PRINCE2 Practitioner Exam Sample Questions (Q264-Q269):

NEW QUESTION # 264

The external team manager for the 'e-learning course' has reviewed the quality register to ensure all quality activities have been completed. The 'e-learning course' has been approved and accreditation has been achieved. As a result, the team manager updated the work package to notify the project manager that it is complete, and updated the team plan.

Is this appropriate, and why?

- A. No, because the work package should be checked to confirm the reporting arrangements of the 'e-learning course'.
- B. Yes, because a team plan to gain accreditation of the 'e-learning course' is required to be part of the work package.
- **C. Yes, because the project manager needs to receive confirmation that work has been completed and approved.**
- D. No, because it is the configuration item record of the relevant product description that is updated, not the work package.

Answer: C

NEW QUESTION # 265

Scenario

A central government department, the Ministry of Food Hygiene (MFH), faces increasing pressure to cut costs, better manage suppliers' performance and reduce the confusion caused by inadequate internal controls, outdated standards and outdated technology. External consultants were employed to conduct a feasibility study to identify options to address the problems, and the likely costs and benefits. The following options were considered:

- Do nothing.
- Re-engineer selected business functions.
- Outsource selected business functions.

The feasibility study concluded that there was a case for outsourcing the MFH Information Technology Division and the Facilities Division (maintenance of buildings and grounds). The recommendations were:

- One service provider should be contracted to provide the services currently provided by the Information Technology Division and the Facilities Division.
- A 10-year service contract should be agreed with the selected service provider.

The feasibility study developed high-level designs of the current organization, processes, systems and operating models, plus an outline Business Case for the required project. The external consultants also made the following recommendations for the management of the project:

- Use PRINCE2.
- Set up the project with 4 management stages:
 Stage 1. Standard PRINCE2 initiation activities.
 Stage 2. Create detailed designs (future organization, processes, systems and operating models) and the service level agreement between MFH and the future service provider.
 Stage 3. Request and evaluate proposals, select service provider and agree contract.
 Stage 4. Transfer equipment and staff, transfer responsibility for service provision and run trial period.

Initial estimates indicated that the project would cost £2.5m and take two years to complete. MFH senior management agreed that there was a case for outsourcing, and accepted the recommendations as a basis for the project. There is an expected saving of £20m over 10 years.

The Outsourcing project has completed the Starting up a Project process and is now in the initiation stage.

Because of the strategic importance of the project, the MFH Chief Executive Officer has taken the role of Executive. A PRINCE2-experienced Project Manager has been appointed from within MFH. Staff within the business functions being outsourced will work with the external consultants who conducted the feasibility study to define the detailed designs.

Which 2 statements should be recorded under the Expected benefits heading?

- A. The 10-year outsourcing contract will enable MFH to stabilize costs at agreed levels.
- B. The confirmed cost of the Outsourcing project is £2.5m, but with considerable savings over 10 years.
- C. Outsourcing would allow MFH to take advantage of the best services the outsourcing industry has to offer.
- D. The 10-year outsourcing contract, at current prices, will be worth £80m.
- E. The total expected savings over 10 years, at current prices, is £20m.
