Salesforce Certified Slack Consultant Sample Questions (Q232-Q237):

NEW QUESTION # 232

A large enterprise is planning to introduce Slack as its new communication platform. What should be a key component of their rollout communication plan to ensure successful adoption across the organization?

- A. A single, comprehensive email sent to all employees on the day of the rollout
- B. Limiting communication to top-level executives and relying on them to disseminate information to their teams
- C. Focusing solely on the technical aspects of Slack in the communication plan, without addressing its practical applications

- **D. A phased communication strategy that includes initial awareness campaigns, detailed training sessions, and ongoing support post-launch**

Answer: D

NEW QUESTION # 233

In preparing for a Slack migration, you are tasked with user clean-up in the current communication system. What is the most effective first step?

- A. Upgrade all user accounts to premium before migrating them to Slack
- B. Immediately migrate all user accounts, including inactive ones, to Slack
- C. Ask all employees to self-identify if they are active or inactive users
- **D. Identify and remove inactive user accounts that have not been used for an extended period**

Answer: D

Explanation:

The most effective first step in user clean-up is to identify and remove inactive accounts. This process streamlines the migration by ensuring that only relevant and active user data is transferred to Slack, making the migration more efficient and reducing clutter in the new system.

NEW QUESTION # 234

A company is preparing to migrate to Slack and has multiple departments with varying schedules and workloads. How should the migration scheduling be approached to accommodate these differences?

- **A. Arrange the migration schedule based on departmental workloads and readiness, starting with those least impacted by the change**
- B. Schedule the migration for all departments simultaneously to minimize overall project duration
- C. Conduct the migration outside of regular working hours for all departments
- D. Delay the migration until all departments have an identical schedule

Answer: A

Explanation:

Tailoring the migration schedule according to each department's workload and readiness ensures a smoother transition. Starting with departments that are least impacted by the change can provide valuable insights and a roadmap for migrating departments with more complex needs.

NEW QUESTION # 235

In implementing Slack's experiential learning approach for a new team, what method would be most effective to ensure the team becomes adept at using Slack efficiently?

- A. Organizing a lecture-style presentation to explain the functionalities of Slack
- B. Encouraging team members to independently learn Slack features without any formal training or guidance
- **C. Engaging the team in a simulated project within Slack, incorporating various features and tools for collaboration**
- D. Providing a list of all Slack features and functions for team members to read

Answer: C

Explanation:

The most effective method for experiential learning in Slack is to engage the team in a simulated project within the platform. This approach allows team members to actively use various Slack features and tools in a practical context, enhancing their understanding and proficiency through direct experience.

NEW QUESTION # 236

A Workspace Owner is looking to optimize their team's Slack usage by understanding peak activity times. What aspect of the

analytics dashboard should they focus on to determine when their team is most active on Slack?

- A. The number of channels joined by users
- **B. Time-specific user activity levels**
- C. The total number of direct messages sent
- D. The frequency of mentions and reactions

Answer: B

Explanation:

Focusing on time-specific user activity levels will reveal when the team is most active on Slack, which can help in optimizing meeting times, setting expected response times, and managing workload distribution.
