

UiPath UiAAAv1–Best Practices to Pass UiAAAv1 Exam [2026]

As long as you buy our UiAAAv1 practice materials and take it seriously to your consideration, we can promise that you will pass your UiAAAv1 exam and get your certification in a short time. We can claim that if you study with our UiAAAv1 learning guide for 20 to 30 hours as preparation, then you can be confident to pass the exam. So choose our products to help you review, you will benefit a lot from our UiAAAv1 study guide.

UiPath UiAAAv1 Exam Syllabus Topics:

Section	Weight	Objectives
Prompt Engineering	20%	- Structured output design - Context grounding techniques - System and role-based prompts - Few-shot and chain-of-thought prompting
AI Governance and Safety	20%	- Hallucination mitigation - PII masking and data protection - Responsible AI principles - Audit logging and monitoring - AI Trust Layer and guardrails
LLM Integration and GenAI Connectors	20%	- Connector configuration and parameters - Supported LLM providers (OpenAI, Azure OpenAI, Anthropic) - Context windows and token management
Agentic Automation Fundamentals	25%	- Agent vs traditional bot differences - Agent loop and ReAct pattern - Autonomous agent concepts - LLM and AI fundamentals
Orchestration and Human-in-the-Loop	15%	- Human-in-the-loop design - Mixed agent + RPA workflows - UiPath Maestro orchestration - Action Center and escalation flows - Multi-agent collaboration

Exam UiAAAv1 Simulator & UiAAAv1 Accurate Study Material

Many people dream about occupying a prominent position in the society and being successful in their career and social circle. Thus owning a valuable certificate is of paramount importance to them and passing the test UiAAAv1 certification can help them realize their goals. If you are one of them buying our UiAAAv1 Exam Prep will help you pass the exam successfully and easily. Our UiAAAv1 guide torrent provides free download and tryout before the purchase and our purchase procedures are safe.

UiPath Agentic Automation Associate Sample Questions (Q16-Q21):

NEW QUESTION # 16

When a user creates a print job from a VDA-mapped network printer, how is the print job routed?

- A. Through the HDX protocol from VDA to Endpoint, and then to the print server.
- **B. Directly from the VDA server to the print server and then to the print device for output.**
- C. Printing to a network printer is not supported with HDX.
- D. Directly to the Endpoint printer, bypassing the VDA server.

Answer: B

Explanation:

When using a VDA-mapped network printer, the print job is processed on the VDA and sent directly to the network print server, which then forwards it to the physical printer. This avoids unnecessary routing through the client endpoint and ensures efficient printing.

NEW QUESTION # 17

Scenario: A Citrix Administrator maintains a Citrix Virtual Apps and Desktops Site with a large number of Windows users running various locally attached client printers. No network printers are being used. The administrator has enabled the HDX printer mapping policy to 'Auto-create all client printers', which has resulted in a large number of drivers being loaded onto the Virtual Delivery Agent (VDA) machines. New standards are requiring the administrator to limit these Windows drivers on the VDA machines. Which printing feature can the administrator enable to meet the new standards?

- A. The Citrix Universal Print Server
- **B. The Citrix Universal Printer Driver**
- C. The Auto-create local (non-network) client printers only policy
- D. The Auto-create PDF universal printer policy

Answer: B

Explanation:

Enabling the Citrix Universal Printer Driver allows client printers to be auto-created without requiring individual printer drivers to be installed on the VDA machines. This standardizes printing, reduces driver sprawl, and meets compliance requirements by minimizing the number of Windows drivers on the VDAs.

NEW QUESTION # 18

A Citrix Administrator is creating a Pooled/Random catalog using Machine Creation Services (MCS). Which service on the Citrix Delivery Controller will enable the communication to the Hypervisor?

- **A. Citrix Host Service**
- B. Citrix Broker Service
- C. Citrix Environment Test Service
- D. Citrix Hypervisor Service

Answer: A

Explanation:

The Citrix Host Service on the Delivery Controller manages communication with the hypervisor. It enables Machine Creation Services (MCS) to provision, power manage, and update virtual machines in pooled or random catalogs.

NEW QUESTION # 19

By default, what are the settings for browser content redirection and client drive mapping in Citrix Virtual Apps and Desktops?

- A. Browser content redirection: Disabled, Client drive mapping: Disabled
- B. Browser content redirection: Allowed, Client drive mapping: Disabled
- **C. Browser content redirection: Disabled, Client drive mapping: Enabled**
- D. Browser content redirection: Allowed, Client drive mapping: Enabled

Answer: C

Explanation:

In Citrix Virtual Apps and Desktops, browser content redirection is disabled by default and must be explicitly configured. Client drive mapping is enabled by default, allowing users to access local drives within their sessions unless restricted by policy.

NEW QUESTION # 20

Scenario: A Citrix Administrator is investigating an instability in the system that is causing the Print Spooler service to stop frequently on the Virtual Delivery Agent (VDA) machine. The administrator finds printer driver conflicts in the environment and needs to remove the problem drivers while still maintaining printing functionality. Which policy setting can the administrator use to resolve this issue on the VDA machine?

- A. Use universal printing only
- B. Auto-create all client printers
- C. Use only printer model specific drivers
- D. Automatic installation of in-box printer drivers

Answer: A

Explanation:

By enabling the "Use universal printing only" policy, the VDA will rely exclusively on the Citrix Universal Print Driver instead of loading multiple printer model-specific drivers. This resolves driver conflicts, stabilizes the Print Spooler service, and maintains printing functionality.

NEW QUESTION # 21
