## SAP C-ACDET-2506 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>• <b>Deploy and Migration:</b> This part of the exam assesses the expertise of an SAP Deployment Specialist and focuses on the final deployment of the configured solution and the data migration process. Candidates should demonstrate a solid grasp of how to move configurations from a testing environment into production while minimizing disruption. It also includes knowledge of tools and strategies used for data extraction.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>• <b>Project Overview, Roles and Responsibilities:</b> This section of the exam measures the skills of an SAP Cloud Consultant and covers the fundamental understanding of SAP Activate methodology within the context of a cloud implementation project. Candidates are expected to be familiar with the project lifecycle, including phases such as Prepare, Explore, Realize, Deploy, and Run. This part also focuses on identifying key roles and responsibilities within a cloud project team, ensuring clarity in collaboration between consultants, clients, and SAP. It checks whether the consultant understands governance, stakeholder management, and the high-level structure of cloud deployment using SAP best practices.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• <b>Field Configuration:</b> This domain evaluates the knowledge of an SAP Deployment Specialist and focuses on customizing and configuring business fields in the SAP system according to client-specific needs. This includes adjusting system settings for master data, transaction data, and other essential field-level controls to support business processes effectively. The section tests the candidate's ability to use configuration tools, apply SAP standard templates, and ensure that the field configurations align with the desired operational workflows of the business. It also touches upon validation, testing, and documenting the configuration changes made during the implementation.</li> </ul>

Our service and SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite exam questions are offered to exam candidates who are in demand of our products which are marvelous with the passing rate up to 98 percent and so on. So this result invariably makes our C-ACDET-2506 torrent prep the best in the market. We can assure you our C-ACDET-2506 test guide will relax the nerves of the exam without charging substantial fees. So we are always very helpful in arranging our SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite exam questions with both high quality and reasonable price. And you can choose them without hesitation. What is more, we give discounts upon occasions and send you the new version of our C-ACDET-2506 Test Guide according to the new requirements of the exam for one year from the time you place your order. One of our many privileges offering for exam candidates is the update. So we have received tremendous compliments which in return encourage us to do better. So please keep faithful to our C-ACDET-2506 torrent prep and you will prevail in the exam eventually.

### SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Sample Questions (Q42-Q47):

#### NEW QUESTION # 42

Which syntax is used for writing custom Validity Conditions?

- A. Regular expression
- B. Scheme
- C. XML
- D. Python

**Answer: A**

Explanation:

SAP Ariba uses an expression language based on Object-Graph Navigation Language (OGNL) to define custom validity conditions on fields. Within these expressions, regular expressions (regex) are supported to perform complex pattern validations, such as validating email formats or custom string structures. Other programming languages like Python, Scheme, or XML are not supported for this purpose. The use of regular expressions within SAP Ariba's validity conditions provides powerful, flexible validation capabilities, allowing administrators to enforce data quality rules precisely at the field level, consistent with official SAP Ariba documentation on validation expressions.

#### NEW QUESTION # 43

Which of the following languages is used to define defaults on fields within SAP Ariba?

- A. JavaScript
- B. Ariba expression language
- C. ABAP
- D. Python

**Answer: B**

Explanation:

SAP Ariba uses its proprietary Ariba expression language, based on OGNL (Object-Graph Navigation Language), to define default value expressions on fields. This language supports logical conditions, comparisons, and public Java method calls to create dynamic defaulting logic. ABAP, Python, and JavaScript are not supported languages for field default expressions in SAP Ariba. This expression language provides a concise and powerful way to tailor defaults based on context.

#### NEW QUESTION # 44

A customer requests a dynamic list from CSV. Which field type supports that?

- A. Computed Field
- **B. Flex Master Data-based field**
- C. Hyperlink
- D. Single-Select Enum

**Answer: B**

Explanation:

The Flex Master Data (FMD)-based fieldtype supports dynamic lists sourced from CSV uploads. FMD fields act like advanced picklists that can contain thousands of values, imported via CSV templates defining the master data structure and entries. These fields are searchable, scalable, and ideal for large or frequently changing datasets.

Single-select enumerations are static lists manually defined and cannot import large CSV datasets. Computed fields calculate values dynamically based on expressions and are not designed for listing selectable values.

Hyperlink fields store URLs, unrelated to selection lists.

FMD fields are the preferred approach when a customer requires large or frequently updated lookup lists in sourcing projects or contracts.

#### NEW QUESTION # 45

While working on editing a field for a customer, you notice that "Editable in full Contract Amendment" is not an option available in the advanced tab of field configuration. What is likely the cause for this behavior?

(Select 2 correct answers)

- A. The field you are customizing is standard and therefore cannot be changed.
- **B. The field you are customizing is not in the contract workspace or request classes.**
- **C. The contract must be in an amendment state for this option to be visible in customizing.**
- D. A customization is in flight and needs to be cleared and reset prior to making this change.

**Answer: B,C**

Explanation:

The "Editable in full Contract Amendment" option in SAP Ariba is available only when the contract is in an amendment status, meaning this option appears contextually when the contract supports amendment workflows. If the contract is not in amendment state, the option remains hidden (A).

Additionally, this option is only relevant for fields that belong to the Contract Workspace or Request field classes; fields outside these classes will not show amendment-specific editability options (C).

The presence or absence of this option is not related to ongoing customizations needing reset (B), nor is it restricted solely to custom or standard fields (D), as standard fields can also have this option if class- applicable.

#### NEW QUESTION # 46

You want to apply a preset filter to a custom field so that it only shows valid values based on the value of another field. What do you use to apply predefined filter criteria for a field?

- A. Enable field property "Enable for Template Field Setter" in the Advanced tab
- B. Enable field property "Use relationship chooser" in the Advanced tab
- C. Load Relation types and Relation entries
- D. Define a Visibility Condition in the Conditions tab
- **E. Populate the "Relation Name" and "NameTableConstraintFieldPath" in the Advanced tab**

**Answer: E**

#### NEW QUESTION # 47

.....

To obtain the C-ACDET-2506 certificate is a wonderful and rapid way to advance your position in your career. In order to reach this goal of passing the C-ACDET-2506 exam, you need our help. You are lucky to click into this link for we are the most popular vendor in the market. We have engaged in this career for more than ten years and with our C-ACDET-2506 Exam Questions, you will not only get aid to gain your dreaming certification, but also you can enjoy the first-class service online.
