Exam Questions For Microsoft GH-100 With 1 year Of Updates

This is similar to the GH-100 desktop format but this is browser-based. It requires an active internet connection to run and is compatible with all browsers such as Google Chrome, Mozilla Firefox, Opera, MS Edge, Safari, Internet Explorer, and others. The Microsoft GH-100 Mock Exam helps you self-evaluate your GitHub Administration exam preparation and mistakes. This way you improve consistently and attempt the GH-100 certification exam in an optimal way for excellent results in the exam.

Microsoft GitHub Administration Sample Questions (Q38-Q43):

NEW QUESTION # 38

A token was used to access an organization's resource via API. What fields in the audit log help determine who used it?

- A. The token expiration date
- B. The token's permissions and the geographic region of access
- C. The token ID, requesting IP address, and associated user
- D. The GitHub Actions runner name

Answer: C

Explanation:

The audit log records the token's identifier (the hashed_token value), the source IP address of the request, and the actor (the user or app) associated with that token, allowing you to trace exactly who used it.

NEW QUESTION # 39

Which of the following is a benefit of creating a new GitHub organization?

- A. Clear separation of reggs, projects, teams, billing, and organization-specific policies.
- B. Simplified collaboration across all organizations.
- C. Reduced administrative overhead.
- D. Automatic inheritance of policies from other organizations.

Answer: A

Explanation:

Creating a new organization gives you a dedicated container for your shared work, letting you isolate repositories, projects, teams, billing settings, and policy configurations on an organization-by-organization basis.

NEW QUESTION # 40

A GitHub Enterprise administrator is planning to implement SAML SSO across their company. Which of the following correctly distinguishes enterprise-wide SAML SSO from organization-level SAML SSO?

- A. Enterprise-wide SAML SSO allows different organizations to use different authentication methods.
- B. Enterprise-wide SAML SSO ensures users authenticate through the same IdP across all organizations.
- C. Enterprise-wide SAML SSO requires less initial administrative overhead than organization-level implementation.
- D. Enterprise-wide SAML SSO immediately removes users who fail to authenticate via the IdP.

Answer: B

Explanation:

Enterprise-wide SAML SSO enforces a single IdP across all member organizations-its configuration overrides any per-organization SAML settings, so everyone must authenticate through the same provider.

NEW QUESTION # 41

In a GitHub repository using Dependabot, which of the following best describes the purpose of the .github/dependabot.yml file?

- A. It encrypts dependency versions before storing them in the repo.
- B. It configures scheduling, package ecosystems, and target directories for update checks.
- C. It lists commit SHAs to exclude from automatic pull requests.
- D. It enables GitHub to scan for secrets in dependency files.

Answer: B

Explanation:

The .github/dependabot.yml file defines Dependabot's package-ecosystem, the directories to inspect, and the update schedule (daily/weekly/monthly), controlling when and where Dependabot checks for new versions.

NEW QUESTION # 42

Your organization wants to reduce costs. Which of the following actions should you take?

- A. Regularly audit for inactive users
- B. Disable SAML SSO for members
- C. Grant all users admin permissions
- D. Remove all outside collaborators

Answer: A

Explanation:

Regularly auditing for inactive (dormant) users lets you suspend or remove accounts that aren't consuming seats - freeing up licenses and directly lowering your per-user subscription costs.

NEW QUESTION # 43

.....

We have always taken care to provide our customers with the very best. So we provide numerous benefits along with our GitHub Administration exam study material. We provide our customers with the demo version of the Microsoft GH-100 Exam Questions to eradicate any doubts that may be in your mind regarding the validity and accuracy.
