Oracle Payroll Cloud 2024 Implementation Professional Sample Questions (Q56-Q61):

NEW QUESTION # 56
Which statement accurately describes how you create a tax reporting unit?

- A. You can identify a legal entity as a tax reporting unit.
- B. When you identify a legal entity as a payroll statutory unit, the application transfers the legal reporting units that are associated with that legal entity to HCM as tax reporting units.
- C. When you identify a legal entity as a legal employer, the application transfers the legal reporting units that are associated with that legal employer to HCM as tax reporting units.
- D. If you identify a legal entity as a payroll statutory unit, you will have the option to identify the payroll statutory unit as a tax reporting unit.

Answer: B

Explanation:
In Oracle Payroll Cloud, a tax reporting unit (TRU) is created as part of the payroll statutory unit (PSU) setup. When a legal entity is identified as a PSU, the application automatically transfers its associated legal reporting units (LRUs) to HCM as TRUs (Option A). This ensures tax reporting aligns with the legislative requirements of the PSU. Option B is incorrect, as there's no optional step to designate the PSU as a TRU-it's automatic. Option C (directly identifying a legal entity as a TRU) bypasses the PSU linkage, which is not supported. Option D (legal employer) is inaccurate, as TRUs are tied to PSUs, not legal employers. Oracle documentation confirms this automatic transfer process.

NEW QUESTION # 57
Which delivered report can be used to verify the details of all payments made to third-parties?

- A. Payment Register Report
