Diese Tatsache ist nicht zu leugnen, Unsere Fragenpool zur PMI PMI-PMOCP Zertifizierung können den Kandidaten sehr helfen. Und unser Preis ist ganz rational, was jedem IT-Kandidaten passt.

## PMI Project Management Office Certified Professional PMI-PMOCP Prüfungsfragen mit Lösungen (Q20-Q25):

### 20. Frage

A multinational company seeks to establish and maintain strong governance for its PMO to ensure efficient service delivery, accountability, and alignment with organizational goals.

What is the most critical action the PMO professional should take when establishing PMO governance to ensure the PMO operates effectively?

- A. Develop a flexible PMO governance framework tailored to the PMO's unique functions and services, ensuring it can adapt to changing organizational needs while maintaining control and oversight.
- B. Rely on the existing successful project governance processes within the organization so that the PMO services will align naturally with them.
- C. Focus on increasing the number of governance meetings and reporting cycles to ensure PMO activities are constantly monitored and adjusted as necessary.
- D. Implement standardized governance processes that apply equally to all departments, ensuring that every aspect of PMO

operations is controlled and monitored with strict procedures.

**Antwort: A**

Begründung:

Effective PMO governance requires tailored and flexible governance framework that balances control with adaptability. PMI-PMOCP stresses that governance must reflect the PMO's specific roles, services, and organizational context, enabling it to evolve with changing needs while providing appropriate oversight.

Relying solely on existing governance (option B) or focusing on frequency of meetings (option C) may not address unique PMO requirements. Strict standardized processes (option D) risk rigidity that can hinder responsiveness.

## 21. Frage

The PMO has decided to expand its services by including project prioritization and status reporting to better visualize project execution.

Which action should the PMO professional take next?

- **A. Identify the PMO customers' needs and determine the most effective approach to meet expectations.**
- B. Conduct regular project audits and reviews to ensure compliance and high quality.
- C. Develop new services and frameworks to ensure they are appropriately planned for implementation.
- D. Employ new PMO team members to help provide the requested services.

**Antwort: A**

Begründung:

When expanding PMO services, the first step is to engage with PMO customers to understand their needs and expectations. PMI-PMOCP stresses that customer-centric service design ensures relevance, adoption, and value delivery. By identifying and analyzing needs, the PMO can tailor its approach to prioritization and reporting effectively.

Options B, C, and D are subsequent actions that rely on understanding customer requirements first to be effective.

## 22. Frage

A newly established PMO has been given an opportunity to give a presentation to the executive committee of a natural flavors company. The new PMO is striving to shape its service offerings to support the research and development (R&D) department of the company.

What should the PMO leader do to gain executive support?

- A. Leverage benchmarks and case studies that highlight how the PMO can improve the success rate of delivering projects on time and within budget.
- B. Showcase the ability of the PMO to standardize processes and increase efficiency across projects in the R&D portfolio.
- **C. Demonstrate how the PMO aligns projects with the strategic goals of the organization, using R&D as an example.**
- D. Present detailed reports on R&D project performance metrics and key performance indicators (KPIs) managed by the PMO.

**Antwort: C**

Begründung:

Executive support is best gained by demonstrating how the PMO's work aligns with and supports strategic organizational goals, especially when tailored to key departments such as R&D. PMI-PMOCP highlights strategic alignment as critical to securing leadership buy-in.

Process standardization (B), benchmarks (A), or detailed metrics (D) may support the case but are less compelling without clear strategic linkage.

Reference: PMI-PMOCP Study Guide, Chapter on Strategic Alignment and Stakeholder Engagement.

## 23. Frage

The PMO has decided to expand its services by including project prioritization and status reporting to better visualize project

execution.

Which action should the PMO professional take next?

- **A. Identify the PMO customers' needs and determine the most effective approach to meet expectations.**
- B. Conduct regular project audits and reviews to ensure compliance and high quality.
- C. Develop new services and frameworks to ensure they are appropriately planned for implementation.
- D. Employ new PMO team members to help provide the requested services.

**Antwort: A**

Begründung:

#### 24. Frage

An enterprise PMO (EPMO) in a large telecommunications company is overwhelmed with service requests from various departments. With limited resources, the EPMO cannot serve all customers and meet their expectations in the short term. Which action should the PMO professional take to ensure efficient delivery?

- A. Escalate the issue to the executive team and request additional resources.
- B. Educate customers on service-level agreements (SLAs) for each service.
- C. Allocate PMO resources to incoming requests based on their experience.
- **D. Prioritize and assign service requests based on their strategic impact.**

**Antwort: D**

Begründung:

The PMI-PMOCP Lifecycle Management domain guides PMOs to prioritize resources and services based on strategic impact, ensuring that limited capacity is allocated to initiatives that deliver the highest organizational value.

Escalation (Option A) may be necessary eventually but is not the immediate corrective action. Allocating resources by experience (Option B) ignores strategic prioritization. Educating customers on SLAs (Option D) is useful but secondary to prioritization decisions.

This prioritization approach helps the EPMO maximize impact, manage expectations, and optimize service delivery under constraints.
