In addition, the buying process of our PK0-005 exam prep is very convenient and significant. You will receive the email from our company in 5 to 10 minutes after you pay successfully; you just need to click on the link and log in, then you can start to use our PK0-005 study torrent for studying. Immediate download after pay successfully is a main virtue of our CompTIA Project+ Certification Exam test torrent. At the same time, you will have the chance to enjoy the 24-hours online service if you purchase our products, so we can make sure that we will provide you with an attentive service.

CompTIA Project+ Certification Exam Sample Questions (Q299-Q304):

NEW QUESTION # 299

Which of the following BEST describes how an organization should coordinate management of multiple related projects?

- A. Establish a program.
- B. Apply the SDLC process.
- C. Consult the CCB.
- D. Use different frameworks

Answer: A

Explanation:

The BEST way to coordinate management of multiple related projects is to establish a program. A program is a group of related projects that are managed together to achieve specific strategic business objectives.

References: CompTIA Project+ Study Guide Section 2.2.1

The organization should establish a program to coordinate management of multiple related projects. A program is a group of related projects, subprograms, and program activities that are managed in a coordinated way to obtain benefits and control not available from managing them individually. A program can help to align multiple projects with strategic goals, optimize resources and risks, and deliver value to stakeholders.

NEW QUESTION # 300

Which of the following aspects are true of agile as compared to waterfall? (Select two).

- A. Agile works through larger integrated teams.
- B. Agile is comprised of well-defined phases.
- C. Agile is more flexible to allow for changes in scope.
- D. Agile promotes project manager ownership over deliverables.
- E. Agile reinforces the importance of comprehensive documentation.
- F. Agile has more customer involvement throughout development.

Answer: C,F

Explanation:

Agile is a project management methodology that emphasizes customer collaboration, feedback, and adaptation throughout the project life cycle. Agile teams work in short iterations, called sprints, and deliver working increments of the product or service to the customer for review and approval. Agile teams can also respond to changing requirements and priorities by adjusting the scope, schedule, or quality of the project¹². Waterfall, on the other hand, is a project management methodology that follows a linear and sequential process, where each phase of the project must be completed before moving on to the next one. Waterfall teams work with a fixed scope, schedule, and quality, and deliver the final product or service to the customer at the end of the project. Waterfall teams have less customer involvement and flexibility during the project development³⁴.

NEW QUESTION # 301

A project manager makes a company-wide announcement about the successful completion of a project and thanks team members. Which of the following is the project manager doing?

- A. Celebrating the team's hard work
- B. Collecting feedback
- C. Sharing lessons learned

- D. Bringing attention to the project sponsor

Answer: A

Explanation:

A project manager who makes a company-wide announcement about the successful completion of a project and thanks team members is doing the following:

Celebrating the team's hard work: This is the correct answer, as the project manager is acknowledging the efforts and contributions of the team members and showing appreciation and recognition for their performance¹².

Bringing attention to the project sponsor: This is not the correct answer, as the project manager is not highlighting the role or involvement of the project sponsor, who is the person who provides the resources and authority for the project.

Sharing lessons learned: This is not the correct answer, as the project manager is not discussing the successes, challenges, or best practices of the project, which are part of the lessons learned process.

Collecting feedback: This is not the correct answer, as the project manager is not soliciting any input or opinions from the team members or other stakeholders, which are part of the feedback process.

NEW QUESTION # 302

A PM has identified all the resources involved in a project. The next step is to identify which resources are responsible for which tasks. Which of the following should be used to document this information?

- A. WBS
- **B. RACI**
- C. RFI
- D. SOW

Answer: B

Explanation:

Explanation

The RACI (Responsible, Accountable, Consulted, Informed) matrix is used to document which resources are responsible for which tasks. The RACI matrix is a tool that helps to clarify roles and responsibilities on a project. It assigns a level of responsibility to each resource involved in the project. References: CompTIA Project+ Study Guide Section 3.4.

The project manager should use a RACI matrix to document which resources are responsible for which tasks.

A RACI matrix is a type of responsibility assignment matrix (RAM) that plots the roles and responsibilities of resources on a project team. RACI stands for Responsible, Accountable, Consulted, and Informed. A RACI matrix can help to clarify who does what on a project, avoid confusion and duplication of work, and improve communication and collaboration among team members.

NEW QUESTION # 303

A project manager is eager to define access requirements during the initiation phase of a project. Which of the following steps should the project manager perform first?

- A. Define the WBS.
- **B. Assess the resource pool.**
- C. Manage the vendors.
- D. Develop a RAM.

Answer: B

Explanation:

This answer is based on the best practice of defining access requirements in project management, which is to identify the roles, responsibilities, and permissions of the project team members and other stakeholders who need to access the project information, resources, and deliverables¹². The first step in this process is to assess the resource pool, which is the availability and capability of the human resources that can be assigned to the project³⁴. By assessing the resource pool, the project manager can determine the skills, experience, and security clearance of the potential project team members, as well as their reporting relationships, communication preferences, and expectations⁵⁶. This information can help the project manager to define the access requirements for each role and stakeholder group, and to assign the appropriate level of access to the
