating its adequacy, effectiveness, efficiency, and compliance.
