can be easily printed and studied at any time. The PDF file contains the latest real PRINCE2 Practitioner Exam (PRINCE2-Practitioner) questions, and PRINCE2-Practitioner ensures that the file is regularly updated to keep up with any changes in the exam's content.

PRINCE2 Practitioner Exam Sample Questions (Q181-Q186):

NEW QUESTION # 181

Project Scenario - Health and Safety Training Project:

ABC Company is a well-established training company that uses a standard model to develop training materials and deliver courses to customers.

ABC Company has commissioned a project in response to recent changes in government legislation relating to health and safety on construction sites. The project will deliver "capability to provide health and safety training", including the materials needed for classroom-based training and e-learning. The expected benefits for construction companies include a reduction in lost days and legal costs due to accidents.

The e-learning course will be developed by a specialist external consultancy. The materials for classroom-based training will be delivered by ABC Company's development team. All course materials will be piloted before they are used. ABC Company will deliver training to its customers and also hopes to sell the course materials to other training companies as part of their operational business. ABC Company will use their own sales and marketing departments to promote the courses.

The legislation requires construction companies to comply with the new legislation within two years. The course materials and trainers have to be accredited by a government agency before courses can be delivered.

ABC Company is planning to deliver pilot courses within five months of starting the project.

The ABC Company standard development model for new courses recommends the following stages:

□ End of the Project scenario.

Additional Information:

The Chief Executive Officer (CEO) founded the company five years ago. Under her leadership, ABC Company has grown quickly into a successful training company. It delivers a range of accredited professional training.

The Finance Director is also a founder member of ABC Company and is responsible for authorizing budgets for the Operations and Development Teams. She authorizes all large contracts personally.

The Purchasing Manager reports to the Finance Director and is responsible for managing and monitoring supplier contracts.

The Operations Director is responsible for the delivery of all training and for the training development budget. His department organizes courses, venues and trainers. They work with the Product and the Sales teams to provide a comprehensive training schedule. ABC Company's IT manager reports to the Operations Director.

The Business Development Director has recently been appointed to identify new training needs and propose new products. She will work with the Operations Director to ensure a cost-conscious approach and that appropriate development technologies are used for the health and safety course.

The Training Development Manager reports to the Business Development Director and is responsible for developing training materials and gaining accreditation, in accordance with the standard course development model. Course developers in his team have skills in a range of development technologies and are allocated to projects as needed.

The Training Delivery Manager, who reports to the Operations Director, is responsible for ensuring that internal and external trainers deliver ABC Company training courses to the required standard. He also checks course materials to ensure they are fit for purpose and of the required quality.

The Central Services Director has responsibility for corporate communications, facilities management and configuration management. He recently led a project to consolidate all company quality systems into one quality management system and set up a corporate quality department, now managed by the Corporate Quality Manager.

The Corporate Document Manager reports to the Central Services Director. She helped establish the company's document management system and now operates it across the business. She manages a team of administrators and contracts staff when workload is high.

The Sales Director joined ABC Company two months ago and is keen to establish himself by suggesting new markets for the courses and material. All account managers and the marketing team report to him. They promote existing training courses to other training companies and existing customers.

End of the additional information.

The Health and Safety Training Project is closing as planned. According to the contract terms, suppliers must submit all invoices within one week of project closure. The project manager will issue a project closure notification informing all suppliers of this invoicing deadline as part of the 'recommended project closure' activity.

Is this appropriate, and why?

- A. No, because the project manager should notify stakeholders using the approved project closure notification.
- B. No, because the project board should issue a project closure notification as part of the 'directing a project' process.
- C. Yes, because the project board should approve the project closure notification drafted by the project manager.
- **D. Yes, because a project closure notification should be sent to suppliers as part of the 'closing project' process.**

Answer: D

NEW QUESTION # 182

Scenario

Additional Information

Further information on some resources who could be involved in the project:

Outcome Account Manager: He represents Outcome which is a recruitment agency that provides specialist outsourcing resources. Outcome provided the consultants who carried out the feasibility study and the same consultants will be providing support and guidance to the Information Technology and Facilities teams during the project.

Director of Finance Division: She was transferred from the Information Technology Division 12 months ago.

She is responsible for ensuring a cost-conscious approach is adopted in all operational and project activities across the Ministry of Food Hygiene.

Hardware Manager: Reports to the Director of Information Technology. He provides computer hardware to all business functions but has little awareness of the needs of his colleagues working in software.

Payroll Manager: Reports to the Director of Finance. He is a very experienced and efficient qualified accountant who has much of the responsibility of running the Finance Division on behalf of the Director of Finance. He has been involved in drafting the Ministry's business strategy and assisting in a full business risk assessment. He also drafted the corporate Business Case standards.

Which 2 alternative actions apply to the proposed supplier assurance for this project?

- A. Retain because he will be able to advise on many of the products that will enable outsourcing to happen, such as the 10-year outsourcing service contract.
- B. Retain because he is well-regarded within the Ministry because of the efficiencies, superb service and savings he has achieved in the Facilities Division.
- C. Remove because he is involved with the project and is therefore NOT independent.
- D. Add 'Outcome Account Manager' because he will advise on potential changes and their impact on the integrity of the project's products.
- E. Retain because he has a professional facilities qualification and so is in a position to specify the needs of his division.

Answer: A,D

NEW QUESTION # 183

The project is now in stage 2. The Project Manager has heard about the possibility of a competitor also producing a calendar to be delivered earlier than the target date for this project. There is a threat that the early release of a competitor's calendar may weaken the impact of the MNO Manufacturing Company calendar, thereby reducing the anticipated benefits of the Calendar project.

Which 2 statements should be recorded under the Proximity heading?

- A. Proximity categories for this project are: Imminent; Within the stage; Within the project; Beyond the project.
- B. The risk of staff leaving the organization will be categorized as beyond the project proximity.
- C. Any risk with a proximity category of imminent will be estimated as having a very high impact.
- D. Imminent risks are those which may occur within two weeks.
- E. The risk of MFH having no outsourcing experience will be categorized as Stage 4 proximity.

Answer: C,D

NEW QUESTION # 184

The Calendar project was delivered as originally planned, and is now preparing for planned closure.

Lines 1 to 6 in the table below consist of an assertion statement and a reason statement. For each line identify the appropriate option, from options A to E, that applies. Each option can be used once, more than once or not at all.

Answer:

Explanation:

Explanation:

NEW QUESTION # 185

During stage 3, the operational staff that handle course bookings asked for the project scope to be increased for an online booking function. The additional product has been as it will enable them to process bookings more quickly and accurately. Is this an appropriate application of the 'focus on products' principle, and why?

- A. Yes, because the project needs to fulfill stakeholder expectations by delivering the products required.
- B. No, because there needs to be an understanding of the products from the start of the project.
- C. Yes, because the goal is to seek opportunities to implement improvements after the life of the project.
- D. No, because existing product descriptions provide a means to estimate effort to planning.

Answer: A

Explanation:

Explanation/Reference:

Testlet 1

Scenario

Additional Information

During the initiation stage the Project Manager met with the Marketing Director to find out more about the requirements of the promotional calendar and recorded the following notes:

There has been a reduction in the order numbers at the MNO Manufacturing due in part to the increased marketing activities of its competitors. 10% of customers have not re-ordered in this financial year and staff morale is poor. A number of skilled staff have left as a result and replacement staff have not been recruited due to the reduced operation. If the project is successful, a recruitment campaign will be required to fill the existing staff vacancies and there may be a requirement for additional staff. Operational costs are likely to increase because skilled staff are expensive and difficult to find.

In financial terms, there were a total of 1,500 orders in the last financial year, each with an average profit of £2k. The Marketing department believes that sending a promotional calendar to our current and prospective customers would increase orders by at least 10% with a minimum of 10 further orders from the list of prospective customers within 12 months from the date of distribution.

The Marketing Director will be funding the project from the business marketing budget. She believes that the effect of a good company image portrayed by a successful calendar would last into a second year. She has forecast the same increase in orders for a second year and predicts that the annual employee satisfaction survey will show a measurable improvement in staff morale.

A number of alternatives were explored, including:

20% discount for all repeat customers - not cost-effective and very short term

□ A promotional calendar as a free Christmas gift - would target current and prospective customers and

the benefits would last into a second year

A series of television and press advertisements was too expensive

□ A direct mail shot to all customers - benefit would be short term

□ Creation of an internet website - would not suit all customers

□ The calendar is seen as the favored option, as long as the company's competitors do not increase their marketing activity. Whilst the Marketing department wants a very high quality, glossy product, the project management team must be aware of the cost this will incur.

Using the Project Scenario and the additional Information provided for this question In the Scenario Booklet, answer the following question.

NEW QUESTION # 186

.....

Are you satisfied with your present job? Are you satisfied with what you are doing? Do you want to improve yourself? To master some useful skills is helpful to you. Now that you choose to work in the IT industry, you must register IT certification test and get the IT certificate which will help you to upgrade yourself.
