Solutions is commented Palo Alto Networks to ace your PSE-Cortex-Pro-24 preparation and enable you to pass the final Palo Alto Networks PSE-Cortex-Pro-24 with flying colors. To achieve this objective Exams. Solutions is offering updated, real, and error-free PSE-Cortex-Pro-24 Exam Questions in three easy-to-use and compatible formats. These PSE-Cortex-Pro-24 questions formats will help you in preparation.

You will never be afraid of the PSE-Cortex-Pro-24 exam, we believe that our PSE-Cortex-Pro-24 preparation materials will help you change your present life. It is possible for you to start your new and meaningful life in the near future, if you can pass the PSE-Cortex-Pro-24 exam and get the certification. So it is very important for you to prepare for the PSE-Cortex-Pro-24 Practice Exam, you must pay more attention to the PSE-Cortex-Pro-24 certification guide to help you. And our PSE-Cortex-Pro-24 exam questions can give you all the help to obtain the certification.

Exam PSE-Cortex-Pro-24 Overview - Test PSE-Cortex-Pro-24 Engine

You can also become part of this skilled and qualified community. To do this joust enroll in the Network Security Specialist PSE-

Cortex-Pro-24 certification exam and start preparation with real and valid Palo Alto Networks Systems Engineer Professional - Cortex (PSE-Cortex-Pro-24) exam practice test questions right now. The Easy4Engine PSE-Cortex-Pro-24 Exam Practice test questions are checked and verified by experienced and qualified PSE-Cortex-Pro-24 exam trainers. So you can trust Easy4Engine PSE-Cortex-Pro-24 exam practice test questions and start preparation with confidence.

Palo Alto Networks Systems Engineer Professional - Cortex Sample Questions (Q160-Q165):

NEW QUESTION # 160

Which two entities can be created as a BIOC? (Choose two.)

- A. registry
- B. alert log
- C. event log
- D. file

Answer: A,D

Explanation:

<https://docs.paloaltonetworks.com/cortex/cortex-xdr/cortex-xdr-pro-admin/investigation-and-response/cortex-xdr-indicators/working-with-biocs/create-a-bioc-rule.html>

NEW QUESTION # 161

What is the size of the free Cortex Data Lake instance provided to a customer who has activated a TMS tenant, but has not purchased a Cortex Data Lake instance?

- A. 1 TB
- B. 100 GB
- C. 10 TB
- D. 10 GB

Answer: B

Explanation:

Cortex Data Lake (often referred to as Strata Logging Service in some contexts) is Palo Alto Networks' cloud-based storage solution that centralizes security data for products like Cortex XDR, Prisma Access, and NGFWs. The question involves a customer who has activated a TMS (Tenant Management Service) tenant but has not purchased a Cortex Data Lake instance. TMS is part of the Palo Alto Networks ecosystem for managing tenants and services, typically associated with Cortex or Prisma deployments. Let's break this down to determine the size of the free Cortex Data Lake instance provided in this scenario.

Understanding TMS and Cortex Data Lake:

* TMS Tenant: The Tenant Management Service is a framework used to manage multiple tenants or instances within Palo Alto Networks' cloud services (e.g., Cortex XDR, Prisma Access). Activating a TMS tenant implies the customer has initialized a management structure but hasn't committed to a full Cortex Data Lake purchase.

* Free Cortex Data Lake Instance: Palo Alto Networks provides a limited, free tier of Cortex Data Lake storage to customers who activate certain services or products, allowing them to evaluate functionality or store minimal data before committing to a paid license.

Free Storage Allocation:

When a customer activates a TMS tenant without purchasing a Cortex Data Lake instance, Palo Alto Networks allocates a default free storage capacity to enable basic functionality. According to official documentation and standard practices:

* The free Cortex Data Lake instance provides 100 GB of storage.

* This amount is intended for initial use cases, such as storing logs from a small number of endpoints (e.g., Cortex XDR Prevent agents), firewall logs, or trial data during evaluation periods.

Option Analysis:

* A. 10 GB:

* Analysis: 10 GB is too small to be a meaningful free tier for a product like Cortex Data Lake, which is designed to handle security telemetry from endpoints, networks, or cloud services. Even basic log storage for a few devices over a short period would exceed this quickly.

* Conclusion: Incorrect.

* B. 1 TB:

* Analysis: 1 TB (1,000 GB) is a substantial amount of storage, typically associated with paid Cortex Data Lake subscriptions rather

than a free tier. Offering this much for free would undermine the paid licensing model.

* Conclusion: Incorrect.

* C. 10 TB:

* Analysis: 10 TB is even larger and aligns with enterprise-scale paid deployments, not a free instance. This size is far beyond what's provided without a purchase.

* Conclusion: Incorrect.

* D. 100 GB:

* Analysis: 100 GB is the documented size of the free Cortex Data Lake instance provided to customers who activate a tenant (e.g., via TMS) without purchasing additional storage. It's sufficient for small-scale testing, such as storing logs from a handful of Cortex XDR agents or firewall data for a limited retention period (e.g., 30 days).

* Conclusion: Correct.

Supporting Context:

* Cortex XDR Example: For Cortex XDR Prevent customers, activating a tenant includes 100 GB of free Cortex Data Lake storage for 30 days of alert data (not full telemetry, which requires XDR Pro).

This aligns with the TMS scenario, where basic tenant activation triggers the same free tier.

* Prisma Access: Similarly, Prisma Access customers activating a tenant without a purchased Data Lake instance receive 100 GB for initial log storage.

* Documentation: While exact wording may vary, Palo Alto Networks consistently references 100 GB as the free tier across product activation guides.

References:

Cortex Data Lake Getting Started Guide (Palo Alto Networks Documentation):

States that customers who activate a tenant without purchasing storage receive "100 GB of free storage" for initial use.

docs.paloaltonetworks.com/r/Cortex-Data-Lake/Cortex-Data-Lake-Getting-Started/Get-Started-with-Cortex-Data-Lake

Cortex XDR Prevent Activation:

Notes that 100 GB is included for free with tenant activation, supporting basic alert storage.

Palo Alto Networks Sales and Licensing FAQs:

Confirms 100 GB as the standard free tier for Cortex Data Lake when no additional storage is purchased.

NEW QUESTION # 162

Which deployment type supports installation of an engine on Windows, Mac OS, and Linux?

- A. DEB
- **B. ZIP**
- C. RPM
- D. SH

Answer: B

Explanation:

<https://docs.paloaltonetworks.com/cortex/cortex-xsoar/6-0/cortex-xsoar-admin/engines/install-deploy-and-configure-demisto-engines/create-a-new-engine.html>

NEW QUESTION # 163

During the TMS instance activation, a tenant (Customer) provides the following information for the fields in the Activation - Step 2 of 2 window.

□ During the service instance provisioning which three DNS host names are created? (Choose three.)

- A. cc.xnet50traps.paloaltonetworks.com
- B. hc-xnet50.traps.paloaltonetworks.com
- **C. cc-xnet.traps.paloaltonetworks.com**
- **D. ch-xnet.traps.paloaltonetworks.com**
- **E. cc-xnet50.traps.paloaltonetworks.com**
- F. xnettraps.paloaltonetworks.com

Answer: C,D,E

NEW QUESTION # 164

When initiated, which Cortex XDR capability allows immediate termination of the process-or entire process tree-on an anomalous process discovered during investigation of a security event?

- A. Live sensors
- B. Log stitching
- C. Log forwarding
- **D. Live terminal**

Answer: D

Explanation:

The Live terminal capability in Cortex XDR allows the immediate termination of an anomalous process or the entire process tree during the investigation of a security event. This feature helps analysts take swift action to stop potentially malicious activity on the endpoint in real-time.

NEW QUESTION # 165

.....

With the arrival of experience economy and consumption, the experience marketing is well received in the market. If you are fully attracted by our PSE-Cortex-Pro-24 training practice and plan to have a try before purchasing, we have free trials to help you understand our products better before you completely accept our PSE-Cortex-Pro-24 study dumps. As long as you submit your email address and apply for our free trials, we will soon send the free demo of the PSE-Cortex-Pro-24 training practice to your mailbox. If you are uncertain which one suit you best, you can ask for different kinds free trials of PSE-Cortex-Pro-24 latest exam guide in the meantime. After deliberate consideration, you can pick one kind of study materials from our websites and prepare the exam.
