## Oracle Fusion Cloud Procurement 2025 Implementation Professional Sample Questions (Q73-Q78):

### NEW QUESTION # 73

When creating OTBI reports for supplier eligibility, in which subject area do you find Supplier Eligibility attributes? (Double check answer)

- A. Supplier Profile
- **B. Supplier Qualification**
- C. Supplier Registration
- D. Supplier
- E. Supplier Portal

**Answer: B**

#### NEW QUESTION # 74

Your client wants to be able to automate the process to ask employees to evaluate their suppliers periodically and enable a touchless process to track supplier performance over time.

Which feature do they need to opt in to?

- A. Sourcing Programs
- **B. Conduct Internal Surveys for Supplier Qualification**
- C. Assess Supplier Eligibility for Sourcing
- D. Full Supplier Profile Change Management

**Answer: B**

Explanation:

The feature that enables the automation of supplier evaluation by employees is Conduct Internal Surveys for Supplier Qualification. This feature allows you to create and publish internal surveys to collect feedback from employees who have interacted with suppliers. You can use predefined or custom questions, assign survey respondents, and schedule survey frequency. The survey responses are automatically captured and aggregated in the supplier qualification work area, where you can view the supplier performance scores and trends over time. This feature helps you to monitor and improve supplier performance, as well as identify potential risks and opportunities.

#### NEW QUESTION # 75

You have the following business requirements when creating an implementation project:

You want to see the list of offerings and functional areas that are configured for the project.

You want to identify at which stage all offerings and functional areas are.

Which two fulfill these requirements?

- **A. Select the Enable check box to specify the options.**
- **B. After creating the implementation project, set the status of tasks to In Progress or Implemented.**
- C. Although the offering configuration can be changed at any time, the changes will influence any existing implementation task lists.
- D. You need the IT Security role to fulfill these requirements.
- E. Change Provisioned to "No" to specify the offering that you want to select while creating an implementation project.

**Answer: A,B**

Explanation:

When you create an implementation project, you can select the offerings and functional areas that you want to implement by selecting the Enable check box for each option. This will generate a list of setup tasks for the selected options. You can also see the status of each offering and functional area, such as Provisioned, Enabled, or Not Enabled. After creating the implementation project, you can update the status of each task to indicate the progress of the implementation. You can set the status to In Progress, Implemented, or Not Applicable. This will help you to identify the stage of each offering and functional area in the implementation project.
