NEW QUESTION # 87

What is the default log collection schedule?

- A. Hourly
- **B. As scheduled during install**
- C. Daily
- D. Weekly

Answer: B

NEW QUESTION # 88

A Storage Administrator is adding an appliance into an existing Dell PowerStore T cluster.

What is different about the management network configuration for the new appliance compared to configuring an initial appliance for the cluster?

- Answer: C**

Each appliance must have Management and Storage networks configured. Management networks connect the cluster to management services such as DNS, NTP, and vCenter. The management network also enables external clients to access the cluster. The Storage network connects the cluster to an existing storage network or establishes a new network within the cluster. It also enables external clients to access the storage in the cluster. Both the Management and Storage networks require at least three IP addresses
