## CDT Practice Test 2024 with Complete Solutions

D0150 - ANSWER-Comprehensive Exam  
D0210 - ANSWER-Full Mouth Series  
D1120 - ANSWER-Child Prophylaxis  
D0220 - ANSWER-Periapical X-ray  
D0230 - ANSWER-Additional PA  
D0272 - ANSWER-2 BWX  
D1351 - ANSWER-Sealant  
D0120 - ANSWER-Periodic Exam  
D0330 - ANSWER-Panoramic X-ray  
D1110 - ANSWER-Adult prophylaxis  
D0140 - ANSWER-Limited Exam  
D1208 - ANSWER-Topical application of fluoride  
D0274 - ANSWER-4 bitewings  
D4342 - ANSWER-periodontal scaling and root planing - one to three teeth per quadrant  
D4341 - ANSWER-periodontal scaling and root planing - four or more teeth per quadrant  
D4355 - ANSWER-Full mouth debridement  
D4910 - ANSWER-Periodontal Maintenance  
D7140 - ANSWER-Simple extraction  
D5110 - ANSWER-complete denture - maxillary

## Valid Test CDT Bootcamp & CDT Valid Study Materials

During nearly ten years, our CDT exam questions have met with warm reception and quick sale in the international market. Our CDT study materials are not only as reasonable priced as other makers, but also they are distinctly superior in the many respects. With tens of thousands of our loyal customers supporting us all the way, we believe we will do a better job in this career. More and more candidates will be benefited from our excellent CDT training guide!

# Construction Specifications Institute Construction Documents Technologist Sample Questions (Q48-Q53):

## NEW QUESTION # 48

Which of these is NOT a graphical format used to establish order and organization of construction drawings?

- A. United States National CAD Standard
- **B. MasterFormat**
- C. American Institute of Architects (AIA) CAD Layer Guidelines
- D. Construction Specifications Institute (CSI) Uniform Drawing System

**Answer: B**

## NEW QUESTION # 49

What is the primary purpose of MasterFormat?

- A. To organize cost estimates by major project element
- **B. To provide a uniform system for the organization of information in project manuals**
- C. To establish an order of information within specification sections
- D. To create a master list of Level 3 and Level 4 section titles

**Answer: B**

## NEW QUESTION # 50

What is the compositional format for standardizing the presentation of specification information on a printed page in a way that is meant to be easy to read and quick to navigate?

- **A. PageFormat**
- B. PPDFFormat
- C. SectionFormat
- D. UniFormat

**Answer: A**

Explanation:

Comprehensive and Detailed Explanation (CSI-aligned, paraphrased)

CSI has several coordinated formats, each with a specific purpose:

\* UniFormat - organizes information by building systems and assemblies (e.g., substructure, superstructure, interiors), used for early design and cost models.

\* PPDFFormat (Preliminary Project Description Format) - organizes preliminary descriptions of the project using a system-based structure for early-phase documentation.

\* SectionFormat - organizes the content of each specification section into three parts: Part 1 - General, Part 2 - Products, Part 3 - Execution.

\* PageFormat - defines the layout and composition of information on the printed page of specifications, including margins, headers/footers, article arrangement, and typography conventions so that the document is easy to read and navigate quickly.

The question specifically asks for:

"the compositional format for standardizing the presentation of specification information on a printed page... easy to read and quick to navigate."

That is exactly what PageFormat is for, so the correct answer is:

\* C. PageFormat

Why the others are incorrect in this context:

\* A. UniFormat - classification system for systems / assemblies; it does not prescribe how the text is positioned on a printed page.

\* B. PPDFFormat - used for structuring preliminary project descriptions, not for page layout.

\* D. SectionFormat - structures the logical content within a spec section (Part 1-3), but does not itself define margins, columns, headers, or the graphic layout of the printed page-that's PageFormat's role.

Key CSI-Related References (titles only):

\* CSI Construction Specifications Practice Guide - chapters on SectionFormat and PageFormat.

\* CSI MasterFormat / UniFormat / PPDFFormat publications - introductions describing each standard's purpose.

\* CSI CDT Study Materials - overview of CSI formats and how they interact.

### NEW QUESTION # 51

Which team member is actively involved and interested in all phases of the project?

- A. Owners
- B. Manufacturers/suppliers
- C. Architects/engineers
- D. Contractors

**Answer: C**

### NEW QUESTION # 52

Lump sum, unit price, and cost-plus-fee are examples of what?

- A. Cost estimate
- B. Delivery method
- C. Basis of payment
- D. Bonding system

**Answer: C**

Explanation:

CSI distinguishes between project delivery methods (e.g., Design-Bid-Build, Construction Management at Risk, Design-Build) and methods of compensation / basis of payment for the construction contract.

Lump sum, unit price, and cost-plus-fee are classic examples of basis of payment (sometimes called pricing or compensation methods):

\* Lump sum - A single fixed price for the entire work, based on the contract documents.

\* Unit price - Payment based on measured quantities of work items at agreed unit rates.

\* Cost-plus-fee - The owner reimburses actual costs of the work plus a fee (which may be fixed or a percentage).

These are not delivery methods or bonding systems; they describe how the contractor is paid under the construction contract, so Option C is correct.

Why the others are incorrect:

\* A. Delivery method - Delivery methods describe the organizational and contractual structure (who holds contracts with whom and when they are engaged), not how payment is calculated.

\* B. Bonding system - Bonds (bid, performance, payment) are surety instruments, not pricing arrangements.

\* D. Cost estimate - An estimate is a forecast of probable cost, not the contractual method of payment.

CSI-aligned references (no URLs):

\* CSI Project Delivery Practice Guide - distinctions between delivery methods and compensation methods.

\* CSI CDT Body of Knowledge - lump sum, unit price, and cost-plus as bases of payment within procurement and contracting.

### NEW QUESTION # 53

.....

Because they are immensely useful and help you gain success in a CDT certification exam. More than ever, the professionals are now facing a highly competitive world to get their talent recognized enhancing their positions in their work environment. Such a milieu demands them to enrich their candidature more seriously. So the professionals work hard to maintain their quality and never fail in doing so.
