The Design - Associate (JNCIA-Design) (JN0-1103) exam questions can help you gain the high-in-demand skills and credentials you need to pursue a rewarding career. To do this you just need to pass the Design - Associate (JNCIA-Design) (JN0-1103) certification exam which is not easy to crack. You have to put in some extra effort, and time and prepare thoroughly to pass the Design - Associate (JNCIA-Design) (JN0-1103) exam. For the quick, complete, and comprehensive Design - Associate (JNCIA-Design) (JN0-1103) exam dumps preparation you can get help from top-notch and easy-to-use JN0-1103 Questions.

Juniper JN0-1103 Exam Syllabus Topics:

Topic	Details
Topic 1	• Network Management or Reliability: This section of the exam measures skills of Network Operations Center (NOC) Engineers and covers design considerations for ensuring business continuity. Topics include high-resiliency design, implementing link and device-level redundancy, and utilizing technologies like Multihomed Ethernet Segment Identifier Link Aggregation Groups (ESI LAGs) and virtual chassis. The section also explores Juniper SRX firewall redundancy and best practices for campus network redundancy.
Topic 2	• Customer Network Design Requirements: This section of the exam measures skills of Network Design Engineers and covers the foundational aspects of network design. It includes understanding Juniper's life-cycle service approach, defining proposal boundaries, and considerations for both greenfield and brownfield deployments. The section also addresses top-down network design methodologies and capacity planning to ensure scalable and efficient network infrastructures.

Topic 3	• Campus and Branch WAN Design: This section of the exam measures skills of WAN Solutions Architects and covers considerations for designing campus or branch WANs. It includes understanding WAN connectivity functions, best practices for WAN design, performance optimization, VPN design, and implementing high availability through active • active and active • passive configurations. The section also explores Software-Defined WAN (SD-WAN) design considerations, devices, assurance models, and intersite connectivity.

- C. Have a multi-tier out-of-band management network.
- D. Keep the out-of-band management network as flat and simple as possible.

Answer: C

NEW QUESTION # 42

Which two metrics are important for determining the size and scope of a new network design? (Choose two.)

- A. implementation time frame
- B. training requirements
- C. number of users
- D. location of users

Answer: C,D

NEW QUESTION # 43

When analyzing customer requirements, what are two of the categories that customer requirements can be organized into? (Choose two.)

- A. Security
- B. Access
- C. Availability
- D. Core

Answer: A,C

NEW QUESTION # 44

Your customer has had troubles in the past with his STP implementations and has asked you to design a Layer 2 network that doesn't require STP.

Which technology can you recommend to the customer?

- A. VSTP
- B. Virtual Chassis
- C. VLANs
- D. IPsec

Answer: B

NEW QUESTION # 45

.....

Our company abides by the industry norm all the time. By virtue of the help from professional experts, who are conversant with the regular exam questions of our latest JN0-1103 exam torrent we are dependable just like our JN0-1103 test prep. They can satisfy your knowledge-thirsty minds. And our JN0-1103 quiz torrent is quality guaranteed. By devoting ourselves to providing high-quality practice materials to our customers all these years we can guarantee all content is of the essential part to practice and remember. To sum up, our latest JN0-1103 Exam Torrent are perfect paragon in this industry full of elucidating content for exam candidates of various degree to use. Our results of latest JN0-1103 exam torrent are startlingly amazing, which is more than 98 percent of exam candidates achieved their goal successfully.
