HP HPE2-E84 Exam Questions - 100% Success

Pass4SureQuiz Selling HPE AI and As-a-Service Solutions (HPE2-E84) practice test material covers all the key topics and areas of knowledge necessary to master the HP Certification Exam. Experienced industry professionals design the HPE2-E84 exam questions and are regularly updated to reflect the latest changes in the Selling HPE AI and As-a-Service Solutions (HPE2-E84) exam. In addition, Pass4SureQuiz offers three different formats of practice material which are discussed below.

HP Selling HPE AI and As-a-Service Solutions Sample Questions (Q33-Q38):

NEW QUESTION # 33

A CIO of a manufacturing company is outlining their strategic goals for the next three years.

Customer Strategic Goals:

- Goal 1: Increase operational efficiency on the factory floor by using predictive maintenance.
- Goal 2: Shift from large, infrequent technology investments to a more predictable, consumption-based financial model.
- Goal 3: Reduce the company's carbon footprint by optimizing IT infrastructure utilization.

Which market trends do these goals directly reflect?

- A. The standardization on a single hardware vendor and the outsourcing of all IT functions to a third party.

- B. A focus on traditional, on-premises IT purchasing and a move away from data-driven decision making.
- C. A preference for public cloud-only deployments and a singular focus on reducing operational expenses above all else.
- D. The convergence of AI for business outcomes, the demand for flexible as-a-service consumption, and the growing importance of sustainability.

Answer: D

NEW QUESTION # 34

A large enterprise is looking for a comprehensive AIOps solution to manage their complex hybrid IT environment, which includes on-premises data centers and multiple public clouds. Their primary goals are to reduce IT operations costs and improve service availability.

Which benefits of adopting OpsRamp as their AIOps platform directly contribute to these goals? (Select all that apply.)

- A. It offers full-stack visibility and service-centric monitoring across hybrid infrastructure, enabling faster root cause analysis.
- B. It replaces the need for any specialized network administration staff.
- C. It uses machine learning to proactively detect anomalies and predict incidents before they impact business services.
- D. It automates routine operational tasks and incident remediation, freeing up staff and reducing manual errors.
- E. It provides a single, fixed-price perpetual license for the software.

Answer: A,C,D

NEW QUESTION # 35

HPE's overall strategy is to be the "edge-to-cloud" company.

Which statements accurately reflect how the HPE GreenLake platform and the acquisition of OpsRamp support this strategy? (Choose 2.)

- A. By providing a consistent cloud operating experience for applications and data from the edge to the data center.
- B. By forcing customers to move all their edge data into a centralized public cloud.
- C. By providing a unified platform (OpsRamp) for observability and management across HPE-managed assets and third-party multi-cloud environments.
- D. By divesting from all networking and edge computing solutions to focus solely on the data center.
- E. By focusing exclusively on selling on-premises hardware with traditional support contracts.

Answer: A,C

NEW QUESTION # 36

A customer wants to deploy a full-stack AI solution that is optimized for both AI training and inference workloads. They are concerned about the complexity of integrating servers, storage, networking, and the AI software stack from different vendors. How does the 'NVIDIA AI Computing by HPE' portfolio address this specific customer concern? (Select all that apply.)

- A. By delivering a seamless, cloud-like experience for AI development and deployment through HPE GreenLake.
- B. By providing a curated set of AI software and models, including the NVIDIA AI Enterprise software suite.
- C. By allowing customers to select and integrate their own choice of components from any third-party vendor.
- D. By offering a pre-validated, full-stack solution that is co-engineered by HPE and NVIDIA.
- E. By focusing exclusively on providing the server hardware and leaving software integration to the customer.

Answer: A,B,D

NEW QUESTION # 37

A customer wants to gain unified visibility and AIOps-driven insights across their entire hybrid IT estate, which includes on-premises HPE infrastructure, virtualized environments, and workloads running in multiple public clouds.

Which capabilities of OpsRamp should a sales professional highlight to address this need for comprehensive, service-centric observability? (Select all that apply.)

- A. The ability to manage HPE Aruba network switches at the command-line level.
- B. Full-stack discovery and monitoring that provides a complete inventory of hybrid IT resources.

- C. A service-centric AIOps engine that correlates alerts to identify root causes and reduce alert noise.
- D. The functionality to order new physical servers directly from the OpsRamp dashboard.
- E. Seamless integration with third-party tools and public clouds to provide a single source of truth.

Answer: B,C,E

NEW QUESTION # 38
