- D. Define a core data services (CDS) view with the ABAP development tools for Eclipse.

**Answer: B,C**

### **NEW QUESTION # 58**

Which organizational change management activity is usually performed in which SAP Activate phase? Note: There are 2 correct answers to this question.

- **A. The change plan is usually developed in the explore phase.**
- B. The business readiness assessment is usually conducted in the discover phase.
- **C. The user adoption analysis is usually conducted in the run phase.**
- D. The change assessment is usually conducted in the prepare phase.

**Answer: A,C**

### **NEW QUESTION # 59**

You are preparing for an SAP S/4HANA Cloud Private Edition implementation project. What do you find in the Roadmap Viewer? Note: There are 2 correct answers to this question.

- **A. Clean Core quality gates**
- **B. Tasks and deliverables to complete each phase**
- C. Business process flows
- D. Solution process setup instructions

**Answer: A,B**

### **NEW QUESTION # 60**

In the SAP Activate explore phase, the project team conducts fit-to-standard workshops to identify gaps between business requirements and the SAP best practice standard. Which change management challenge is typical for this phase?

- A. Some business users do not adopt the new cloud solution.
- **B. Some managers show resistance towards the cloud standard.**
- C. Some business departments do not feel well prepared for the go-live.
- D. Some project team members have never heard of organizational change management.

**Answer: B**

### **NEW QUESTION # 61**

Which of the following are workshop design principles/guidelines? Note: There are 2 correct answers to this question.

- A. Expert configuration definitions
- **B. Active participation**
- C. Fit-to-standard
- **D. Validation by end users**

**Answer: B,D**

Explanation:

Step 1 - Understanding the question

This question focuses on workshop design principles/guidelines used in SAP S/4HANA Cloud, Private Edition projects - especially during Fit-to-Standard and other key workshops guided by SAP Activate.

SAP defines a set of principles to ensure workshops are efficient, collaborative, and outcome-driven.

Step 2 - Evaluate each option

Option A: Expert configuration definitions

This is incorrect.

Workshops are not meant for technical configuration or expert-only activities. The goal is to validate business processes, not to perform expert configuration definitions.

Option B: Active participation

This is correct.

SAP's workshop design guidelines emphasize active participation of both customer key users and consultants.

Participants are expected to engage in discussions, validate processes, and provide business insights.

Workshops are collaborative sessions, not presentations.

Example 1:

In a Finance Fit-to-Standard workshop, finance key users actively discuss how SAP standard processes align with their current processes.

Example 2:

During a Procurement workshop, purchasing managers provide feedback on the purchase requisition process and share real-world challenges.

Option C: Validation by end users

This is correct.

Workshops aim to validate SAP standard processes and ensure that end users confirm whether the proposed solution meets their business needs.

This ensures that the solution design is grounded in actual business operations.

Example 1:

End users confirm during the workshop that SAP's three-way match process fits their purchasing workflow.

Example 2:

In a sales workshop, sales representatives test standard order-to-cash flows and validate that required steps and fields are available.

Option D: Fit-to-standard

This is incorrect.

Fit-to-Standard is the type of workshop, not a design principle.

The question asks for design principles/guidelines, not workshop types.

## NEW QUESTION # 62

.....

C-S4PM2-2507 exam and they all got help from real and updated SAP C-S4PM2-2507 exam questions. You can also be the next successful candidate for the C-S4PM2-2507 certification exam.
