Tableau Desktop Specialist Exam Sample Questions (Q106-Q111):

NEW QUESTION # 106
You want to add Custom shapes to your visualisation. Where can you add these new shapes?

- A. In My Documents -> My Tableau Repository -> Shapes
- B. In My Computer -> C: -> Tableau -> Shapes
- C. In Program Files -> Tableau -> Shapes
- D. In Downloads -> My Tableau Repository -> Shapes

Answer: A

Explanation:
Explanation
Here's how to add image files to your repository:
1) Find image file on the internet. I try to find consistent image formats if I plan to use a set of shapes such as logos or flags.
2) Download the image to your computer.
3) Drag images into your My Documents -> My Tableau repository -> Shapes folder.
4) Open Tableau and your new shapes will automatically be included in your "edit shapes" menu.

NEW QUESTION # 107
You create the following visualization.

What is the first step to create the visual grouping of the 10 marks shown in blue?

- A. Select the desired 10 marks in the view.
- B. Select the desired 10 text labels under Property Description.
- C. Create a Group on the Property Description field in the Data pane.
- D. Create a Set on the Neighborhood field in the Data pane.

Answer: A

Explanation:
To visually group marks in Tableau, you typically start by selecting the marks directly in the view. Once the desired marks are selected, you can then create a group from them. This will visually group the selected marks, as indicated by the blue color in the example provided.

NEW QUESTION # 108
We can use _____ as a static tool to open and interact with packaged workbooks with extracted data sources that have been created in Tableau Desktop.

- A. Tableau Reader
- B. Tableau Server
- C. Tableau Desktop
- D. Tableau Online

Answer: A

Explanation:
The word 'static tool' gives it away.
According to the official website :

NEW QUESTION # 109

With the Marks card drop-down menu set to Automatic, a line chart will be created whenever you place what on the Rows shelf and the Columns shelf?

- A. Zero or more measures on one shelf, and 2 or more dimensions on the other
- B. Zero or more dimensions on one shelf, and 2 or more measures on the other
- C. Measures on one shelf, and a date dimension on the other
- D. A date dimension followed by a continuous measure on one shelf

Answer: C

Explanation:
According to the Tableau Desktop Specialist Exam Readiness, a line chart will be created whenever you place measures on one shelf, and a date dimension on the other. This is because Tableau automatically recognizes date fields and treats them as continuous dimensions.

NEW QUESTION # 110

What are two examples of a date value?
Choose two.

- A. 2020-05-01
- B. January 1.1995
- C. Wednesday
- D. December

Answer: A,B

Explanation:
Date values in Tableau represent specific points in time and are typically formatted in a standard date format.

Option A, "2020-05-01", is a standard date format representing the 1st of May, 2020.
Option D, "January 1, 1995", is another example of a date value, representing the 1st of January, 1995.
Options B ("December") and C ("Wednesday") represent a month and a day of the week, respectively, but do not specify a particular date.

NEW QUESTION # 111
......
