GAQM Certified Data Centre Specialist (CDCS) Sample Questions (Q20-Q25):

NEW QUESTION # 20
For which one of these processes is Direct Current essential, and will not work with alternating current?

- A. Heating
- B. Electrolysis
- C. Lighting
- D. Turning a motor

Answer: B

Explanation:
Explanation
Direct Current (DC) is essential for the process of electrolysis. Electrolysis is the process of breaking down a compound using an electric current. The electric current causes ions to move, which results in a chemical reaction that breaks down the compound. In order for electrolysis to work, a direct current is required, as the ions must flow in one direction. Alternating Current (AC) changes direction and would not provide a consistent flow of ions.
Heating, lighting, and turning a motor can be done by either DC or AC. Heating can be done by passing an electric current through a heating element, which can be powered by either DC or AC. Lighting can be done by passing an electric current through a light bulb, which can be powered by either DC or AC. A motor can be powered by either DC or AC, but the type of motor and the application will determine which type of current is more suitable.

NEW QUESTION # 21
Which one of the following uses sensors such as laser beams or touch sensor?

- A. CCTV

GAQM Certified Data Centre Specialist (CDCS) Sample Questions (Q32-Q37):

NEW QUESTION # 32
What is a Data Center?

- A. A building or a portion of a building whose primary function is to house a computer room and its related support areas
- B. A building or portion of a building whose primary function is to research new data.
- C. A room in a building dedicated to monitoring data and information.
- D. A building or a portion of a building where debugging takes place

Answer: A

Explanation:
A building or a portion of a building whose primary function is to house a computer room and its related support areas. A Data Center is a secure, temperature-controlled environment that houses computer systems, equipment, and associated components. It is typically used to store, process, and distribute large amounts of data and information. Data Centers typically include server racks, storage arrays, network switches, firewalls, and other components necessary for the operation of computer systems.

NEW QUESTION # 33
Which component protects electrical equipment from overloads or short circuits?

- A. Transient
- B. Transfer Switch
- C. Circuit Breaker
- D. Stabiliser

Answer: C

NEW QUESTION # 34
Which type of outlet is used for non-computing devices?

- A. Static
- B. Convenience
- C. Harmonic
- D. Grounding

Answer: B

Explanation:
Convenience outlets, also known as duplex receptacles or wall outlets, are used to provide power to non- computing devices, such as lamps, televisions, and other household appliances. They are typically found in residential and commercial buildings and are connected to a circuit breaker or fuse for protection against overloading and electrical fires

NEW QUESTION # 35
Which one of the following is a Physical Security Identification Method?

- A. Voice
- B. Expression
- C. Batch ID
- D. Sound

Answer: A

Explanation:

Voice identification is a physical security identification method that uses the sound of an individual's voice to identify them. This method is often used in combination with other identification methods, such as biometric scans, to provide a more secure form of authentication. Voice identification is used in a variety of situations, such as when accessing a secure facility or when making financial transactions.

NEW QUESTION # 36
What are the two main applications for ac (alternate current)?

- A. static, dynamic
- B. power, information
- C. electric, magnetic
- D. direct, pulsating

Answer: B

Explanation:
The two main applications for AC (alternate current) are power and information. AC is used to generate and transfer power to electrical devices, and is also used to carry information signals in telecommunications.

NEW QUESTION # 37
.....

The design of our CDCS-001 guide training is ingenious and delicate. Every detail is perfect. For example, if you choose to study our learning materials on our windows software, you will find the interface our learning materials are concise and beautiful, so it can allow you to study CDCS-001 exam questions in a concise and undisturbed environment. In addition, you will find a lot of small buttons, which can give you a lot of help. Some buttons are used to hide or show the answer. What's more important is that we have spare space, so you can take notes under each question in the process of learning CDCS-001 Study Tool. When you start, there will be a timer to help you to time, so that you can finish the problem within the prescribed time and it can create an environment. If you are satisfied with our CDCS-001 exam questions, you can make a choice to purchase them.
