## 1z0-1057-25 Examcollection Dumps Torrent | Latest 1z0-1057-25 Exam Answers

As the talent team grows, every fighter must own an extra technical skill to stand out from the crowd. To become more powerful and struggle for a new self, getting a professional 1z0-1057-25 certification is the first step beyond all questions. We suggest you choose our 1z0-1057-25 test prep ----an exam braindump leader in the field. Since we release the first set of the 1z0-1057-25 quiz guide, we have won good response from our customers and until now---a decade later, our products have become more mature and win more recognition. We promise to give you a satisfying reply as soon as possible. All in all, we take an approach to this market by prioritizing the customers first, and we believe the customer-focused vision will help our 1z0-1057-25 Test Guide' growth.

## Oracle Project Management Cloud 2025 Implementation Professional Sample Questions (Q77-Q82):

### NEW QUESTION # 77

Which three features are part of Oracle Fusion Functional Setup Manager?

- A. export and import services for setup data migration between environments
- B. feature opt-in for a best fit configuration
- C. guided task list for end-to-end setup requirements
- D. updating an implementation project task list by changing the opt-in configuration to suit the latest requirements
- E. modifying an existing implementation project task list by selecting more functional areas when needed

**Answer: A,B,C**

Explanation:

<https://docs.oracle.com/en/cloud/saas/applications-common/r13-update17d/oafsm/applications-cloud-using-functional-setup-manager.pdf> Functional Setup Manager offers the following:

- \* Standardized application configuration and setup experience
- \* Feature opt-in for a best fit configuration
- \* Flexible processes for managing setup:
  - # Setup by functional areas for an adopt-as-you-go approach
  - # Implementation projects to manage setup
  - # Upload file to enter setup data in bulk
- \* Guided task list for end-to-end setup requirements
- \* Export and import services for setup data migration between environments
- \* Comprehensive reporting on setup data

### NEW QUESTION # 78

Which precedence order is used by the system for labor schedules to distribute payroll cost?

- A. Assignment > Element > Assignment Element
- B. Assignment > Assignment Element > Element
- C. Element > Assignment Element > Assignment
- D. Assignment Element > Element > Assignment

**Answer: B**

Explanation:

The precedence order that is used by the system for labor schedules to distribute payroll cost is Assignment > Assignment Element > Element. This means that the system first looks for a labor schedule that is assigned to the employee assignment, then for a labor schedule that is assigned to the payroll element of the employee assignment, and finally for a labor schedule that is assigned to the payroll element itself. The system uses the first labor schedule that it finds in this order to distribute the payroll cost to projects and tasks based on the hours and rates defined in the schedule. ### NEW QUESTION # 79

Your administrator creates maintenance conditions on the Maintain Project Enterprise Labor Resources page.

An HCM person is included in a condition with a process order value of 1 and, additionally, there are three other conditions, all with a process order value of 10. Identify two correct statements about the Maintain Project Enterprise Labor Resources process as it relates to process order values. (Choose two.)

- A. The process creates a resource by using the conditions with a process order value of 10 but does not create more than one resource for the same person even if subsequent conditions apply to the person.
- B. The process creates a resource by using the condition with a process order value of 1 but does not create more than one resource for the same person even if subsequent conditions apply to the person.
- C. For the three conditions that have the same process order value of 10, the records are processed in ascending numeric order based on the condition name.
- D. For the three conditions that have the same process order value of 10, the records are processed in ascending alphabetic order based on the condition name.

**Answer: B,D**

Explanation:

Reference: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19a/oapex/define-project-resource-management-configuration.html#OAPEX1449200> Topic - FAQs for Define Project Enterprise Labor Resources What's the processing order of project enterprise labor resource maintenance conditions?

Records are processed by the Maintain Project Enterprise Labor Resources process in ascending order based on the process order value that you specify on the Create Condition page. For example, assume that an HCM person is included in a condition with a process order value of 1. If a resource doesn't already exist for that person, then the process creates a resource for the condition with the process order value of 1. The process doesn't create more than one resource for the same person even if subsequent conditions apply to the person.

If multiple conditions have the same process order value, then records are processed in ascending alphabetic order based on the condition name.

#### NEW QUESTION # 80

You are trying to create a project purchase order (PO) but you are unable to select Expenditure Organization in the PO. Identify two reasons for this problem. (Choose two.)

- A. The organization is not included in the organization tree that is assigned to the business unit that owns the PO.
- B. The organization is not classified as a project expenditure organization.
- C. The organization is classified as a project unit.
- D. The organization is not classified as a project-owning organization.

**Answer: A,B**

Explanation:

Ref: Implementing-Project-Financial-Management-and-Grants-Management.pdf Chapter 3 - Define Project Organizations Page # 12 Topic - Selecting Organization Hierarchies for the Business Unit The following conditions are required for an organization to be eligible to be a project expenditure organization:

\* You must assign the Project Expenditure Organization classification to the organization.

\* The organization must belong to the hierarchy that you specify in the project implementation options for the business unit.

#### NEW QUESTION # 81

Which three setups can be configured by using Rapid Implementation for Project Financial Management Applications?

- A. Project Types
- B. Project Templates
- C. Work Type
- D. Expenditure Types
- E. Project Class Categories

**Answer: A,B,D**

Explanation:

Rapid Implementation for Project Financial Management Applications allows you to configure some common setups for project costing and billing using predefined templates and spreadsheets. Some of the setups that can be configured using Rapid Implementation are expenditure types, project templates, and project types. Work types and project class categories are not part of Rapid Implementation. Reference: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/20c/oapfin/implement-project-financial-management-applications.html#OAPFM2355871>

#### NEW QUESTION # 82

.....
