UiPath-SAIAv1 Test Simulator Online - New UiPath-SAIAv1 Exam Test

Our UiPath-SAIAv1 preparation materials are global products that have been tested by users worldwide. You can be absolutely assured about the quality of our UiPath-SAIAv1 training quiz. And you can just take a look at the hot hit about our UiPath-SAIAv1 Exam Questions, you will know how popular and famous they are. And the pass rate of our UiPath-SAIAv1 learning braindumps is high as 98% to 100%, this data is also proved that our excellent quality.

Once you decide to pass the UiPath Specialized AI Associate Exam (2023.10) exam and get the certification, you may encounter many handicaps that you don't know how to deal with, so, you may think that it is difficult to pass the exam and get the certification. In order to help you solve these problem and help you pass the exam easy, we complied such a UiPath-SAIAv1 exam torrent. We can promise that you will have no regret buying our UiPath Specialized AI Associate Exam (2023.10) exam dumps. If you are hesitating to buy our UiPath-SAIAv1 Test Quiz, if you are anxious about whether our product is suitable for you or not, we think you can download the trail version. We believe our UiPath Specialized AI Associate Exam (2023.10) exam dumps will help you make progress and improve yourself.

2026 UiPath-SAIAv1 Test Simulator Online | Professional 100% Free New UiPath-SAIAv1 Exam Test

The ActualTestsQuiz is a trusted and leading platform that is committed to making the entire UiPath UiPath-SAIAv1 exam preparation process simple, smart, and quick. To achieve this objective ActualTestsQuiz is offering real, valid, and updated UiPath UiPath-SAIAv1 Exam Questions. These UiPath UiPath-SAIAv1 exam dumps are the real UiPath-SAIAv1 exam questions that surely will repeat in the upcoming UiPath-SAIAv1 exam and you can pass the challenging exam.

UiPath Specialized AI Associate Exam (2023.10) Sample Questions (Q142-Q147):

NEW QUESTION # 142

Which activity can be used to convert the default taxonomy.json file into a variable for further use?

- A. UiPath.IntelligentOCR.Activities.TaxonomyManagement.LoadTaxonomyFile
- B. UiPath.IntelligentOCR.Activities.TaxonomyManagement.LoadFileTaxonomy
- C. UiPath.IntelligentOCR.Activities.TaxonomyManagement.LoadTaxonomy
- D. UiPath.IntelligentOCR.Activities.TaxonomyManagement.LoadFile

Answer: A

Explanation:
Reference: UiPath IntelligentOCR Activities - LoadTaxonomyFile

NEW QUESTION # 143

What is the definition of a UiPath Communications Mining data source?

- A. A collection of raw unlabeled communications data of a similar type, that can be associated with up to 10 datasets.
- B. A permissioned storage area within the platform which contains communications and labels.
- C. A user-permissioned project containing a taxonomy with labels and entities.
- D. The model that we create when training the platform to understand the data in those sources.

Answer: A

Explanation:
According to the UiPath documentation, a data source is a raw collection of verbatims, which are text-based communications such as survey responses, emails, transcripts, or calls1. A data source can be of a similar type and share a similar intended purpose, such as capturing customer feedback or servicing requests2. A data source can be added to up to 10 different datasets, which are collections of sources and labels that are used to train and evaluate ML models3. Therefore, the correct definition of a UiPath Communications Mining data source is A.
References:
1: Communications Mining - Sources 2: Communications Mining - Managing Sources and Datasets 3: Communications Mining - Understanding the data structure and permissions

NEW QUESTION # 144

What is the order of steps for automatically retraining and deploying a Document Understanding ML Model in Al Center with data from Document Validation Action?
Instructions: Drag the steps found on the "Left" and drop them on the "Right" in the correct order.

Answer:
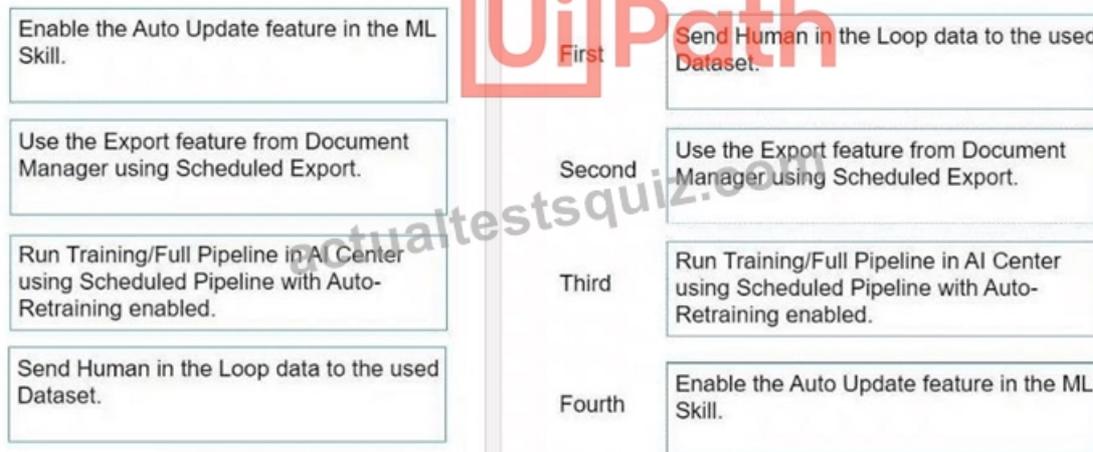

Explanation:

Explanation:

A screenshot of a computer AI-generated content may be incorrect.

To automatically retrain and deploy a Document Understanding Machine Learning (ML) Model in AI Center with data from the Document Validation Action, the steps should be followed in this order:

Send Human in the Loop data to the used Dataset.

This step involves sending the data that has been validated and corrected by human reviewers to the dataset.

This data will be used for training the ML model.

Use the Export feature from Document Manager using Scheduled Export.

After the data is reviewed and validated, it needs to be exported from the Document Manager. Scheduled Export automates this process, ensuring the dataset in AI Center is regularly updated with new data.

Run Training/Full Pipeline in AI Center using Scheduled Pipeline with Auto-Retraining enabled.

With the updated data in the dataset, the next step is to run the training or the full pipeline. The use of Scheduled Pipeline with Auto-Retraining ensures that the ML model is automatically retrained with the latest data.

Enable the Auto Update feature in the ML Skill.

Finally, enabling the Auto Update feature in the ML Skill ensures that the newly trained model is automatically deployed, making the improved model available for document understanding tasks.

Following these steps in the specified order allows for a streamlined process of continuously improving the ML model based on human-validated data, ensuring better accuracy and efficiency in document understanding tasks over time.

NEW QUESTION # 145
Where should a model be pinned in UiPath Communications Mining?

- A. In Admin > Models.
- B. In the validation page.
- C. On the models tab.
- D. When setting up a stream.

Answer: C

Explanation:
According to UiPath documentation, model versions can be pinned and managed on the "models" tab, ensuring that users can

maintain and revert to specific versions when necessary for continuity and performance

NEW QUESTION # 146
What is a function of unattended robots?

- **A. Unattended robots can run independently without human interaction.**
- B. Unattended robots can only work if they are not connected to Orchestrator.
- C. Unattended robots must be triggered manually.
- D. Unattended robots only run on a workstation operated by a human.

Answer: A

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
Unattended robotsare designed to run in the background without human supervision. They can:
* Be triggered via Orchestrator (manually, on a schedule, or via a queue)
* Run on virtual machines or remote servers
* Handle end-to-end automation tasks autonomously
These robots are ideal forback-office processesand scalable enterprise deployments.
* UiPath Documentation Reference:Unattended Robots - UiPath Docs

NEW QUESTION # 147
......

Our UiPath-SAIAv1 real exam has three packages, which meets your different demands. They are PDF version, online test engine and windows software of the UiPath-SAIAv1 learning guide. The contents are all identical. But the displays are totally different and you may choose the right one according to your interest and hobbies. Every version of our UiPath-SAIAv1 Real Exam is worthy and affordable for you to purchase. Let us fight for our bright future. You are bound to win if you are persistent.
