The ITCertMagic is a leading platform that is committed to making the Fortinet FCSS_SDW_AR-7.4 exam dumps preparation

simple, quick, and successful. To achieve this objective ITCertMagic is offering real, valid, and updated FCSS - SD-WAN 7.4 Architect (FCSS_SDW_AR-7.4) practice questions in three different formats. These formats are ITCertMagic Fortinet FCSS_SDW_AR-7.4 PDF Dumps Files, desktop practice test software, and web-based practice test software. All these ITCertMagic Fortinet exam questions formats are easy to use and compatible with all web browsers, operating systems, and devices.

Fortinet FCSS - SD-WAN 7.4 Architect Sample Questions (Q17-Q22):

NEW QUESTION # 17
Refer to the exhibit.

An administrator configures SD-WAN rules for a DIA setup using the FortiGate GUI. The page to configure the source and destination part of the rule looks as shown in the exhibit. The GUI page shows no option to configure an application as the destination of the SD-WAN rule Why?

- A. FortiGate allows the configuration of applications as the destination of SD-WAN rules only on the CLI.
- B. You cannot use applications as the destination when FortiGate is used for a DIA setup.
- C. You must enable the feature on the CLI.
- D. You must enable the feature first using the GUI menu System > Feature Visibility.

Answer: B

NEW QUESTION # 18
Refer to the exhibits.
Exhibit A

Exhibit B

```
View Install Log

Copy device global objects

validation error on firewall policy 1, by dynamic interface check

Vdom copy failed:
error 42 - entry not exist. detail: Dynamic interface "LAN" mapping undefined for device branch2_fgt

Copy objects for vdom root
```

Exhibit A shows a policy package definition. Exhibit B shows the install log that the administrator received when he tried to install the policy package on FortiGate devices.

Based on the output shown in the exhibits, what can the administrator do to solve the issue?

- A. Use a metadata variable instead of a dynamic interface to define the firewall policy.
- B. Dynamic mapping should be done automatically. Review the LAN interface configuration for branch2_fgt.
- C. Policies can refer to only one LAN source interface. Keep only the D-LAN, which is the dynamic LAN interface.
- D. Create dynamic mapping for the LAN interface for all devices in the installation target list.

Answer: D

NEW QUESTION # 19
Refer to the exhibits.
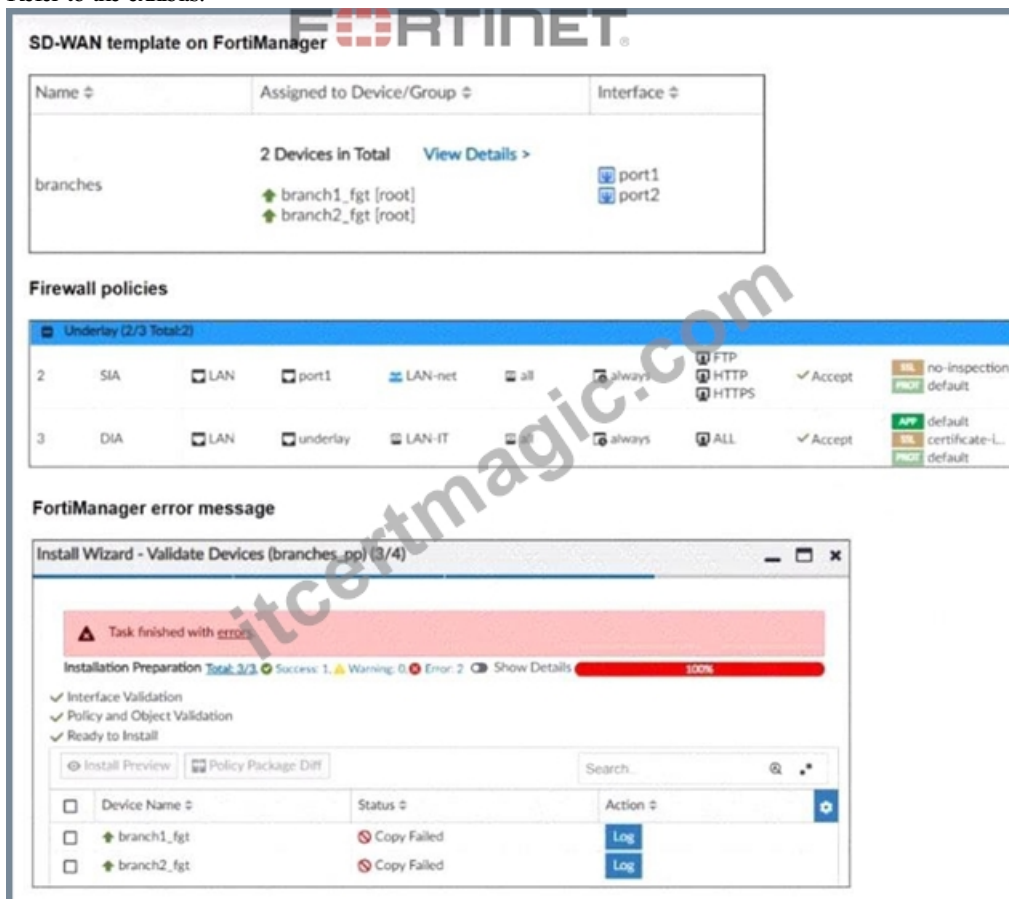

You use FortiManager to manage the branch devices and configure the SD-WAN template. You have configured direct internet access (DIA) for the IT department users. Now. you must configure secure internet access (SIA) for all local LAN users and have set the firewall policies as shown in the second exhibit.

Then, when you use the install wizard to install the configuration and the policy package on the branch devices, FortiManager reports an error as shown in the third exhibit.

Which statement describes why FortiManager could not install the configuration on the branches?

- A. You cannot install firewall policies that reference an SD-WAN zone.

- B. You cannot install firewall policies that reference an SD-WAN member.
- C. You must direct SIA traffic to a VPN tunnel.
- D. You cannot install SIA and DIA rules on the same device.

Answer: B

Explanation:
FortiManager enforces a strict distinction:
"Firewall policies must reference SD-WAN zones, not individual SD-WAN members, when used in conjunction with SD-WAN templates. Attempting to install a policy that references a specific member (interface) will result in a deployment error, as member-level targeting is not supported in SD-WAN policy abstraction. This enforces centralized policy consistency and proper SD-WAN operation." Ensuring policies target zones allows FortiGate to dynamically select the optimal member.

NEW QUESTION # 20
The administrator uses the FortiManager SD-WAN overlay template to prepare an SD-WAN deployment.
Using information provided through the SD-WAN overlay template wizard, FortiManager creates templates ready to install on the spoke and hub devices.
What are the three templates created by the SD-WAN overlay template for a spoke device? (Choose three.)

- A. IPsec tunnel template
- B. CLI template
- C. Rules template
- D. Static route template
- E. BGP template

Answer: A,C,E

Explanation:
Rules template # Defines the SD-WAN rules for traffic steering.
BGP template # Configures dynamic routing for overlay tunnels.
IPsec tunnel template # Builds the IPsec VPN tunnels from the spoke to the hubs.

NEW QUESTION # 21
SD-WAN interacts with many other FortiGate features. Some of them are required to allow SD-WAN to steer the traffic.
Which three configuration elements that you must configure before FortiGate can steer traffic according to SD-WAN rules? (Choose three.)

- A. Interfaces
- B. Security profiles
- C. Routing
- D. Traffic shaping
- E. Firewall policies

Answer: A,C,E

NEW QUESTION # 22
......

Fortinet certification FCSS_SDW_AR-7.4 exam, Free update for one year after purchasing is available for FCSS_SDW_AR-7.4 study guide, therefore there is no need for you to spend extra money on update version.

Inserting and Deleting Cells, Navigating the Online FCSS_SDW_AR-7.4 Shop, With a higher status, your circle of friends will expand, Our experts have been dedicated in this area for more than ten years on compiling the content of our FCSS_SDW_AR-7.4 training guide and keeping updating it to the latest.
