### PMI PMO Certified Professional Sample Questions (Q91-Q96):

#### NEW QUESTION # 91

During a PMO stakeholder feedback session, participants are asked to articulate their expectations of the PMO. While some mention tools and processes, the facilitator emphasizes the importance of aligning the PMO's efforts with broader organizational goals. What is the primary focus of PMO stakeholders when articulating their needs?

- A. Highlighting the technical functions and outputs provided by the PMO
- B. Defining the desired benefits and benefits they expect to achieve
- C. Listing the specific project management tools they prefer to use
- D. Describing the PMO's internal processes and governance model

**Answer: B**

Explanation:

Stakeholders primarily focus on the benefits they expect from the PMO rather than technical outputs or internal processes. A value-driven approach ensures that PMO efforts align with organizational goals and stakeholder priorities, emphasizing outcomes over methodologies or tools.

#### NEW QUESTION # 92

During a PMO stakeholder feedback session, participants are asked to articulate their expectations of the PMO. While some mention tools and processes, the facilitator emphasizes the importance of aligning the PMO's efforts with broader organizational goals. What is the primary focus of PMO stakeholders when articulating their needs?

- A. Highlighting the technical functions and outputs provided by the PMO
- B. Defining the desired benefits and benefits they expect to achieve
- C. Listing the specific project management tools they prefer to use
- D. Describing the PMO's internal processes and governance model

**Answer: B**

Explanation:

Stakeholders primarily focus on the benefits they expect from the PMO rather than technical outputs or internal processes. A value-

driven approach ensures that PMO efforts align with organizational goals and stakeholder priorities, emphasizing outcomes over methodologies or tools.

Reference:

PMI's The Standard for Benefits Realization Management.

### NEW QUESTION # 93

A PMO is creating action plans to guide its maturity evolution. The team is considering various frameworks to ensure the plans address all critical elements, including long-term goals and operational adjustments. What essential aspects should be addressed in the development of action plans for the evolution of PMO maturity?

- A. Current maturity, target/desired maturity, and maximum achievable maturity
- B. Short, medium, and long-term objectives for improvement
- C. Strategy, tactics, and operation across all functions
- **D. Processes, people, and technology as core areas of focus to develop each PMO function**

**Answer: D**

Explanation:

PMO action plans for maturity evolution must address processes, people, and technology. These are the foundational areas that drive functional improvement and alignment with organizational goals. Addressing these elements ensures that the PMO evolves holistically and sustainably over time.

Reference:

PMI's Organizational Project Management Maturity Model (OPM3).

PMO Maturity Development Frameworks - Guidelines on addressing critical areas.

### NEW QUESTION # 94

What is the main necessary factor for a PMO to be recognized in its organization?

- A. Implement best practices in project management.
- B. Manage the strategic portfolio of projects
- **C. Meet the benefits expectations of its stakeholders.**
- D. Have a low cost.

**Answer: C**

Explanation:

The primary factor for a PMO to be recognized and valued within its organization is its ability to meet the benefits expectations of its stakeholders. Stakeholders, including upper management, functional managers, and project teams, are most concerned with how the PMO contributes to the successful delivery of projects, alignment with strategic goals, and the realization of benefits. A PMO that consistently meets or exceeds these expectations will be seen as an essential part of the organization's success.

### NEW QUESTION # 95

Which of the following actions would not be recommended to improve the result of the PMO ROI?

- A. Allow the PMO to take a more strategic approach, focusing on the business of the organization.
- **B. Expand the scope of projects under the PMO mandate.**
- C. To evolve the maturity of the functions selected for the PMO and to develop the competencies of the PMO members.
- D. Reduce PMO costs and modify selected functions for the PMO.

**Answer: B**

Explanation:

Expanding the scope of projects under the PMO mandate is generally not recommended to improve PMO ROI unless there is clear alignment with organizational strategy. Increasing the scope without careful planning and additional resources may lead to overextension, resource strain, and potentially negative impacts on overall project outcomes. Instead, focusing on reducing costs, improving functions, and increasing the maturity of the PMO are more effective actions to enhance ROI.
