OMG OMG-OCEB2-FUND100 考試大綱：

主題	簡介
主題 1	Business Process Concepts and Fundamentals: This section of the exam measures the skills of Business Analysts and introduces essential process fundamentals such as identifying and discovering processes, understanding process characteristics, comparing As-Is and To-Be states, and recognizing different levels of modeling. It also explains how processes connect to broader organizational goals and objectives.
主題 2	Business Process Management Concepts and Fundamentals: This section of the exam measures the skills of BPM Practitioners and explains how organizations shift between functional and process-centric approaches. It introduces process management styles, recent developments in BPM, key stakeholder roles, and tools that support enterprise-wide process management.

主題 3	• Process Quality, Governance, and Metrics Frameworks: This section of the exam measures the skills of Process Improvement Specialists and covers major industry frameworks that ensure consistency and performance in process management. It includes APQC's Process Classification Framework, SCOR, Value Chain Reference Model, BPMN, Six Sigma, Balanced Scorecard, COBIT, Basel II, and Sarbanes-Oxley. The focus is on recognizing how these models support process governance, maturity, and measurement.
主題 4	• Business Process Modeling Skills: This section of the exam measures the skills of Process Designers and evaluates applied BPMN 2.0.2 knowledge through short scenarios and diagrams. Candidates interpret and model processes using all elements in the descriptive and analytic subclasses, demonstrating how BPMN concepts are used practically in real business situations. Attributes remain out of scope, keeping the emphasis on modeling logic.
主題 5	• Business Goals, Objectives: This section of the exam measures the skills of Business Strategists and covers fundamental business planning elements, including goal-setting, strategy development, project management basics, marketing considerations, staffing, and financial factors. It provides the business context needed to align processes with organizational direction.
主題 6	• Business Process Modeling Concepts: This section of the exam measures the skills of Business Process Modelers and covers foundational BPMN 2.0.2 concepts, including basic notation, descriptive and analytic modeling elements, activities, and grouping components. The focus is on understanding how BPMN shapes clear process diagrams without requiring in-depth knowledge of element attributes.
