問題 #39

Get Cloudy Consulting gets 90% of its leads from trade shows. Sales reps create many lead records during these events, but they often forget to change the Lead Source field to Trade Show*.

What approach would improve data integrity for the Lead Source field?

- A. Create a validation rule requiring the Lead Source field to equal Trade Show'.
- **B. Set the default value of the Lead Source field to Trade Show'.**
- C. Make an assignment rule named Trade Show' to only assign leads to sales reps.

答案： B

解題說明：

Setting the default value of the Lead Source field to Trade Show' is the best approach to improve data integrity for the Lead Source field. A default value is a value that is automatically populated in a field when a new record is created, unless the user enters a different value. Setting the default value to Trade Show' would save the sales reps time and ensure that most of the leads have the correct value for the Lead Source field.

Creating a validation rule requiring the Lead Source field to equal Trade Show' would not work, because it would prevent the user from entering any other value, such as Web, Phone, or Referral, which may not be accurate for all leads. Making an assignment rule named Trade Show' to only assign leads to sales reps would not work, because it would not affect the Lead Source field, and it would not allow the user to assign leads based on other criteria, such as territory, industry, or product.

問題 #40

Get Cloudy Consulting (GCC) wants to customize its Sales application's Home tab with additional components.

Outside of the org, where should GCC' Salesforce associate go to collaborate with others on solutions that might resonate with GCC users?

- A. Explore documents In Help and Training.
- **B. Ask a question In a Trailblazer Community Group.**
- C. Search for modules in Trailhead.

答案： B

解題說明：

The best place for GCC's Salesforce associate to go to collaborate with others on solutions that might resonate with GCC users is to ask a question in a Trailblazer Community Group. A Trailblazer Community Group is a forum where Salesforce users, partners, customers, and employees can connect, share, and learn from each other. There are groups for different topics, regions, industries, and roles. The associate can join a group that is relevant to their needs and interests, and post a question or a discussion to get feedback and ideas from other members. Exploring documents in Help and Training or searching for modules in Trailhead are also useful ways to learn more about Salesforce, but they are not as interactive and collaborative as asking a question in a Trailblazer Community Group.

問題 #41

Get Cloudy Consulting wants to implement Salesforce within its sales and service divisions, and automate several processes that involve both.

Which approach should they explore first?

- **A. Declarative**
- B. Programmatic
- C. Third-party consulting services

答案： A

解題說明：

Declarative tools in Salesforce allow for process automation without the need for code. These tools, such as Process Builder, Flow Builder, and Approval Processes, enable users to configure automation that spans multiple divisions like sales and service. This approach is user-friendly, cost-effective, and faster to implement compared to programmatic solutions.

* B. Programmatic: Programmatic approaches (e.g., Apex code) should be used when declarative tools cannot meet specific complex requirements.

* C. Third-party consulting services: While consulting services may assist with implementation, exploring Salesforce's native tools should be the first approach.

問題 #42

An organization wants to implement Salesforce into its business model. The requirements include:

- * Operations management
- * Program management
- * Grantmaking
- * Fundraising
- * Marketing
- * Engagement

Which cloud is preconfigured to handle all of these requirements?

- A. Analytics
- B. Experience
- **C. Nonprofit**

答案： C

解題說明：

The Nonprofit Cloud is preconfigured to handle all of the requirements listed, such as operations management, program management, grantmaking, fundraising, marketing, and engagement. The Nonprofit Cloud is a set of solutions that helps nonprofits drive greater impact through connected experiences.

問題 #43

Where can a Salesforce associate find information that provides a view of interactions with a contact?

- A. Details Tab
- B. Contact History
- **C. Activity Timeline**

答案： C

解題說明：

The Activity Timeline in Salesforce provides a chronological view of all past and upcoming interactions with a contact. This includes logged calls, emails, meetings, and tasks. It is a central feature to track engagement and manage customer relationships effectively.

* B. Details Tab: Displays static information about the contact, such as name, email, and address, but not interaction history.

* C. Contact History: Refers to changes made to a contact's field values over time, not interaction logs.
