This SAP Certified Associate - Security Administrator (C-SEC-2405) certification exam has been inspiring beginners and experienced professionals since its beginning. Over this long time period, countless SAP Certified Associate - Security Administrator (C-SEC-2405) exam

candidates have passed their SAP Certified Associate - Security Administrator (C-SEC-2405) certification exam, and now they are offering their services to the top world brands.

## SAP Certified Associate - Security Administrator Sample Questions (Q46-Q51):

### NEW QUESTION # 46

Which access categories are available to maintain restrictions in SAP S/4HANA Cloud Public Edition? Note:

There are 3 correct answers to this question.

- A. Write, Read, Value Help (write access)
- B. Value Help (value help access)
- C. Read, Value Help (read access)
- D. Write, Read (write access)
- E. Read (read access)

**Answer: A,B,C**

Explanation:

In SAP S/4HANA Cloud Public Edition, access restrictions are maintained using specific access categories to control user permissions granularly. The available categories include "Read, Value Help (read access)," which allows users to view data and access value help functionalities; "Value Help (value help access)," which restricts access to only value help features; and "Write, Read, Value Help (write access)," which grants permissions for creating, modifying, reading, and using value help. These categories enable precise control over user access to data and functionalities, ensuring compliance with security policies. The options "Read (read access)" and "Write, Read (write access)" are not standard access categories in this context, as they do not fully align with the system's predefined restriction types.

### NEW QUESTION # 47

For which of the following can transformation variables be used?

- A. To save data temporarily
- B. To save data to the output JSON file
- C. To save data permanently

**Answer: A**

Explanation:

Transformation variables in SAP Cloud Identity Services are used to store data temporarily during the processing of identity transformations. These variables act as placeholders and are not saved permanently in the system.

\* SAP Transformation Variable Configuration Guide

\* SAP Help Portal: Identity Transformation in Cloud Identity Services

### NEW QUESTION # 48

Which of the following functions within SAP GRC Access Control support access certification and review? Note: There are 2 correct answers to this question.

- A. Role Ream
- B. GO
- C. Role Review
- D. Review CI User Reaffirm

**Answer: C,D**

### NEW QUESTION # 49

To connect to data sources that are NOT all based on OData, which of the following options does SAP recommend you use?

- A. OData Provisioning service
- **B. SAP Integration Suite**
- C. Cloud connector
- D. SAP Process Integration

**Answer: B**

Explanation:

For connecting to data sources that are not exclusively based on OData, SAP recommends using the SAP Integration Suite. This comprehensive platform supports a wide range of integration scenarios, including OData, REST, SOAP, and other protocols, making it ideal for connecting diverse data sources, whether on- premise or cloud-based. The SAP Integration Suite provides tools for data mapping, transformation, and orchestration, ensuring seamless and secure data exchange across heterogeneous systems. In contrast, the OData Provisioning service is specifically designed for OData-based integrations, limiting its applicability to non-OData sources. The Cloud connector facilitates secure connectivity between SAP BTP and on-premise systems but is not a complete integration solution. SAP Process Integration, while used for integration in older SAP landscapes, lacks the flexibility and cloud-native capabilities of the SAP Integration Suite. By leveraging the SAP Integration Suite, organizations can achieve robust, scalable, and secure integrations, aligning with SAP's modern integration strategy for complex, multi-protocol environments.

### NEW QUESTION # 50

Where can you find information on the SAP-delivered default authorization object and value assignments?

Note: There are 2 correct answers to this question.

- A. SU24
- **B. USOBT**
- **C. SU22**
- D. USOBT\_C

**Answer: B,C**

### NEW QUESTION # 51
