SAP Certified Associate - Security Administrator Sample Questions (Q66-Q71):

NEW QUESTION # 66

When performing a comparison from the imparting role, what happens to the organizational level field values in the derived role?
Note: There are 2 correct answers to this question.

- A. Data for organizational levels that have already been maintained in the derived role is NOT overwritten.
- B. Data for organizational levels that have already been maintained in the derived role is overwritten.
- C. Data for organizational levels is transferred only when authorization data for the derived role is first modified.
- D. Data for organizational levels is always transferred when authorization data for the derived role is modified.

Answer: A,C

Explanation:

When comparing an imparting role to a derived role:

* Preservation of Data (B): If organizational levels have already been maintained in the derived role, they are not overwritten to preserve specific configurations.

* Conditional Data Transfer (C): Organizational data is transferred only when the authorization data in the derived role is being modified for the first time.

SAP Security References:

* SAP Help Portal: Derived Role Maintenance

NEW QUESTION # 67

You are evaluating startable applications. Which of the following can you use to check if there is an application start lock on an application contained in a PFCG role? Note: There are 2 correct answers to this question.

- A. Transaction SM01_CUS
- B. Transaction SUIM - Transactions Executable with Profile report
- C. Transaction SUIM-Executable Transactions report
- D. Transaction SM01_DEV

Answer: B,C

Explanation:

* Context: Application start locks prevent certain transactions or applications from being executed. SUIM provides reporting

functionalities to analyze these locks.

* Solution Descriptions:

* A. SUIM-Executable Transactions report:Identifies executable transactions linked to roles and checks for start locks.

* D. SUIM - Transactions Executable with Profile report:Provides detailed insights into transactions executable via specific profiles, also highlighting start locks.

SAP Security References:

* SAP SUIM Documentation

* SAP Help Portal for Transaction Analysis

NEW QUESTION # 68

In the administration console of the Cloud Identity Services, which authentication providers are available?

Note: There are 2 correct answers to this question.

- A. Concur
- B. FieldGlass
- C. Ariba
- D. Successfactors

Answer: C,D

NEW QUESTION # 69

Your developer has created a new custom transaction for your SAP S/4HANA on-premise system and has provided you a list of the authorizations needed to execute the new ABAP program."What must you do to ensure that each required authorization is automatically created every time this new custom transaction is added to a PFCG role?

- A. Maintain each authorization object in transaction SU22 and set the Default Status to "Yes".
- B. Maintain each authorization in transaction SU24 and set the Default Status to "Yes".
- C. Maintain each authorization in transaction SU22 and set the Check Indicator value to "Check".
- D. Maintain each authorization object in transaction SU24 and set the Default Status to "Yes".

Answer: D

NEW QUESTION # 70

Following an upgrade of your SAP S/4HANA on-premise system to a higher release, you perform a Modification Comparison using SU25.

What does this comparison do?

- A. It compares your changes to the SAP defaults in USOBX and USOBT with the new SAP defaults in the current release and allows you to make adjustments.
- B. It compares the Role Maintenance data from the previous release with the data for the current release and writes any new default values in tables USOBX_C and USOBT_C.
- C. It compares the Role Maintenance data from the current release with the data for the previous release and allows you to adjust any custom default values in tables USOBX and USOBT.
- D. It compares your changes to the SAP defaults in USOBX_C and USOBT_C with the new SAP defaults in the current release and allows you to make adjustments.

Answer: A

NEW QUESTION # 71
