

# CCSFP Authorized Certification | Amazing Pass Rate For CCSFP: Certified CSF Practitioner 2025 Exam | New CCSFP Exam Pattern

BONUS!!! Download part of Lead2Passed CCSFP dumps for free: <https://drive.google.com/open?id=1BFPSCHS6zLuPPDSFfH-GwDKprVh9Krvv>

Nowadays in this talented society CCSFP professionals are very popular, but the IHITRUST area are also very competitive. So many HITRUST professionals through passing difficult CCSFP Certification exams to stabilize themselves. Lead2Passed is websites specifically provide convenience for candidates participating in the CCSFP certification exams.

## HITRUST CCSFP Exam Syllabus Topics:

| Topic | Details |
|-------|---------|
|       |         |

|         |  |
|---------|--|
| Topic 1 | <ul style="list-style-type: none"> <li>• Introduction to the HITRUST Framework (HITRUST CSF) and assessment types: This section of the exam measures skills of Compliance Analysts and covers the fundamentals of the HITRUST CSF, its role as a certifiable framework, and the different assessment types that organizations may use. It ensures that candidates understand how the framework standardizes compliance and risk management processes.</li> </ul> |
| Topic 2 | <ul style="list-style-type: none"> <li>• Considerations for scoping an assessment: This section of the exam measures skills of Information Security Managers and explains how to properly define the scope of an assessment. Candidates learn how organizational size, systems, and regulatory requirements affect the scoping process, ensuring the assessment is accurate and relevant to business needs.</li> </ul>   |
| Topic 3 | <ul style="list-style-type: none"> <li>• HITRUST quality assurance expectations: This section of the exam measures skills of Compliance Analysts and covers the quality standards required by HITRUST. It highlights expectations for accuracy, consistency, and documentation to ensure assessments meet HITRUST's assurance and reliability standards.</li> </ul>  |

## Perfect CCSFP Authorized Certification & Excellent HITRUST Certification Training - Excellent HITRUST Certified CSF Practitioner 2025 Exam

If you want to make one thing perfect and professional, then the first step is that you have to find the people who are good at them. In this CCSFP exam braindumps field, our experts are the core value and truly helpful with the greatest skills. So our CCSFP practice materials are perfect paragon in this industry full of elucidating content for exam candidates of various degrees to use for reference. Just come to buy our CCSFP study guide!

### HITRUST Certified CSF Practitioner 2025 Exam Sample Questions (Q43-Q48):

#### NEW QUESTION # 43

An organization can have multiple assessment objects. [0090]

- A. False
- B. True

**Answer: B**

Explanation:

In the HITRUST MyCSF environment, organizations may define multiple assessment objects. An assessment object refers to the specific environment, business unit, or system being evaluated under a HITRUST assessment. This allows organizations with diverse operations or multiple systems to scope and manage assessments separately, ensuring accurate applicability of requirement statements.

Extract Reference (CCSFP Study Guide & HITRUST CSF Guidance, [0090]):

Organizations may establish multiple assessment objects in MyCSF to represent different systems, applications, or environments subject to CSF assessment.

Thus, the correct response is True

#### NEW QUESTION # 44

How large would the sample size be for a manual control with a population of 56 unique items?

- A. 0
- B. 1
- C. 2
- D. 3
- E. 4

**Answer: C**

Explanation:

HITRUST provides sampling guidance in the CSF Assessment Methodology and scoring rubric for manual controls. Sample sizes are determined by the population of items and the control's frequency. For a population of 56 items, the expected sample size is 8, following HITRUST's defined sampling table. This approach is based on statistical sampling principles but simplified for consistent assessor use. The sample must be randomly selected and representative of the entire population to avoid bias. Larger populations require larger sample sizes, but at certain thresholds, the increase is incremental. For example, a population between 26-100 items requires a sample size of 8. This ensures sufficient testing coverage without requiring a full census.

Therefore, the correct sample size for 56 items is 8.

#### **NEW QUESTION # 45**

An organization has identified a number of components needed for an assessment. These components cover systems/applications for customers in the states of Massachusetts and Nevada. Assuming management wants corresponding regulatory factors to be included in their assessment, which regulatory factors would apply?

(Select all that apply)

- **A. State of Nevada Security of Personal Information Requirements**
- B. CMS Minimum Security Requirements (High)
- C. Texas Health and Safety Code
- D. Subject to De-ID Requirements
- **E. State of Massachusetts Data Protection Act**

**Answer: A,E**

Explanation:

When performing HITRUST scoping, organizations must include regulatory factors relevant to their operational and geographic context. Since this entity operates in Massachusetts and Nevada, two state-specific privacy and security laws apply:

\* Massachusetts Data Protection Act (201 CMR 17.00): Requires businesses handling personal data of Massachusetts residents to maintain a written information security program (WISP), including encryption and monitoring controls.

\* Nevada Security of Personal Information Law (NRS 603A): Mandates encryption for personal information stored or transmitted electronically and requires reasonable security measures.

The CMS Minimum Security Requirements (High) (B) would apply only if the entity processes Medicare/Medicaid-related data. The Texas Health and Safety Code (D) applies only to Texas-based covered entities.

Subject to De-ID Requirements (E) is a general data-handling condition, not a state-specific regulatory factor.

Therefore, only Massachusetts Data Protection Act and Nevada Security of Personal Information Requirements apply in this scenario.

#### **NEW QUESTION # 46**

On an r2 assessment, HITRUST requires evidence to be linked to all maturity levels that score above 25% for Policy and Procedure, and over 0% for Implementation, Measured, and Managed.

- A. False
- **B. True**

**Answer: B**

Explanation:

HITRUST enforces strict evidence requirements to maintain credibility of assessment results. For Policy and Procedure maturity levels, if a score above 25% is claimed, the organization must link appropriate evidence (e.g., documented policies, standard operating procedures). For Implementation, Measured, and Managed, evidence must be provided whenever a score greater than 0% is claimed. This ensures that claims are supported by objective artifacts rather than assertions. Evidence can include policy documents, monitoring reports, logs, meeting minutes, or audit records. HITRUST QA verifies that evidence is linked to requirement statements at each maturity level. Without linked evidence, scores may be reduced or reverted during QA.

This policy ensures transparency, accountability, and prevents overstatement of control effectiveness.
